# ESTIMATES OF PROVINCIAL REVENUE AND EXPENDITURE

*Let's Grow Mpumalanga Together*

MPUMALANGA PROVINCE  
REPUBLIC OF SOUTH AFRICA

# FOREWORD

South Africa experienced sluggish economic growth for some time. At the beginning of the term of the sixth administration in 2019, national and provincial real GDP growth was low at 0.3 per cent and -0.1 per cent, respectively.

It is a known fact that the COVID-19 pandemic hit the global economy hard. South Africa, and by extension, Mpumalanga Province, was no exception. However, we have since seen a modest recovery, with signs of improvement emerging from the horizons.

The National Treasury's *2024 Budget Review* estimates that the national economy will eventually be around 0.6 per cent in 2023, with the real GDP growth revised to 1.3 per cent for 2024. Our estimates for the Province indicate a real GDP growth rate of 0.4% for 2023 and around 1% in 2024. This is much lower than the MTSF (Medium Term Strategic Framework) target of 2 to 3 per cent growth per annum in the 2019-2024 period.

The successive budgets that we tabled to the Legislature in the last five years sought to progressively improve the living circumstances of the society and respond to unacceptably high levels of unemployment, inequality, and poverty.

The 2024/25 Provincial Budget continues to promote inclusive growth and addresses social challenges facing the people of Mpumalanga. Key policy imperatives in this regard include:

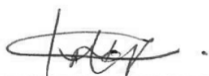

- Improving own revenue collection outcomes;
- Investing in social and economic infrastructure;
- Protecting social spending to address pressing societal requirements. The budget provides resources for teachers, nurses, doctors, and other critical skills that are essential for service delivery, and
- Improving efficiency and accountability, amongst others.

The Provincial Treasury will continue to work with all institutions to ensure the adequacy of internal controls so that the limited resources result in a demonstrable change in the quality of life of the people of Mpumalanga.

We believe this budget gives us an excellent opportunity to build on economic and social programmes that aim to bring positive change in the lives of all people of Mpumalanga.

I want to convey my sincere appreciation to Premier Refilwe Mtshweni-Tsipane, colleagues in the Executive Council, Budget and Finance Committee, Portfolio Committee on Premier's Office, Finance, Economic Development and Tourism for supporting the work that we do at the behest of the millions of the citizens of Mpumalanga.

I would also like to thank the Head Official, Ms Gugu Mashiteng, and all Provincial Treasury officials who worked tirelessly and assisted us in fulfilling this task bestowed on us by the legislation.

## **Overview of Provincial Revenue and Expenditure (OPRE)**

# 1. Socio-economic Review and Outlook of Mpumalanga

This section reflects on important socio-economic statistics in Mpumalanga and perspectives on the impact on the economy of Mpumalanga. Information used in this section was collected from approved and credible sources to provide a realistic picture of the socio-economic conditions in the province. The socio-economic outlook is crucial in the planning and budget process to ensure that any measures introduced by the provincial government, are in line with the ever-changing socio-economic dynamics. Placing Mpumalanga on a shared growth and integrated development trajectory requires a coherent and co-ordinated public sector response to the province's socio-economic opportunities and challenges.

## 1.1 Demographics

### 1.1.1 Population figures and growth

#### *Population*

According to Stats SA's *Census 2022*, Mpumalanga's population was 5.1 million or 8.3% of the national total (Table 1.1). Mpumalanga registered the sixth largest/fourth lowest share among the provinces. Gauteng (24.3%) was the province with the largest share of the national population, followed by KwaZulu-Natal with a 20.0% share. Northern Cape recorded the lowest percentage share of the national population at 2.2%. Mpumalanga's population increased by 1.1 million from 4.0 million in 2011, whilst the share of the national total increased from 7.8%.

#### *Households*

According to Stats SA's *Census 2022*, Mpumalanga's households numbered slightly more than 1.4 million or 8.0% of the national total in 2022 (Table 1.2). Mpumalanga registered the sixth largest/fourth lowest share among the provinces. Gauteng (29.8%) was the province with the largest share of South Africa's households, followed by KwaZulu-Natal with a 16.0% share. Northern Cape (1.9%) recorded the lowest percentage share of households. Mpumalanga's household number increased by 346 233 from 1.08 million in 2011 and the share of the national total increased by 0.6 percentage points.

Gender and age

Figure 1.1 shows the population cohort of Mpumalanga according to *Census 2022*. Females constituted 2.67 million or 52.0% of the provincial population distribution and males 2.47 million (48.0%). The youth cohort (0-34 year) made up 64.3% of the total population in the province and the age group 60 years and older, only 8.1%. The age cohort of 0-4 years represented the most populous age cohort with 542 593 individuals or some 10.6% of the provincial population. In South Africa, the youth cohort made up 61.1% of the total population and the age group 60 years and older, 9.9%. Nationally the most populous age cohort was also the 0-4 year group that represented some 9.4% of the population.

*Population growth*

Over the period 2011 to 2022, the population of South Africa increased by 1.8% per annum and that of Mpumalanga by 2.3% per annum. Mpumalanga recorded the second fastest average annual increase behind Western Cape (2.4%). According to estimates, the population of Free State increased the slowest - 0.7% annually (Figure 1.2).

**Figure 1.2: Comparison of annual population increase in South Africa by province, 2011-2022**

*Population groups*

The breakdown by population group for Mpumalanga in 2011 and 2022, is presented in Figure 1.3. The majority of Mpumalanga’s population in 2022 was Black Africans (95.2%) with Whites contributing 3.6%. Coloureds (0.6%) and Asians (0.5%) jointly contributed 1.1% to the total population in 2022.

*Population by district*

In 2022, 44.2% of Mpumalanga’s population resided in Ehlanzeni, 30.9% in Nkangala and 25.0% in Gert Sibande (Figure 1.4). Females were in the majority in Ehlanzeni (52.8%), Gert Sibande (51.7%), as well as in Nkangala (51.0%). In 2022, 66.0% of Ehlanzeni’s population was younger than 35 years of age, followed by Gert Sibande (64.3%) and Nkangala (61.8%).

### 1.1.2 Fertility

The fertility rate is defined as the number of children the average women would have in her lifetime. According to the *MYPE 2022*, Mpumalanga’s average fertility rate for the period 2011 to 2016 was 2.41 and 2.29 in the period 2016 to 2021. When compared with the other provinces Mpumalanga registered the seventh highest/third lowest fertility rate for the period 2016 to 2021, with Limpopo (3.09) the highest and Gauteng (1.89) the lowest. It is anticipated that Mpumalanga’s fertility rate will decline to 2.27 in the period 2021 to 2026. It is, however, it is expected to be the joint sixth highest of the nine provinces.

### 1.1.3 Life expectancy

The NDP targets both average male and female life expectancy at birth to improve to 70 years by 2030. In 2022, life expectancy in South Africa was 65.6 years for females and 60.0 years for males. Mpumalanga's male life expectancy at birth was 58.6 years for the period 2011 to 2016 and 60.7 years for the period 2016 to 2021. Mpumalanga's male life expectancy for the period 2016 to 2021 was the fourth highest of the nine provinces. Western Cape (65.5 years) had the highest/best male life expectancy with Free State (55.5 years) the lowest. According to the *MYPE 2022*, the projection for the period 2021 to 2026 is that male life expectancy in Mpumalanga could increase to 61.9 years.

Mpumalanga's female life expectancy for the periods 2011 to 2016 and 2016 to 2021 were 65.0 years and 65.8 years, respectively. Mpumalanga recorded the fourth highest female life expectancy for the period 2016 to 2021. Western Cape (71.1 years) had the highest/best female life expectancy and Free State (60.6 years) the lowest. According to the *MYPE 2022*, the projection for the period 2021 to 2026 is that female life expectancy in Mpumalanga could increase to 67.1 years.

### 1.1.4 Migration

Table 1.3 shows the net migration streams of the provinces over the period 2011 to 2022. The data was sourced from *Census 2022*. Intercensal migration analysis looks at migration flows between censuses. Western Cape, Northern Cape, North West, Gauteng and Mpumalanga showed positive intercensal net-migration. Therefore, between 2011 and 2022, more people migrated into these provinces than migrated out.

Gauteng and Western Cape recorded the highest number of persons who moved into these provinces since their birth as shown by the lifetime net migration. Mpumalanga registered a negative lifetime net migration of 24 246. This was the lowest negative migration.

**Table 1.3: Net migration in South Africa by province, 2011-2022**

Region	Intercensal migration	Lifetime migration
Western Cape	294 029	1 740 389

### 1.1.5 Disability

The disability status indicator is computed as prescribed by the United Nations (UN) disability index computation guidelines. A person is regarded as having a disability if they reported any of the following degrees of difficulty in the six functional domains of seeing, hearing, communicating, walking/climbing stairs, remembering or concentrating and self-care:

- A person who reported 'some difficulty' in at least two domains of functioning.

- A person who reported ‘a lot of difficulty’ in any of the six domains of functioning.
- A person who reported ‘unable to do’ in any of the six domains of functioning.

Table 1.4 presents the findings of *Census 2011* and *Census 2022* on disability in South Africa. Using the described classification system, 7.4% of South Africans aged 5 years and older were classified as disabled in 2011 and 6.0% in 2022. Mpumalanga’s percentage of persons aged 5 years and older with disability was 7.0% in 2011 and declined to 5.1% in 2022. Mpumalanga recorded the seventh largest/third lowest share of people with disability compared with the other provinces. Eastern Cape (8.5%) recorded the highest share and Gauteng (4.9%) the lowest.

**Table 1.4: Percentage of persons aged 5 years and older with disability by province, 2011-2022**

Region	Census 2011	Census 2022

## 1.2 Labour Profile

*Apex Priority Area 2 - A key priority of the South African government for the next five years is Economic Transformation and Job Creation.*

### 1.2.1 Labour force profile

South Africa’s employment figure increased from 15.9 million in Q4 2022 to 16.7 million in Q4 2023. The national economy gained 788 701 jobs on an annual basis, however, it lost 21 587 jobs on a quarterly basis. The national unemployment rate (official definition) improved from 32.7% in Q4 2022 to 32.1% in Q4 2023. The unemployment rate according to the expanded definition also declined/improved from 42.6% in Q4 2022 to 41.1% in Q4 2023.

The provincial labour force (official definition) of 1.92 million individuals was 64 572 more in Q4 2023 than a year earlier (Table 1.5). Mpumalanga’s provincial labour force increased by 56 396 on a quarterly basis. In Q4 2023, the employment figure in Mpumalanga reached a new record high of 1.25 million, marking a milestone in the region's employment statistics. The provincial number of employed was 63 869 more on an annual basis and 47 705 more on a quarterly basis.

