MTEC BUDGET HEARINGS: 2012 MTEF

Meetings for considering the 2012 MTEF budget submission are scheduled to take place on 25-27 October 2011.

I would like to invite you and your management team to this meeting.

It would be appreciated if your department could prepare a 60 minutes power point presentation covering the items indicated in the framework that accompanies this memorandum.

BACKGROUND

In order to work towards a coherent budget process, the Mpumalanga Provincial Treasury introduced Medium Term Expenditure Committee Hearings (MTEC Hearings) during 2006/07 financial year.

OBJECTIVES OF MTEC

The objectives of MTEC are to:

- improve analysis of key policies,
- fully examine the extent of reprioritisation,
- evaluate realistic spending plans,
- focus on policy areas and concurrent functions,
- reach agreement with departments on revisions to their medium-term draft budgets,
- assist in deciding on allocations to departments, whether the funds should be increased or decreased,
- engage on governance issues
- finalise recommendations for consideration and Executive Council approval,

The following are areas of policy significance that will be covered in the process:

 Whether the implementation of the agreed priorities that informed the preparation of the 2011/12 budget is on track from an implementation perspective. Key to this would be to determine whether the funding for these priorities is adequate in the first instance and subsequently whether the department will be confronted with any pressures in this regard;

MTEC Hearings will provide an opportunity to check whether the draft budget is appropriately responsive to national and provincial strategic priorities as articulated by the 12 national outcomes and provincial strategic objectives.

The engagements will also cover the progress that each department has made in responding to the socio-economic situation/challenges and service delivery environment within which it operates.

Discussions will also evaluate the impact of the department's spending on critical indicators relevant to the department,

- assessment of performance over the recent 6 months period, MEC speech (where applicable), APP 2011/12,
- SOPA pronouncements and 6 months performance 2011/12);
- Factors impacting on performance;
- Plans to be implemented to improve the level of performance;
- Future plans to improve level of performance.
- Assessment of outputs at sub-programme level, assessment of key cost drivers/inputs in achieving outputs.
- Identification of areas of potential savings or non-performing programmes.
- Identification of gaps between policy formulation and policy implementation at national and provincial sphere.

The framework for preparation for MTEC is attached hereto for ease of reference.

It must be noted that the electronic version of the framework was forwarded to Heads of Departments and Chief Financial Officers on 13 October 2011.

I look forward to welcoming you to these engagements.

Your co-operation is highly appreciated.

Kind Regards,

MR JB MBATHA

PART C

Supply Chain Management-Strategic Sourcing

Provincial Treasury to provide analysis As a provincial Administration, we need to demonstrate an improved understanding of:

- a) Spending patterns with regards to a chosen commodity
- Have measures in place to enable sourcing practitioners to make informed sourcing and supply management decisions;
-) Maximize the government's buying leverage;
- d) Optimize budgeting and planning processes;
- Drive continuous improvement in contract compliance and supplier performance.