The number of unemployed people (official definition) in the province increased by 8 692 on a quarterly basis and by 703 on an annual basis. The official unemployment rate of the province declined/improved from 36.1% in Q4 2022 to 34.9% in Q4 2023. The provincial unemployment rate according to the expanded definition improved to 45.8% in Q4 2023 from 48.2% in Q4 2022. Both the official and expanded unemployment rates declined/improved on a quarterly basis.

The labour force participation rate is the proportion of the working-age population that is either employed or unemployed. Mpumalanga’s participation rate improved on an annual as well as on

a quarterly basis to 61.0% in Q4 2023. The absorption rate is the proportion of the working-age population that is employed. Mpumalanga’s absorption rate improved on a quarterly basis to 39.7% in Q4 2023 and it improved an annual basis by 1.4 percentage points from the lower 38.2% recorded in Q4 2022.

## 1.2.2 Employment

The national labour market gained 194 496 jobs in the 5-year period from Q4 2018 to Q4 2023 (Table 1.6). Therefore, the average annual jobs gained on the national level was 38 899 per year. Western Cape (236 303) recorded the largest increase in job numbers over the five year period and Gauteng (-128 811) recorded the largest decline. Mpumalanga’s increase in employment numbers over the 5-year period of 4 757 was the lowest increase among the five provinces that gained jobs. Mpumalanga’s average annual employment increase of 0.1% per annum was also the lowest of the five provinces.

The national labour market gained 788 701 jobs between the end of Q4 2022 and the end of Q4 2023. Mpumalanga’s employment increased in 2023 by 63 869. KwaZulu-Natal (315 317) recorded the highest number of job gains over a 1-year period and Limpopo (13.8%) the highest annual increase in percentage terms. Mpumalanga recorded the fifth highest number of job gains and the fourth highest average annual employment increase.

Between Q3 2023 and Q4 2023, Mpumalanga’s employment numbers increased by 47 705 or by

4.0%. KwaZulu-Natal (61 987) recorded the highest number of quarterly job gains and Mpumalanga (4.0%) the highest quarterly increase in percentage terms. In Q4 2023, total employment in Mpumalanga constituted 7.5% of employment in the country, which was higher than the 7.4% share recorded in Q4 2022 and equal to the share recorded in Q4 2018.

### Employment target

The NDP targets a decline in the national unemployment rate to 6.0% by 2030. Similarly, the Provincial Vision 2030 targets a decline in the provincial unemployment rate to 25.0% by 2024 and 6.0% by 2030. In order to reach the unemployment rate target by 2030, it was calculated in 2013 that some 1.1 million new, sustainable jobs have to be created between 2013 and 2030. A recalculation based on Q4 2023 employment data was conducted in 2024. The result of the recalculation was that approximately 724 100 sustainable jobs must still be created between 2024 and 2030 to reach the desired unemployment rate.

**Figure 1.5: Mpumalanga employment numbers and employment target, 2017-2030**

Source: Stats SA – QLFS, 2024 & calculations based thereon

The updated number of 724 100 jobs equates to more or less 103 400 jobs per annum or an

annual average employment growth of 6.7% per annum. Figure 1.5 depicts historical employment numbers and required employment growth in Mpumalanga. It is evident from the illustration that the employment increase of 0.1% per annum – the average annual employment growth between 2017 and 2023 – will result in a much lower employment number than the envisaged target of 1.97 million jobs by 2030.

*Changes in employment since COVID-19*

To demonstrate the employment change since before the COVID-19 lockdown, Figure 1.6 presents the quarterly employment changes up to Q4 2023. Over the fifteen quarters under consideration, job gains were recorded in eight quarters. Due to these job gains, the latest employment level of 1.25 million in Mpumalanga was 4 424 more than the number employed in Q1 2020 before the lockdown was instituted. Mpumalanga was one of four provinces that has recovered fully to pre-COVID levels. The best recovery in job numbers post-COVID were recorded in Western Cape (256 026) and KwaZulu-Natal (183 939).

*Aggregate employment*

Table 1.7 shows the aggregated employment composition of employment in South Africa and the province between Q4 2022 and Q4 2023. In Mpumalanga, the formal employees’ share of total employment declined from 59.2% in Q4 2022 to 58.0% in Q4 2023. The formal sector in Mpumalanga (58.0%) recorded a significantly smaller share of total employment than was the case nationally (68.7%).

In Mpumalanga, the informal sector’s share increased from 25.6% to 26.6% on an annual basis. The share of agriculture declined to 6.9% and that of private households increased to 8.5% in Q4 2023. Over and above the 86 381 persons employed in Mpumalanga’s agriculture industry in Q4 2023, an additional 157 496 citizens were involved in subsistence farming.

The formal sector, informal sector and private households posted combined job gains of 69 191 over the 1 year period, whereas agriculture recorded job losses of 5 323. The net result was that Mpumalanga registered 63 869 job gains year-on-year. On a quarterly basis, Mpumalanga recorded a net increase of 47 705 jobs. This was due to combined job gains of 53 935 in the formal sector and private households, offsetting the combined 6 231 quarterly job losses in the informal sector and agriculture.

Changes in formal and informal employment since COVID-19

Figure 1.7<sup>2</sup> presents the quarterly aggregate employment changes up to Q4 2023. Over the period under consideration, the informal sector recorded combined job losses of 139 394 in seven quarters and combined job gains of 154 412 in eight quarters. Consequently, there was a net gain of 15 018 jobs in the informal sector. On the other hand, the formal sector encountered combined job losses of 226 416 in seven quarters and combined job gains of 214 939 in eight quarters. As a result, there was a net loss of 11 477 jobs in the formal sector during the specified timeframe.

Employment by industry

Figure 1.8 depicts employment by industry in Mpumalanga in the fourth quarters of 2018, 2022

<sup>1</sup> The informal sector comprises i) Employees working in establishments that employ less than 5 employees, who do not deduct income tax from their salaries & ii) Employers, own-account workers and persons helping unpaid in their household business who are not registered for either income tax or value-added tax.

<sup>2</sup> Excludes agriculture and private households, the other two components of aggregate employment that are addressed in Table 1.7.

and 2023, respectively. Community services (22.0%) and trade (22.0%), jointly employed the largest share of individuals in the province in Q4 2023. The share of community services declined over the last 12 months and the share of trade increased. Over the 5-year period, the contribution of both community services and trade increased.

Figure 1.8: Employment by industry in Mpumalanga, 2017-2022

Source: Stats SA – QLFS, 2024

Utilities was the smallest industry throughout while transport was the second smallest employing industry in Q4 2023. Over the course of the last year, finance recorded the largest percentage point increase and the largest percentage point decline was recorded by both manufacturing and transport. Over the course of the 5-year period, community services recorded the largest percentage point increase and manufacturing the largest percentage point decrease.

Over the last year since Q4 2022, six employment industries recorded job gains, whilst the other four registered lower employment numbers (Figure 1.9). The six industries with job gains, combined to record 101 845 new jobs over the 1-year period, whereas the four with job losses registered 35 539 destroyed jobs. Trade (27.8%) and finance (26.2%) made the largest contributions to job gains, whilst manufacturing (45.2%) and transport (35.4%) made the largest contribution to job losses.

The largest employment increase between Q4 2022 and Q4 2023 was in trade (28 270) and the largest decline in manufacturing (-16 048). Figure 1.9 also shows that over the last twelve months, the highest employment increase in percentage terms was in construction (24.5%) and finance (20.6%). The largest declines in percentage terms were registered in transport (-18.2%) and manufacturing (-15.2%).

*Impact of COVID-19 on employment by industry*

Table 1.8 presents the combined quarterly employment changes since the start of the COVID-19 lockdown up to Q4 2023. The employment numbers of agriculture, mining, utilities, trade, finance, community services and private households were higher in Q4 2023 than in Q1 2020. Trade

(10 749) recorded the highest net job gains, which was the result of combined quarterly job gains over the period under review of 147 234 and combined quarterly job losses of 136 485. Manufacturing recorded combined quarterly job losses of 100 698 and combined quarterly job gains of 85 272 to record the highest net job losses (-15 426) over the period under review. Transport (-8 377) also recorded considerable net job losses.

### Employment by gender and age

Figure 1.10 displays the employment by gender and age for Q4 2022 and Q4 2023, respectively. There were more males (55.4%) employed in Mpumalanga in Q4 2023 than females. Over the past year, the male employment number increased by 14 404 to 692 743. Female employment numbers increased by 49 465 to 557 396, and therefore recorded a higher share in Q4 2023 (44.6%) than a year earlier (42.8%).

In Q4 2023, adults (35-64 years) held the majority of jobs in Mpumalanga with a share of 63.8%. The adult employment numbers increased by 55 121 from a year earlier and the share increased

from 62.6% in Q4 2022 to the current 63.8%. The youth (15-34 years) employment numbers increased by 8 748 and therefore the youth share declined from 37.4% in Q4 2022 to 36.2% in Q4 2023.

### 1.2.3 Occupational profile

Figure 1.11 illustrates the occupational profile of Mpumalanga in the fourth quarter of 2022 and 2023, respectively. The occupational profile is an indicator of the quality of the labour force. It provides information on the proficiency levels and assists in identifying the shortage of skills in the economy, by matching the demand for labour with its relative supply.

Figure 1.11: Mpumalanga’s occupational profile, 2022-2023

Source: Stats SA – QLFS, 2024

The occupational profile was skewed towards semi-skilled and unskilled occupations in both years. The share of skilled occupations (managers, professionals and technicians) increased from 18.4% in Q4 2022 to 20.4% in Q4 2023. The share of semi-skilled occupations declined from 49.1% to 44.2% over the period under review. The combined share of elementary occupations and domestic workers (unskilled occupations) was 35.5% in Q4 2023, up from the 32.5% share of one year earlier.

### 1.2.4 Unemployment

#### *Strict definition of unemployment*

According to Statistics South Africa’s QLFS, the unemployment rate in Mpumalanga was 34.9% in Q4 2023, which was lower than the 36.1% recorded in Q4 2022, but substantially higher than the 32.0% in Q4 2018 (Figure 1.12). Mpumalanga’s unemployment rate increased/deteriorated by 2.9 percentage points over the 5-year period, however, it declined/improved by 1.2 percentage points over the last year. All the provinces registered a higher unemployment rate over the 5-year period. Mpumalanga’s deterioration over the 5-year period was, however, not as pronounced as for example Limpopo and North West. Mpumalanga was one of three provinces with a lower unemployment rate than the previous quarter.

**Figure 1.12: Strict unemployment rate for South Africa by province, 2018-2023**

Source: Statistics South Africa – QLFS, 2024

In Q4 2023, Mpumalanga’s unemployment rate was higher than the national average of 32.7%, as it has been throughout the 5-year period. Mpumalanga, recorded the fourth highest unemployment rate among the nine provinces, with Eastern Cape (41.9%) registering the highest unemployment rate in Q4 2023.

#### *Target unemployment rate*

The Mpumalanga Vision 2030 target unemployment rate for Mpumalanga is 6% by 2030. A significant unemployment rate sub-target is a reduction in the unemployment rate to 25% by 2024.

If 724 100 jobs were to be created by 2030, the unemployment rate should, in all probability, drop to 6% as is displayed in Figure 1.13. If jobs, however, are to be created in a similar fashion than between 2017 and 2023, the unemployment rate should in all probability be much higher than the current rate by 2030.

Strict unemployment by gender and age

Figure 1.14: Mpumalanga’s unemployed by gender and age group (15-64 years), 2022-2023

Source: Statistics South Africa – QLFS, 2024

Figure 1.14 displays the breakdown of unemployment by gender and age for the fourth quarter of 2022 and 2023, respectively. In Q4 2023, females accounted for 49.6% of the total number of unemployed individuals, while males constituted 50.4%. This female share was higher compared

to twelve months earlier when females made up 47.7% of the unemployed population. Among the unemployed, the youth cohort represented 58.4% of the total in the province, which was lower than the share recorded in Q4 2022 of 59.9%.

In Q4 2023, the unemployment rate of males stood at 32.8%, which was lower than the female unemployment rate of 37.3%. The unemployment rate for youth of working age (15-34 years) was 46.4%, whereas the unemployment rate of adults (35-64 years) was 25.9%. The female youth unemployment rate of 50.5% was significantly higher than the male youth unemployment rate of 42.6%. Additionally, the unemployment rate of the 18-24 year age cohort was 57.9% in Q4 2023, with the female unemployment rate in that age group reaching 64.6%.

#### *Duration of strict unemployment*

The incidence of long-term unemployment (1 year and longer) in Mpumalanga increased between Q4 2022 and Q4 2023. The share of the unemployed in Mpumalanga that indicated they were unemployed in excess of 12 months, increased from 69.5% to 75.5% (Table 1.9).

The incidence of long-term unemployment was the highest among females in Q4 2023. Both the number of males and females in long-term unemployment increased between Q4 2022 and Q4 2023. The youth cohort contributed 58.8% to the number of unemployed that has been struggling to secure employment for more than 12 months.

**Table 1.9: Duration of unemployment in Mpumalanga, 2022-2023**

Duration	Q4 2022			Q4 2023		
	Males	Females	Share of unemployed	Males	Females	Share of unemployed
1 year and longer	220 333	244 763	69.5%	240 581	265 238	75.5%

#### *Expanded definition of unemployment*

The expanded unemployment rate takes into account everybody who was available for work even if they did not search for work. In essence, it includes all persons who are unemployed according to the strict definition plus part of the inactive population who indicated that they were available, regardless of the reason they gave for not looking for work.

Figure 1.15 shows that South Africa's expanded unemployment rate was recorded at 37.0% in Q4 2018 and increased/deteriorated to 41.1% in Q4 2023. Mpumalanga's expanded unemployment rate was 45.8% in Q4 2023, which was lower than one year earlier, but higher than five years earlier in Q4 2018. It was higher than the national average and the fourth highest expanded unemployment rate among the nine provinces.

#### *Expanded unemployed by gender and age*

Figure 1.16 displays the expanded unemployment by gender and age for the fourth quarters of 2022 and 2023, respectively. In Q4 2023, females accounted for 54.0% of the total number of unemployed individuals and males 46.0%. The share of females was higher than twelve months

earlier when females contributed 51.0%. The youth segment contributed 58.9% to the overall number of unemployed individuals in the province, which was lower than the 62.3% share in Q4 2022.

In Q4 2023, the expanded unemployment rate of males stood at 41.2%, which was lower than the rate among females of 50.6%. The expanded unemployment rate of youth of working age (15-34 years) was 57.9%, while for adults (35-64 years) it was 35.2%. Notably, the unemployment rate among female youth was significantly higher at 63.1% compared to the male youth unemployment rate of 52.7%. The expanded unemployment rate of the 18-24 year age cohort was 70.2% in Q4 2023 and the 18-24 year old female unemployment rate was 75.9%.

*Discouraged work-seekers*

Statistics South Africa defines a discouraged work-seeker as a person, who was not employed during the reference period, wanted to work, was available to work or start a business but did not take active steps to find work during the four week that preceded the reference period.

South Africa had approximately 3.0 million discouraged work-seekers in Q4 2023. This represents a decrease of 314 062 from Q4 2022. Figure 1.17 indicates that Mpumalanga’s share was 10.5% or some 313 245 of South Africa’s discouraged work-seekers in Q4 2023. This was slightly lower than the 10.7% share a year earlier. The number of discouraged work-seekers in Mpumalanga declined by 46 569 from Q4 2022 to Q4 2023. When compared with other provinces, Mpumalanga registered the fourth highest/sixth lowest share of discouraged workers nationally.

**Figure 1.17: Provincial contribution to number of discouraged work-seekers nationally, 2022-23**

**Figure 1.18: Comparison of discouraged work-seekers as a ratio of regional working age population (15-64 years), 2022-23**

Source: Statistics South Africa – QLFS, 2024

It is evident from Figure 1.18 that Mpumalanga’s discouraged work-seekers as a percentage of the provincial working age population (15-64 years) decreased between Q4 2022 and Q4 2023. The discouraged work-seekers’ share of working age population in Mpumalanga (10.5%) was higher than the national share (7.7%) in Q4 2023. Discouraged work-seekers in four provinces constituted a larger share of the working age population than in Mpumalanga in Q4 2023.

### 1.3 Education Profile

*Apex Priority Area 3 - A key priority of the South African government is Education, Skills and Health.*

#### *Level of education*

When Mpumalanga’s highest level of schooling in 2022 is compared with the national figures, it is evident that there is less of Mpumalanga’s population, over the age of 20 years, at the higher levels of education than what is the situation nationally. For example, 12.2% of the people 20 years and older in South Africa have completed a post school qualification compared to 7.3% in Mpumalanga (Figure 1.19). On the other end of the spectrum, there is a slightly larger concentration of Mpumalanga’s population, over the age of 20 years, at the lower levels of education than nationally.

It is further evident when comparing provinces (Figure 1.20), that Mpumalanga (11.7%) registered the second highest (worst) share of people 20 years and older with no schooling. It was 4.8 percentage points higher/worse than the national share of 6.9% in 2022. Mpumalanga (40.2%) recorded the third highest/seventh lowest share of people 20 years and older with matric among the nine provinces, higher than the national share of 37.6%.

School attendance

Access to educational institutions is an important step to universal education, but the ultimate goal would be to keep children at school until completion of their education. Considering the relatively high children and youth population due to the demographic dividends of the country, concerted efforts have been made to expand the education system through establishing more institutions.

Figure 1.21: Attendance rate at an educational institution in South Africa's provinces, 2022

Source: Stats SA – Census 2022

The regional picture, presented in Figure 1.21, reflects the attendance rates in South Africa and the provinces. In 2022, the early childhood development (ECD) attendance rate in Mpumalanga

was 57.4%. Mpumalanga’s ECD attendance rate was lower than the national rate of 60.2% in 2022 and the fifth highest/lowest among the provinces. In 2022, the attendance rate for people 5 years to 24 years was 73.4% in 2022 in Mpumalanga. This rate for Mpumalanga was the same as that of South Africa and was the fifth highest/lowest among the provinces.

*Grade 12 NSC results*

The NDP states clearly that the throughput<sup>3</sup> rate should be between 80% and 90% by 2030 and that at least 80% of them should successfully pass the exit exams. In 2023, Mpumalanga’s national senior certificate (NSC) pass rate was 77.0%, which was lower than the national NSC pass rate of 82.9%. When Mpumalanga’s throughput rate for 2023 is calculated, it is evident that 67.2% of the grade ones in 2012 wrote the national senior certificate examinations in 2023, compared with the national throughput rate of only 59.2%. Mpumalanga’s throughput rate was the highest/best among the nine provinces and higher/better than the national throughput rate of 59.2%.

Table 1.10 compares the grade 12 pass rates among the various provinces from 2015 to 2023. The national pass rate of matriculants increased from 70.7% in 2015 to 82.9% in 2023. In contrast, Mpumalanga’s Grade 12 pass rate declined from 78.6% in 2015 to 77.0% in 2023. Between 2022 and 2023, Mpumalanga’s pass rate improved marginally from 76.8% to 77.0%. All nine provinces experienced an increase between 2022 and 2023, and Mpumalanga’s increase of 0.2 percentage points was the eighth highest/second lowest increase.

Mpumalanga’s pass rate was lower than the national grade 12 pass rate for the fifth consecutive year. Mpumalanga was the province with the eighth highest/second lowest pass rate in 2023, down from fifth highest in 2015. Free State (89.0%) recorded the highest Grade 12 pass rate in 2023 and Northern Cape (75.8%) the lowest.

A comparison of Grade 12 pass rates among the four education districts from 2015 to 2023 is presented in Table 1.11. Gert Sibande recorded an improvement between 2015 and 2023, whereas the other three education districts deteriorated over the 8-year period. Ehlanzeni registered the highest Grade 12 pass rate in 2023 at 81.8%, whereas Bohlabela’s pass rate was the lowest at 69.1%.

### Education ratios

According to the Department of Basic Education’s *School Realities* report of 2023, there were 1 150 356 learners (Grade 0 to 12) in 1 632 ordinary public and 139 independent schools in Mpumalanga, who were served by 37 143 educators. The learner-educator ratio (LER) in public schools of Mpumalanga declined between 2015 and 2023 from 31.4 to 30.9 learners per educator (Table 1.12). This was marginally higher than the national level of 30.8 learners per educator. The learner-school ratio (LSR) in public schools of Mpumalanga was higher than the national figure of 564 in 2023 and increased from 603 learners per school in 2015 to 682 in 2023. According to the educator-school ratio (ESR), the number of educators per public school increased between 2015 and 2023 from 19 to 22 and was higher than the national level of 19.

### School nutrition programme

According to the *General Household Survey (GHS) 2022*, 88.7% of children attending public schools in Mpumalanga benefitted from the school nutrition programme in 2022. This was higher than the national average (78.0%) and Mpumalanga ranked second highest among the nine provinces. The share of public school learners benefitting from this programme in Mpumalanga increased from 86.4% in 2014.

### 1.4 Health and Social Services

Apex Priority Area 3 - A key priority of the South African government for the next five years is Education, Skills and Health.

Figure 1.22 compares some of Mpumalanga’s health indicators with the national average level. The immunisation coverage (<1 year) in Mpumalanga of 89.1% was higher than the national level and the second highest/best among the nine provinces in 2022. Mpumalanga’s 2022 measles 2<sup>nd</sup> dose coverage was the highest/best in the country at 97.4%. The TB drug-susceptible (DS) client treatment success rate of 82.8% in 2021 was better than the national average (77.9%) and the highest/best in the country. Mpumalanga’s maternal mortality rate of 114.5 per 100 000 live births was higher/worse than the national rate of 101.0 and the fourth highest/worst among the provinces. In 2022, the inpatient early neonatal<sup>16</sup> death rate in facility of 10.5 per 1 000 live births was higher/worse than the national rate and the joint fourth highest/worst among the provinces.

#### HIV targets

The 95–95–95 targets are a set of global goals established by the United Nations Programme on AIDS and HIV. By 2025, the goal is that 95% of people living with HIV will know their HIV status, 95% of those who know their HIV-positive status will be accessing antiretroviral therapy (ART), and 95% of people on treatment will have suppressed viral loads. Combining all three 95% targets implies a target of 86% of all HIV positive individuals on ART and virally suppressed by 2025.

It is estimated that in 2022, 95% people in Mpumalanga living with HIV knew their status, 80% of those diagnosed were on ART and 92% of those on ART had suppressed viral loads. The combined result for Mpumalanga was 70% in 2022, which fell short of the combined target of 95%

<sup>16</sup> This rate measures the number of deaths of live born babies that occur within 7 completed days after birth per 1 000 live births. It includes only neonatal deaths when the foetus is of 26 or more weeks’ gestational age and/or weighs 500g or more.

but was higher than the national average of 65.5% and the third highest/best among the provinces.

*Medical aid coverage*

According to the *GHS 2022*, only 10.2% of individuals in Mpumalanga were members of medical aid schemes in 2022. This was lower than the national average (15.8%) and Mpumalanga ranked eighth highest/second lowest among the nine provinces. The share of individuals that were members of medical aid schemes in Mpumalanga decreased from 14.9% in 2014.

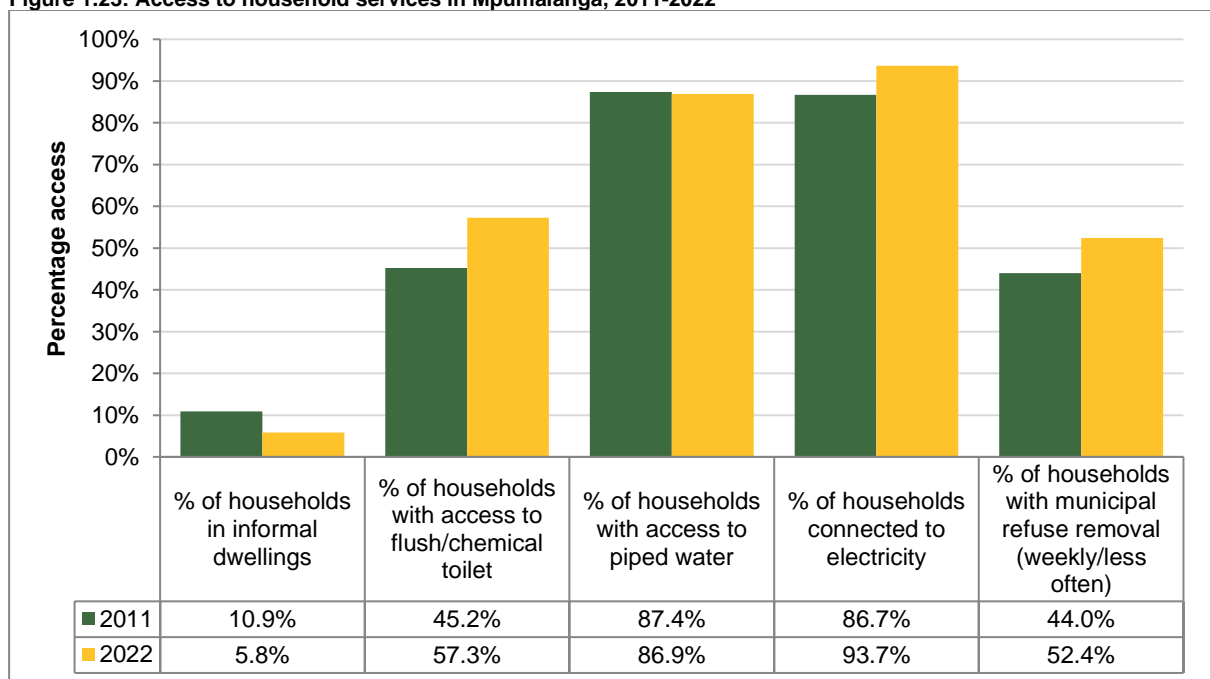

**1.5 Household Services**

*Apex Priority Area 4 - A key priority of the South African government for the next five years is Consolidating the Social Wage through Reliable and Basic Services.*

According to Figure 1.23, the share of households in Mpumalanga that occupied informal dwellings declined between 2011 (10.9%) and 2022 (5.8%). More households had access to flush/chemical toilets (57.3%) in 2022 than in 2011 (45.2%). The proportion of Mpumalanga’s households with access to piped water (86.9%) was slightly lower in 2022 than in 2011, and the households connected to electricity increased to 93.7%. Households with municipal refuse removal (52.4%) also improved from its 2011 level.

It is clear from Table 1.13 that 185 541 households in Mpumalanga still lacked access to piped water in any form and 82 428 households were still living in informal dwellings in 2022. The number of households that were not connected to electricity numbered 89 984, whereas 607 751 households did not have access to a flush/chemical toilet and 677 242 households indicated that it received no municipal refuse removal at least weekly or less often.

No electricity connection	89 984
Informal dwellings	82 428
No municipal refuse removal (weekly/less often)	677 242

Sources: Stats SA – Census 2022

The percentage of households in Mpumalanga without access to flush/chemical toilets was 42.7% in 2022 and was the second highest among the nine provinces. Figure 1.24 further reveals that Mpumalanga had the joint lowest/best share of households with no toilets and bucket toilets (2.9%).

**Figure 1.24: Selected household service levels in South Africa & provinces, 2022**

Source: Stats SA – Census 2022

In 2022, the percentage of households not connected to piped water in Mpumalanga was recorded at 13.1% (Figure 1.25). This was the third highest/worst backlog among the nine provinces and worse than the national backlog of 8.7%. The percentage of households in Mpumalanga not connected to electricity was recorded at 6.3% in 2022. In 2022, the electricity backlog in Mpumalanga was the third highest/worst and worse than the national backlog of 5.3%.

A relatively small percentage of households in Mpumalanga (5.8%) occupied informal dwellings in 2022, compared to the national figure of 8.1% (Figure 1.26). Mpumalanga ranked fourth lowest (best) among the nine provinces. The percentage of households that did not benefit from regular municipal refuse removal was recorded at 47.7% in 2022. This was the second highest/worst share among the nine provinces.

## 1.6 Development and Income Aspects

### 1.6.1 Human development index

The Human development index (HDI) is a composite, relative index that attempts to quantify the extent of human development of a community. It is based on measures of life expectancy, literacy and income. According to the United Nations, the HDI is considered high when it is 0.8 and higher, medium when it ranges between 0.5 to 0.8 and an index value of 0.5 and lower, will be considered as a low rating.

It is clear from the depiction in Figure 1.27 that Western Cape registered the highest HDI between 1996 and 2022. Mpumalanga’s HDI level improved over the 26-year period from 0.50 in 1996 to 0.62 in 2022. Despite improving between 1996 and 2022, it was still lower than the national level of 0.66 in 2022. Mpumalanga recorded the joint third lowest/joint sixth highest HDI level among the nine provinces in 2022 with Limpopo and Eastern Cape the joint lowest. Between the three districts in Mpumalanga, Nkangala recorded the highest HDI level of 0.64 in 2022 and Ehlanzeni the lowest at 0.60 (Table 1.14).

When the HDI levels of the various population groups in Mpumalanga are analysed, it is evident that the White population recorded the highest HDI level of 0.90 in 2022. Asians and Coloureds followed with HDI levels of 0.78 and 0.70, respectively. The Black African population registered the lowest HDI level of 0.58 (Table 1.15), however, the largest HDI improvement over the 26-year period was registered in this population group. Whilst the HDI level of Black Africans and Whites improved between 2018 and 2022, the HDI level of Asians and Coloureds remained unchanged.

## 1.6.2 Income inequality

### *Gini-coefficient*

The Gini-coefficient is one of the most commonly used measures of income inequality. The Gini-coefficient is derived from the Lorenz curve, which is a graphical depiction of income distribution. The Lorenz curve is a graphical presentation of the relationship between the cumulative percentage of income and the cumulative percentage of population. The coefficient varies from 0 (in the case of perfect equality where all households earn equal income) to 1 (in the case where one household earns all the income).

South Africa has one of the highest imbalanced income distributions in the world. The national Gini-coefficient was calculated to be 0.61 in 2022 (Table 1.16). The most recent national level only reflects a slightly less unequal income distribution than was the case in 1996. Income inequality has declined/improved steadily between 2009 and 2022.

The provincial income distribution followed the national trend and was slightly less unequal in 2022 (0.59) than in 1996 (0.60). Similar to the national situation, the provincial income inequality also remained declined/improved steadily between 2009 and 2022. Among the provinces, Mpumalanga (0.59) registered the joint second lowest level of income inequality in 2022, with Limpopo on 0.58, experiencing the lowest income inequality and Free State (0.61) the highest income inequality. In 2022, all three districts registered Gini-coefficients of 0.59, which indicates that inequality improved in Gert Sibande whilst it remained unchanged in Nkangala and Ehlanzeni.

**Table 1.16: Gini-coefficient for South Africa, Mpumalanga & districts, 1996-2022**

Region	1996	2000	2005	2009	2014	2018	2022
South Africa	0.62	0.66	0.64	0.65	0.64	0.63	0.61
Mpumalanga	0.60	0.64	0.63	0.63	0.62	0.61	0.59
Gert Sibande	0.60	0.64	0.64	0.63	0.62	0.61	0.59

Ehlanzeni	0.59	0.63	0.62	0.62	0.61	0.61	0.59

Source: S&P Global – ReX, December 2023

### *Share of income*

The NDP sets a target that the poorest 40% of households in South Africa must earn at least 10% of total income by 2030. In practise, one is able to calculate that the poorest 40% of households in Mpumalanga earned 8.0% of income in 2022 (Table 1.17). This was higher/better than the national figure of 7.2% for 2022, however, it was lower/worse than the 8.6% share achieved in 1996. Among the provinces, Mpumalanga registered the joint second highest/best share behind Eastern Cape (8.2%). In 2022, Ehlanzeni registered the highest share of income by the poorest 40% in Mpumalanga (8.4%), whereas the poorest 40% in Gert Sibande and Nkangala recorded shares of 7.8%, respectively.

### *Palma ratio*

The Palma ratio is a recently developed measure of inequality that can also assist in measuring the effectiveness of poverty reduction strategies. The ratio compares the top 10% of population's

share of gross income with the poorest 40% of the population's share of income. Internationally, a Palma ratio of more than 3 would place a region in the most unequal quartile and a Palma of less than 1.5 in the least unequal quartile.

**Table 1.17: Share of income earned by poorest 40% in South Africa, Mpumalanga & districts, 1996-2022**

Region	1996	2000	2005	2009	2014	2018	2022
South Africa	7.3%	6.0%	6.3%	6.3%	6.5%	6.5%	7.2%
Mpumalanga	8.6%	7.0%	7.3%	7.4%	7.5%	7.5%	8.0%
Gert Sibande	8.4%	6.7%	6.9%	7.1%	7.2%	7.3%	7.8%
Nkangala	8.1%	6.9%	6.9%	7.1%	7.4%	7.3%	7.8%
Ehlanzeni	9.5%	7.7%	8.0%	8.1%	8.1%	8.0%	8.4%

Source: S&P Global – ReX, December 2023

Table 1.18 displays the Palma ratio for South Africa, Mpumalanga and the districts over the period 1996 to 2022. South Africa's high Palma ratio of 6.70 in 2022 is comparable to the 7.05 calculated by Cobham and Sumner (2013) using World Bank indicators of 2010. The interpretation of South Africa's high Palma ratio reveals that for every R1 of total income that the poorest 40% received, the richest 10% received R6.70. The ratio has declined/improved from a high of 8.86 in 2000 and the 2022 ratio was lower/better when compared with 1996.

**Table 1.18: Palma ratio in South Africa, Mpumalanga & districts, 1996-2022**

Region	1996	2000	2005	2009	2014	2018	2022
South Africa	6.76	8.86	8.04	8.23	7.76	7.84	6.70
Mpumalanga	5.63	7.50	7.09	6.80	6.58	6.38	5.92
Gert Sibande	5.70	7.88	7.45	7.12	6.74	6.54	6.15
Nkangala	5.59	7.18	7.07	6.86	6.35	6.48	6.06
Ehlanzeni	5.26	6.99	6.50	6.51	6.18	6.18	5.63

Source: S&P Global – ReX, December 2023

Mpumalanga's Palma ratio of 5.92 in 2022 was lower/better than the national total. It declined/improved from 7.50 in 2000, however, it was still unacceptably high according to international standards. Mpumalanga's ratio was the lowest among the provinces and therefore the least unequal according to the Palma ratio. Gauteng (6.90) recorded the highest Palma ration in 2022. In 2022, Gert Sibande's Palma ratio of 6.15 was the highest/least unequal among the three districts.

### 1.6.3 Poverty aspects

#### *Poverty lines*

In 2012, Stats SA published a set of three national poverty lines based on expenditure data collected. The three lines were described as the food poverty line (FPL<sup>17</sup>), lower-bound poverty line (LBPL<sup>18</sup>) and upper-bound poverty line (UBPL<sup>19</sup>). The NDP refers to the LBPL when it states that the proportion of citizens in poverty must reduce to zero by 2030.

It is evident from Table 1.19 that the share of South Africa's population below the LBPL declined from 56.8% in 1996 to 45.0% in 2022. Mpumalanga's population share below the LBPL improved

<sup>17</sup> The level of consumption below which individuals are unable to purchase sufficient food to provide them with an adequate diet and amounted to R663 per capita per month in 2022.

<sup>18</sup> Includes expenditure on non-food items, but requires that individuals sacrifice food in order to obtain it and amounted to R945 per capita per month in 2022.

<sup>19</sup> Includes expenditure on adequate food and non-food items and amounted to R1 417 per capita per month in 2022.

from 64.3% in 1996 to 48.3% in 2020. Although South Africa and Mpumalanga registered an improvement over the 26-year period, the share of population below the LBPL increased between 2014 and 2022.

**Table 1.19: Share of population below the LBPL in South Africa & Mpumalanga, 1996-2022**

Region	% of population						
	1996	2000	2005	2009	2014	2018	2022
South Africa	56.8%	56.0%	48.9%	46.5%	38.4%	43.6%	45.0%
Mpumalanga	64.3%	63.1%	55.3%	51.5%	41.4%	46.7%	48.3%

In 2022, Mpumalanga’s share below the LBPL was higher than the national figure and the fourth highest/worst among the nine provinces with Eastern Cape (55.1%) registering the highest share and Western Cape (32.5%) the lowest. In 2022, Nkangala (43.1%) registered the lowest share of population below the LBPL and Ehlanzeni (52.8%) the highest. As with Mpumalanga, all three districts recorded a deterioration in the share below the LBPL between 2014 and 2022.

It is evident from Table 1.20 that the share of South Africa’s population below the FPL decreased/improved from 34.2% in 1996 to 30.9% in 2022. The sharp deterioration between 2014 (25.7%) and 2022 (30.9%) is, however, a big concern. Mpumalanga’s population share below the FPL improved from 39.0% in 1996 to 33.5% in 2022, however, as with the national share, Mpumalanga registered a deterioration/increase between 2014 and 2022.

In 2022, Mpumalanga’s FPL share was higher than the national figure and the fourth highest/worst among the nine provinces with Eastern Cape (39.2%) registering the highest/worst share and Western Cape (20.1%) the lowest. In 2022, Nkangala (29.1%) registered the lowest share of population below the FPL and Ehlanzeni (37.2%) the highest. As with Mpumalanga, all three districts recorded a sharp deterioration in the share below the FPL between 2014 and 2022.

The share of South Africa’s population below the UBPL declined/improved from 72.6% in 1996 to 60.8% in 2022 (Table 1.21). Mpumalanga’s population share below the UBPL also improved from 80.6% in 1996 to 64.4% in 2022. Similar to the findings of the LBPL and FPL, South Africa and Mpumalanga recorded a deterioration/increase between 2014 and 2022.

In 2022, Mpumalanga’s share was higher than the national figure and the fourth highest/worst among the nine provinces with Limpopo (71.5%) registering the highest share and Western Cape (47.7%) the lowest. In 2022, Nkangala (59.1%) recorded the lowest share of population below the UBPL and Ehlanzeni (69.1%) the highest.

*Number in poverty*

Between 1996 and 2022, the number of people below the LBPL in Mpumalanga increased by 124 179 from 2.13 million to 2.26 million (Figure 1.28). Amongst the three districts, Ehlanzeni recorded the largest number of people below the LBPL throughout the 26-year period and Gert Sibande the lowest. However, the number of people in poverty in Ehlanzeni increased by only 3 173 over the 26-year period, whereas Nkangala recorded 88 449 more people below the LBPL in 2022 than in 1996. It is evident how the number in poverty in all three districts (and Mpumalanga) increased sharply from 2011 onwards.

*Multidimensional poverty*

Multidimensional poverty constitutes several factors that amount to the poor’s experience of deprivation such as poor health, lack of education, inadequate living standards, lack of income and lack of decent work. The South African Multidimensional Poverty Index (SAMPI), published by Stats SA provides multidimensional poverty data at provincial and municipal levels. It was not intended to replace the poverty headcount using the poverty lines that were developed and should rather be seen as a complementary measure to these money-metric measures.

SAMPI is an index that is constructed using eleven indicators across four dimensions, namely

health, education, living standards and economic activity. The poverty headcount shows the proportion of households that are considered to be multidimensionally poor. The intensity of poverty is the average proportion of indicators in which poor households are deprived.

In 2011, the poverty headcount showed that 7.9% of households in Mpumalanga were multidimensionally poor, with the average intensity at 41.8% amongst the poor households (Table 1.22). By 2016, the fraction of poor households decreased/improved to 7.8% and the average intensity was higher/worse at 42.7%. Mpumalanga’s 2016 poverty headcount was the sixth lowest/fourth highest and higher than the national headcount. Mpumalanga’s intensity of poverty was the seventh lowest/third highest but lower than the national indicator.

#### 1.6.4 Ownership of household goods

Figure 1.29 compares the ownership levels of certain household goods in Mpumalanga between 2011 and 2022. It is evident that more households in Mpumalanga owned specific assets in 2022 than in 2011. The ownership of refrigerators (13.9 percentage point increase) increased the most between 2011 and 2022, followed by televisions (4.9 percentage point increase).

1.6.5 Income and expenditure aspects

*Household income*

According to the *Living Conditions of Households 2014/15*, the average annual household income for all households in South Africa increased from R103 204 per annum in 2011 (*Census 2011*) to R138 168 per annum (R11 514 per month) in 2014/15. Average household income in Mpumalanga increased from R77 609 per annum in 2011 to R107 561 per annum (R8 963 per month) in 2014/15 (Figure 1.30).

Mpumalanga’s average household income was the fifth highest in 2011 and the third highest in 2014/15. In 2014/15, the average household income of Western Cape households (R222 959 per annum) was the highest and that of Limpopo households (R79 152 per annum) the lowest.

*Expenditure categories*

In the *GHS 2022*, respondents indicated what expenditure category best describes the monthly household expenditure in 2022. The results of this question for South Africa and Mpumalanga is summarised in Table 1.23. It is evident that a major share of households in Mpumalanga (44.7%) indicated expenditure of less than R2 500 per month. A smaller share of households in South Africa (38.6%) indicated expenditure of less than R2 500 per month. Some 5.6% of households in South Africa indicated expenditure of more than R20 000 per month compared with 3.5% of households in Mpumalanga.

*Household income sources*

Figures on comparative of sources of income<sup>22</sup> of households are presented in Figure 1.31. The majority of households in South Africa are dependent on incomes from salaries with 59.7% of

households that received an income from salaries in 2022. In Mpumalanga, 55.6% of households received an income from salaries, however, more households received income from grants (62.4%) in Mpumalanga. Some 62.9% of households in Eastern Cape received income from grants in 2022, whilst only 37.1% of households in Western Cape received income from grants.

As part of GHS 2022, households were asked to indicate their main source of income. As a result, salaries were indicated to be the main source for 53.0% of households nationally, whereas grants were the main source for 23.5% of households (Figure 1.32). In Mpumalanga, salaries were also the main source for the majority (46.7%) of households with grants the main source for 27.1% of

### Social assistance grants

Together with providing income security to certain income insecure groups, the payments of grants made a positive impact on poverty and income inequality in Mpumalanga. Grants assisted to reduce poverty and redistribute income in Mpumalanga and its sub regions through the provision of income security. According to the South African Social Security Agency (SASSA), the number of South Africans that received social assistance grants increased from 15.9 million in 2014 to 18.5 million by January 2024.

In 2014, 1.32 million social assistance grants were paid to citizens of Mpumalanga. This was equal to an 8.3% share of the total national grant paid in 2014. By January 2024, the number of grants paid to citizens in Mpumalanga increased to 1.63 million or 8.8% of the total number of national grants. Mpumalanga registered the fifth highest/lowest number of social assistance grants among the nine provinces (Figure 1.33). KwaZulu-Natal (4.2 million) registered the highest number of grants paid by 2024 and Northern Cape (538 447) the lowest.

Despite the positive impact of social assistance grants on income distribution and poverty, skills development and employment creation remain the most important factors to improve the livelihoods of people. Skills constraints push up the premium for skilled labour, inducing large differences between salaries of skilled and unskilled people and thus raising levels of inequality. Therefore, income inequality can most effectively be reduced by improving the labour force’s skill levels and thus removing the premium for skilled labour. Poverty can also be reduced by building and developing capabilities of the workforce on a broad scale in order to increase employment creation through increased labour productivity and economic growth.

It is evident from Figure 1.34, that 75.2% of Mpumalanga’s total social assistance grants by January 2024 were child support grants, which was higher than the 74.5% share in 2014. In actual

numbers, child support grants increased from 984 641 in 2014 to 1 206 212 in 2024. The number of old age grants increased from 217 045 in 2014 to 289 909 in 2024 and their share of the total number of grants increased to 18.1% in 2024. Disability grant recipients increased in number from 79 244 in 2009 to 81 113 in 2022, however, it recorded a smaller share in 2022 (5.0%) of the total number of assistance grants than in 2009 (7.7%). In 2022, the total number of grants in Mpumalanga numbered 1.61 million, whereas the number of employed was lower at 1.19 million.

## 1.7 Economic Sectors and Performance

*Apex Priority Area 2 - A key priority of the South African government for the next five years is Economic Transformation and Job Creation.*

### 1.7.1 GDP contribution and growth

In September 2023, Stats SA published a discussion document that provided experimental statistics on provincial GDP from 2013 to 2022. These were not released as official statistics, however, it was the first release by Stats SA of provincial GDP data for a number of years. Therefore, for the purpose of this publication, and until further notice, the provincial GDP estimates will rely on the experimental statistics from Stats SA as well as provincial GDP estimates from S&P Global.

#### *Provincial contribution*

It is estimated that in 2022, Mpumalanga contributed some R531.8 billion in current prices, or some 8.0%, to the GDP of South Africa. Converted to constant 2015 prices, Mpumalanga's contribution was R340.1 billion in 2022. In 2022, Mpumalanga's contribution in constant 2015 prices was the fifth largest among the nine provinces. Mpumalanga's contribution in constant 2015 prices decreased from 8.3% in 1996 to 7.4% in 2022. Gauteng (34.2%) was the main contributor to the national economy in 2022.

#### *Historic growth patterns*

In general, the economic growth of the province, as measured by growth in the GDP, was lower than the national rate (Figure 1.35). The provincial economy has outperformed the national economy in terms of GDP growth only in 1998, 1999, 2009, 2014, 2017 and 2021. The average annual growth rate for the country and Mpumalanga over the period 1996 to 2023 was 2.2% and 1.8%, respectively.

It is of great concern that the average annual economic growth for South Africa was only 0.2% between 2019 and 2023, whereas Mpumalanga's economy expanded by only 0.1% per annum over the same period (Table 1.24). Mpumalanga recorded the joint second lowest annual average GDP growth rate in the 27-year period and the joint slowest growth between 2019 and 2023. In 2022, Mpumalanga's economy expanded by an estimated 0.6%, which was much weaker than the 5.2% recovery registered in 2021. It is estimated that Mpumalanga's economy expanded by only 0.4% in 2023. In 2022, Mpumalanga's growth was the joint slowest overall and the 2023 estimate is joint fourth slowest.

The NDP set a target for average annual national GDP growth up to 2030 of more than 5%. It is apparent from Table 1.24, that only Western Cape and North West achieved the desired growth in the 2001 to 2006 period. Mpumalanga's highest period of growth was between 2001 and 2006, whereas the lowest period of growth (largest contraction) was between 2019 and 2023. It is expected that Mpumalanga's economy will expand by 2.1% per annum between 2024 and 2027. This should be marginally lower than the expected national expansion of 2.3% per annum and the joint fifth highest among the provinces. It is expected that the Mpumalanga economy will expand in 2023 by 0.4% and in 2024 by 1.0%.

Because of the moderate economic growth experienced in South Africa over the last 27 years, the South African economy has not doubled in size between 1996 and 2023. From Figure 1.36 it is also evident that no provincial economy was by 2023 double its size of 1996. By 2023, the Western Cape economy, which grew the fastest between 1996 and 2023, was 197.5% of its 1996 size. Mpumalanga’s economy was 161.0% of its 1996 size and registered the seventh highest/third lowest increase. For an economy to double in size over a 27-year period, an annual average growth rate of 2.6% is required.

### Economic growth since COVID-19

Prior to the COVID-19 outbreak in 2019, the economy of South Africa was already underperforming with a very low 0.3% growth rate and a quarter-on-quarter<sup>21</sup> (q-o-q) GDP growth (seasonally adjusted) in Q1 2020 of only 0.2%. In Q2 2020, when the COVID-19 lockdown was at its most severe, the South African economy contracted by 16.9% (seasonally adjusted) and the Mpumalanga economy by 18.6% (Figure 1.37). With the easing of the lockdown, the national and provincial economies expanded again in Q3 2020 by 13.7% and 17.7%, respectively. The

<sup>21</sup> Q-o-q analysis compares the current quarter to the previous quarter.

national economy would eventually contract by 6.0% in 2020 and the Mpumalanga economy by 5.3%.

S&P Global – ReX, December 2023

The national and provincial economies have faced persistent challenges in its economic recovery efforts since 2020, grappling with both domestic and global factors. On the domestic front, load shedding has posed a significant obstacle, while globally, modest growth hindered mostly by supply chain bottlenecks has compounded the difficulties. Nevertheless, in 2021, both the South African and Mpumalanga economies registered, respective, economic growth of 4.7% and 5.2%

from the low base of 2020. In 2022, both the national and provincial economies registered low and uneven growth of 1.9% and 0.6%, respectively.

In Q3 2023, the South African economy contracted by 0.2% after expanding slowly in the two preceding quarters. Over the last thirteen quarters since the severe slump in Q2 2020, the South African economy has recorded nine quarters of expansion and four of decline (Figure 1.38). Despite the nine quarters of expansion, the national economy was only 0.4% larger in Q3 2023 than what it was in Q1 2020, before the COVID-19 pandemic.

When comparing the first nine months of 2023 to the corresponding period in 2022, the national economy experienced cumulative growth of 0.4%. Furthermore, over the rolling four quarters from Q4 2022 to Q3 2023, the South African economy achieved a 0.6% year-on-year growth. However, it is worth emphasising that this growth in 2023 remains below the growth target and that South Africa’s economic progress since COVID-19 has been predominantly stagnant as indicated in the last paragraph.

The provincial economy has now also registered nine quarters of growth and four of contraction since the drop in economic activity during Q2 2020. The contraction in Q2 2020 was so severe that the provincial economy, despite the nine quarters of expansion, was still 0.6% smaller in Q3 2023 than what it was in Q1 2020. The sharp decline in Mpumalanga’s economic activity during Q2 2020, when lockdown restrictions were at their most severe, is evident in Figure 1.38. In Q1 2020, real GDP was R85.6 billion, which shrunk to R69.8 billion in Q2 2020 as the economy was severely impeded by the strict lockdown regulations. In Q3 2023 the Mpumalanga economy was approximately the same size than it was in Q3 2018.

Consumer confidence as well as business confidence in South Africa has been predominantly negative over the last four years (Figure 1.39). Consumer confidence has recently been shaken by the electricity crisis and concerns about rising inflation. Having reached a low of -25 in Q2 2023, consumer confidence rebounded to -16 in Q3 2023 only to edge slightly lower to -17 in Q4 2023. After falling to 27 in Q2 2023, business confidence regained some ground to register a level

of 33 in Q3 2023 only to slip again to 31 in Q4 2023. The challenges posed by relatively high interest rates, the resultant strain on consumers, and social unrest meant that business activity remained constrained.

*Forecasted growth*

Current 2024 growth estimates for South Africa by the IMF (1.0%) and World Bank (1.3%) points to lacklustre economic growth in 2024. The latest SARB forecast in January 2024 estimated the national economy to expand by 1.2% in 2024 and the Minister of Finance announced in the February 2024 Budget Speech that the expected economic growth for 2024 is 1.3%.

The annual average growth rates for South Africa and Mpumalanga, from 2024 to 2027, are forecasted at 2.1% and 2.3%, respectively (Table 1.25). Mpumalanga’s economy is forecasted to achieve the joint fifth fastest annual average growth over the period 2024 to 2027. It is expected that the Mpumalanga economy will expand in 2024 by 1.0%.

*Mpumalanga Economic Reconstruction and Recovery Plan (MERRP)*

The Mpumalanga Provincial Government adopted the MERRP and roadmap for further consultation with private sector, organised labour and civil society. The objective of the MERRP is to align with the national plan and prioritising specific areas that are relevant to Mpumalanga. The MERRP will therefore seek to address the negative impact of COVID-19 on the provincial economy and the livelihoods of its citizens. The eventual MERRP Implementation Plan will predominantly be project-based to stimulate growth and create jobs.

The priority areas of the MERRP are the following:

- Rollout of infrastructure – i.e. improvement of tourism road infrastructure;
- Industrialisation through localisation and export promotion – i.e. establishment of the Mpumalanga International Fresh Produce Market, three Industrial Technology Parks and the Nkomazi SEZ;

- Energy security and green economy – i.e. recycling and waste to energy;
- Employment stimulus – i.e. increased access to funding for SMMEs and Cooperatives;
- Tourism, cultural and creative industries – i.e. Barberton Makhonjwa Mountains World Heritage Site, and
- Agriculture and food security – i.e. increase in agricultural production (Zonda Indlala).

The key enabling factors of the MERRP are seen as the following:

- Resource mobilisation and the fight against corruption;
- Building social compacts;
- Strengthening the capacity of the State;
- Accelerating the rollout of broad-band infrastructure;
- Skills development;
- Cooperation with African countries to promote trade through the African Continental Free Trade Agreement, and
- Support for SMMEs, cooperatives and start-ups.

#### *GDP per capita*

GDP per capita is often considered an indicator of a region's standard of living on the rationale that all citizens would benefit from the region's increased economic production. Mpumalanga Vision 2030, states that the GDP per capita expressed in constant 2015 prices must increase from an estimated R76 100 in 2010 to R140 000 by 2030. In 2021, the provincial GDP per capita was, however, lower than in 2010 with an estimate of only R72 800 per person. Sustained annual average GDP growth of more than 5% is necessary to come near to the set target of R140 000 by 2030.

#### *Fixed investment*

Investment in infrastructure builds economic capacity and enhances competitiveness, while contributing to the quality of life of poor people. In 2022, the gross domestic fixed investment (GDFI) in Mpumalanga amounted to R63.6 billion which was equal to 9.5% of total GDFI in South Africa (Figure 1.40). From 2010 to 2022, GDFI contracted on average by 0.3% per annum in South Africa and by 0.4% per annum in Mpumalanga.

According to the NDP, public infrastructure investment must be equal to 10% of GDP by 2030. In 2022, expenditure by the Mpumalanga Provincial Government (MPG) on infrastructure was equal to approximately 1.4% of provincial GDP. If the 2022 Municipal Infrastructure Grant (MIG) expenditure by municipalities is added to MPG infrastructure expenditure, then public expenditure on infrastructure was equal to 2.3%. In order to reach the stated goal of 10% of GDP by 2030 in Mpumalanga, public expenditure on infrastructure in Mpumalanga has to increase annually by more than 20%.

### 1.7.2 Inclusive growth

The overall Inclusive Growth Index<sup>22</sup> (IGI) seeks to reflect the extent to which people living within a specific region can be considered included in the benefits of economic growth and national prosperity and the extent to which they are equipped with the skills that aid participation in the economy. An examination of the differences between regions is important in that it highlights geographical patterns in economic inclusion and prosperity.

In 2022, Western Cape and Gauteng recorded the highest overall IGI scores of 11.37 and 9.17, respectively. Limpopo (1.38) and North West (1.88), registered the lowest overall scores among the nine provinces. Mpumalanga’s overall IGI score of 3.41 was the sixth highest/fourth lowest among the nine provinces (Figure 1.41). Mpumalanga’s score was considerably lower than Western Cape and Gauteng in the first two positions and lower than the mean (4.26) for the nine provinces. The economic inclusion theme made the largest contribution in eight provinces (including Mpumalanga) and the prosperity theme made the largest contribution in Gauteng only.

If the individual prosperity and economic inclusion themes are considered, there were differences in rankings compared with the overall IGI score. For example, Northern Cape scored eighth highest/second lowest in the prosperity theme and third highest/seventh lowest in the economic inclusion theme. Mpumalanga ranked joint fifth highest/lowest in the economic inclusion theme and sixth highest/fourth lowest in the prosperity theme.

The normalised change scores, displayed in Figure 1.42, provide a way of assessing overall change on the two themes based upon percentage change in the underlying indicators. Here an

<sup>22</sup> The Inclusive Growth Index was adapted from the Inclusive Growth (IG) Monitor developed by Manchester University in 2014. The Inclusive Growth Index depicts the extent to which people living within an area may be considered as economically included and benefiting from broader national prosperity. The index is divided into two themes (Economic inclusion and Prosperity) each with three underlying dimensions constituted by a set of two indicators. Each indicator is normalised giving a minimum score of zero for the lowest scoring area and a maximum of one for the highest scoring. This means that each dimension has a minimum score of zero and a maximum score of two, therefore each theme can have a minimum score of zero and maximum of six.

area with the lowest score has the least improvement or greatest deterioration on a given theme, whereas the area with the highest score has the biggest improvement or least deterioration. The change scores provide a way of summarising the performance of different regions in inclusive growth over the 5-year period between 2017 and 2022.

Figure 1.41: Inclusive growth scores by province, 2022

Source: DEDT - Economic Analysis Inclusive Growth Model, 2023

Figure 1.42: Inclusive growth change scores by province, 2017-2022

Source: DEDT - Economic Analysis Inclusive Growth Model, 2023

When examining change in economic inclusion and prosperity together, the overall IGI change scores show that between 2017 and 2022, Limpopo (8.60), Northern Cape (6.67), and KwaZulu-Natal (6.66) experienced the biggest improvement in their respective scores (Figure 1.42). Mpumalanga (5.27) recorded the third lowest/seventh highest IGI change score, and it is evident that Mpumalanga’s IGI change score was lower than the mean IGI change score (6.12) between 2017 and 2022.

When one considers the change in individual theme scores, it is apparent that the majority of change in all nine provinces were not down to one dominant theme. Four provinces, Mpumalanga included, recorded higher change scores in the inclusion theme than in the prosperity theme, whereas five provinces recorded higher change scores in the prosperity theme.

Between 2017 and 2022, Limpopo (4.49) registered the highest improvement in economic inclusion and Western Cape (2.19) the lowest. Over the same period, KwaZulu-Natal (3.72) recorded the highest change score in the prosperity theme and Gauteng (1.65) the lowest. Mpumalanga recorded the third highest change score in the economic inclusion theme between 2017 and 2022, however, it could only register the seventh highest change score in the prosperity theme.

### 1.7.3 Regional contribution

The economic industries are classified according to the International Standard Industrial Classification of all Economic Activities (ISIC). This classification system, employed by Stats SA, groups together economic activities that are closely related. Statistical information is then collected and classified according to the categories of economic activities, which are as homogenous as possible.

Figure 1.43 depicts the contribution of each of the economic industries in Mpumalanga to the corresponding national industry between 1996 and 2022. It is estimated that in 2022, the province was a substantial role-player in the national mining and utilities (mainly electricity) industries, with respective shares of 22.8% and 13.4%. It is noticeable that the contribution by Mpumalanga’s mining, utilities, agriculture and manufacturing industries increased between 1996 and 2022, whereas the other industries’ contribution, with the exception of community services, declined.

Table 1.25 exhibits the contribution by each of the three districts to the provincial industries in

2017 and 2022. Ehlanzeni was the largest contributor to the provincial GVA with a share of 37.2% in 2017 and 38.1% in 2022. In 2022, the contribution by Gert Sibande was 25.0% and that of Nkangala 37.0%. Nkangala made considerable contributions to the province’s mining (59.7%), manufacturing (38.6%), and utilities (38.7%) in 2022. Gert Sibande made substantial contributions to agriculture (36.6%) and manufacturing (32.3%) and Ehlanzeni played a major role in the province’s construction (43.9%), trade (45.0%), finance (46.1%), and community services (47.4%).

In 2022, City of Mbombela (24.9%), Emalahleni (16.9%), Steve Tshwete (12.2%), and Govan Mbeki (10.6%) contributed 64.6% to the Mpumalanga economy. Dipaleseng (1.1%) made the smallest contribution to the provincial economy.

1.7.4 Sectoral contribution and performance

Current prices and constant prices

Current prices measures GDP using the actual prices we notice in the economy. Current prices make no adjustment for inflation and is also called nominal prices. Constant prices adjust for the effects of inflation and is also called real prices.

Table 1.26 and Figure 1.45 displays the GDP contribution in 2022 of the various economic industries in Mpumalanga in terms of current and constant 2015 prices. In terms of current prices in 2022, mining (R110.7 billion) was the largest industry and community services (R102.1 billion) the second largest industry in Mpumalanga. In terms of constant 2015 prices, community services (R74.5 billion) was the largest industry in 2022 and finance (R53.5 billion) the second largest industry.

Figure 1.45: GDP contribution of industries to Mpumalanga economy, 2022

Source: Stats SA – Provincial gross domestic product: experimental estimates, 2013-2022

In comparing the economy over different years, it is important to know if the economy is really producing more, or if the price of the products merely increased. If the GDP contribution of an

industry went from R1 billion a year to R1.5 billion in the next year, that would seem to be a very substantial increase of 50% in production. However, if inflation was at 10% a year, the value of that extra 50% value addition would be reduced by the effects of inflation to 40%.

Using constant prices enables one to measure the actual change in output and not the increase due to the effects of inflation. When comparing the growth and the contribution of an industry between various years, there must be an adjustment for the effects of inflation. Therefore, in this publication, growth rates and contributions of industries are generally calculated with real or constant prices.

*Structure of the provincial economy in constant 2015 prices*

In 2022, the primary sector in Mpumalanga contributed 19.4%, the secondary sector 19.9% and the tertiary sector 60.7% to the provincial GDP at basic prices. Although the economy depended less on the primary sector in 2022 than in 1996 (25.0%), it continued to stand in contrast to the national primary sector’s small contribution of 8.1% in 2022. The much smaller contribution by mining to the national economy (4.9% versus 15.0% in Mpumalanga) was the main reason for the difference in primary sector contribution. Nationally, the secondary sector added 17.7% and the tertiary sector 74.3% in 2022, with community services (26.3%) the single largest industry.

Figure 1.46 displays the share of each economic industry in the provincial economy between 1996 and 2022. It is estimated that in 2022, the three largest contributors to the provincial economy were community services (24.2%), finance (17.4%) and mining (15.0%). The top three’s ranking was somewhat different from 1996, when community services contributed 22.4%, mining 21.7%, and finance 13.6%.

Historic and forecasted growth for the economic industries of Mpumalanga is presented in Table 1.27. Between 1996 and 2023, the industries with the fastest economic growth were transport

(3.1%) and agriculture (3.1%). Over the period 2024-2027, it is expected that transport (3.5%) and finance (3.4%) will record the highest average annual growth per annum. The relatively low growth expectation for mining and community service are concerning.

Figure 1.47 illustrates the change in value by industry from 2019 to 2023. The real value of four industries increased whereas five industries declined. Community services (R6.1 billion) registered the largest increase over the 3-year period and mining (-R7.4 billion) the largest decline.

According to Table 1.28, finance is expected to be the main driver of provincial economic growth between 2024 and 2027. Community services are expected to make the second largest contributor to provincial growth in the 3-year period, whereas mining is expected to add the same as manufacturing, trade and transport.

*Structure of the districts*

Table 1.29 displays the share of each economic industry in the three districts’ economies in 2017 and 2022. The community services industry was the largest industry in Gert Sibande in 2022 with a 21.8% share. Mining activities made the largest contribution to the Nkangala economy as it added 24.3% to the district’s economy in 2022. In 2022, the largest contributing industry in Ehlanzeni was community services with a share of 30.2%. The contributions by the primary sector in Ehlanzeni increased between 2017 and 2022, whereas the contribution of the tertiary sector increased in Gert Sibande and Nkangala over the same period.

*Performance and employment in the provincial economy*

Figure 1.48 depicts the real growth per industry over the period 2017 to 2022 in the left-hand diagram and the changes in employment numbers over the same period in the right-hand diagram. Over the 5-year period agriculture registered the highest average annual growth rate, whereas construction contracted the most.

In 2022, some 31 895 less people were employed by the nine industries in Mpumalanga than in 2017. In the right hand diagram, it is observable that only three of the industries, namely transport, mining and community services, gained jobs over the 5-year period. Agriculture, finance and trade lost jobs despite expanding in GDP terms.

### 1.7.5 Diversification of the economy

The Tress Index measures the level of concentration or diversification in an economy. An index score of zero represents a much diversified economy, while a number closer to 100 indicates a high level of concentration.

In 2022, the economy of Mpumalanga appears to be more diversified than that of South Africa with an index score of 42.1 compared to a national score of 44.3. Among the nine provinces, Mpumalanga had the most diversified economy in terms of the Tress Index.

### 1.7.6 Comparative advantage of the economy

The location quotient is an indication of the comparative advantage of an economy. An economy has a location quotient larger (smaller) than one, or a comparative advantage (disadvantage) in a particular industry when the share of that industry in the provincial economy is greater (less) than the share of the same industry in the national economy.

Table 1.30 provides the location quotients of the various industries in Mpumalanga, indicating their respective comparative advantages. In Mpumalanga, agriculture (1.25), mining (2.22), utilities (3.37) and trade (1.10) held a comparative advantage over the same industry in the national economy. A rule of thumb is that when an industry has a location quotient of 1.2 or above it indicates that some degree of specialisation is taking place in that particular industry compared with the national industry. Mpumalanga recorded three industries (agriculture, mining and utilities) with a location quotient higher than 1.2.

Comparative advantage analysis can be improved with two indicators to yield a dynamic location quotient. These two indicators are percentage change in location quotient over time and the size of the industry in terms of jobs. Industries can then be classified in four quadrants based on its location quotient and change in location quotient and ranked according to size.

**Table 1.30: Comparative advantage of industries in Mpumalanga and districts, 2023**

Industry	Mpumalanga
Agriculture	1.25
Mining	2.22
Manufacturing	0.79
Utilities	3.37

Trade	1.10
Transport	0.74
Finance	0.71
Community services	0.94

Source: DEDT – Comparative Advantage & Regional Competitiveness Model, 2024

The logic follows that an industry in the upper right quadrant (location quotient  $\geq 1.2$  and change in location quotient  $\geq 0\%$ ) holds a comparative advantage over the industry in the base region, and is also expanding the advantage over time (between 2018 and 2023). These industries are “standouts” that distinguish the provincial economy and are doing more so every year. Such industries are especially important if they are also large in terms of job numbers. In Mpumalanga, mining and utilities (ranked according to employment number) can be regarded as “standout” industries (Table 1.31).

The lower right quadrant (location quotient  $< 1.2$  and change in location quotient  $\geq 0\%$ ) contains industries which do not have a comparative advantage yet, but are becoming more so over time. If these industries continue this trend, they will move over the horizontal cut-off into the upper right quadrant. They can be called “pre-emergent” industries, having the potential to contribute more to the region’s economy in future. In Mpumalanga, community services, trade and manufacturing (ranked according to employment size) can be regarded as “pre-emergent” industries.

The upper left quadrant (location quotient  $\geq 1.2$  and negative change in location quotient) contains industries that hold a comparative advantage over the industry in the base region, but with a declining advantage. If a medium or large industry is in this quadrant, it is an important warning that the province is losing a major part of its economy and should inform planning and investment priorities accordingly. They can be called industries in need of “intensive care”, as this quadrant usually indicates industries in decline. In Mpumalanga, agriculture recorded a location quotient in excess of 1.2 that also declined over time.

**Table 1.31: Dynamic location quotient classification of industries in Mpumalanga, 2018-2023**

Finally, the lower left quadrant (location quotient  $< 1.2$  and negative change in location quotient) contains industries which are less important regionally than nationally and are also declining in

employment. These industries holds “little promise” in terms of relative employment size and labour growth, however, the province needs to attract more businesses in those industries in order to maintain an economy that is sufficiently balanced and diversified in comparison to the national economy. Finance, construction and transport were the industries in Mpumalanga that ranked in this quadrant.

### 1.7.7 Labour intensity

Labour intensive industries are identified by comparing the output generation capacity with the utilisation of labour by each of the industries. When an industry utilises a larger share of the provincial employed than what its share towards the provincial output is, that industry is regarded as a labour intensive industry.

Figure 1.49 provides a comparison of the utilisation of labour with output at industry level for 2017 and 2022. In 2022, the following five industries in Mpumalanga exhibited higher employment shares relative to their output shares, thereby indicating a high level of labour intensity: construction, agriculture, trade, transport and community services. In 2017, construction, agriculture, trade and community services registered larger labour utilisation shares than output contribution. The labour intensity in mining, manufacturing, utilities, construction and transport improved by varying degrees between 2017 and 2022.

### 1.7.8 Employment elasticity

The rate of employment growth in an economy, or in any industry of it, is determined by many factors operating simultaneously, one of which is how fast the economy grows. An employment elasticity provides an indication of the historic rate of employment growth as determined by the historic economic growth. Such an employment elasticity of an industry can be calculated by dividing the observed growth rate of employment during any past period by the observed growth rate of GDP during the same past period.

Figure 1.50: Relationship between GDP and employment levels in Mpumalanga, 2014-2022

Sources: Stats SA – QLFS, 2024  
Stats SA - Provincial gross domestic product: experimental estimates, 2013-2022

Between 2014 and 2022, economic output did not keep up with provincial employment for most of the period and only caught up because of the large job losses in 2020 and 2021 (Figure 1.50). Mpumalanga’s employment elasticity over the period 2014 to 2022 was 1.24. In other words, on average over the 8-year period, every 1% of real economic growth in the province’s economy translated into a 1.24% increase in employment in the economy.

The employment elasticity of the various industries in Mpumalanga’s over the period 2014 to 2022 is displayed in Table 1.32. Community services recorded the highest employment elasticity of 1.46 over the period 2014 to 2022. Therefore, on average over the 8-year period, every 1% of real economic growth in community services translated into a 1.46% increase in employment in the industry.

### 1.7.9 Labour productivity

Productivity can be measured by relating changes in output to changes in one or more input to production. Should an industry achieve a score of more than unity (1) then that industry is regarded as experiencing higher labour productivity than all industries combined. When

comparing Mpumalanga's industry specific labour productivity with that of the province's total industries, it is evident that four industries achieved higher labour productivity than the total industries combined in 2022 (Table 1.33).

**Table 1.33: Comparison of Mpumalanga's labour productivity per industry, 2017-2022**

The mining industry (2.29) recorded the highest labour productivity index score in 2022, followed by utilities (1.48) and finance (1.47). The mining industry also registered the highest labour productivity index score in 2017 of 3.02, followed by utilities. Agriculture, trade, finance and community services experienced increased labour productivity between 2017 and 2022.

#### 1.7.10 Regional competitiveness

Shift share is a standard regional analysis method that attempts to determine how much of regional job growth can be attributed to national trends and how much is due to unique regional factors. In using a shift share analysis a regional economy (Mpumalanga) is indexed against a base economy (South Africa). The technique distributes job change into three component parts. The three component parts are the national growth effect, the industrial mix effect and the regional competitiveness effect.

The regional competitiveness effect is the most important of the three indicators, as it explains how much of the labour change in a given industry is due to some unique competitive advantage that the province possesses. This effect is calculated by taking the total provincial employment growth and subtracting the national growth and industrial mix effects. This effect can be higher than actual job growth if national and/or industry mix effects are negative while provincial growth is positive. This is because the regional competitiveness effect accounts for jobs "saved" from declining national trends as well as new jobs created.

Industries with high regional competitiveness effects highlight the region's competitive advantages or disadvantages. Shift share analysis does not indicate why these industries are competitive but it merely shows the sectors in which the province is out-competing or under-competing the nation. Shift share is thus useful in identifying investment targets so that local stakeholders can assist provincial industries to either continue to outperform national trends or else "catch up" with national trends so that the provincial economy is not left behind.

Figure 1.51 displays what job change took place per industry in Mpumalanga between 2018 and 2023 and whether expected change (national and industrial) or regional competitiveness was the dominant factor in the change. Employment in the agriculture industry in Mpumalanga declined by 9 833 between 2018 and 2023. Using shift share, job gains of 1 127 were due to the national

trend in the economy as a whole, while 6 921 extra jobs were created due to national trends in the agriculture industry specifically. Therefore, a total of 8 048 job gains in the Mpumalanga agriculture industry were due to national trends.

The regional competitiveness effect was 17 881 job losses, indicating that some specific condition in the provincial agriculture industry resulted in job losses, contrary to the job gains of 8 048 due to national trends. Therefore, agriculture’s employment decreased mainly as a result of negative regional factors despite some positive national factors. The transport and finance industries in Mpumalanga reveal similar shift share results with negative regional factors deterring job growth despite positive, industry specific national factors.

Job numbers in Mpumalanga’s mining industry increased by 1 606 over the 5-year period. Shift share analysis reveals that national growth trends in the national mining industry as well as regional factors provided the impetus for job growth in the provincial mining industry. Trade, and community services also recorded higher employment numbers as a result of both national industry factors and regional competitiveness factors.

Figure 1.51: Industry job changes according to shift share analysis in Mpumalanga, 2018-2023

Source: DEDT – Comparative Advantage & Regional Competitiveness Model, 2024

Job numbers in Mpumalanga’s manufacturing industry decreased by 19 793 between 2018 and 2023. Despite gains stemming from national growth factors (1 279), negative national industry specific factors (-17 286) and negative regional competitiveness factors (-3 786) resulted in a net job loss for the manufacturing industry. Utilities also recorded lower employment numbers as a result of national industry and regional competitiveness factors.

Construction and private households were the only two industries in Mpumalanga that recorded job losses over the 5-year period due to factors in all the national industries. For example in the construction industry, shift share analysis reveal that national growth (1 237) as well as positive regional factors (4 933) were not enough to curb the specific negative national industry factors (-12 609) that resulted in a total of 6 439 job losses.

## 1.7.11 Tourism

Because tourism is not a clearly defined industry in the ISIC, it was therefore the first economic activity to use Satellite Account standards to measure its impact on national economies – as approved by the United Nations (UN) in March 2000.

Stats SA calculates a Tourism Satellite Account<sup>23</sup> (TSA) for tourism in South Africa. According to the latest preliminary TSA for 2021, the national tourism sector was simulated to have directly contributed some 2.3% to GDP. Some 492 561 persons were directly engaged in producing goods and services purchased by visitors, which accounted for 3.4% of total employment in 2021.

The current lack of sufficient baseline data of tourism supply on a provincial level makes an assessment of the supply side, and therefore a similar exercise such as the TSA for South Africa on a provincial basis, virtually impossible. It is possible to simulate scenarios that can give an indication of the GDP and employment contribution by tourism in Mpumalanga. From a recent study conducted by DEDT<sup>24</sup>, the contribution that tourism makes to the Mpumalanga economy could be between 2.3% and 3.4%. Furthermore, the tourism industry's contribution to employment in Mpumalanga could be between 3.4% and 4.6%.

It is, however, possible to express tourism spend as a percentage of regional GDP in order to indicate how large an impact it makes and whether its contribution is growing. In terms of this indicator, tourism spend in 2017 was equal to 5.2% of South Africa and 4.4% of Mpumalanga's GDP. In 2022, tourism spend in South Africa was equal to 5.0% of GDP, whilst in Mpumalanga it was equal to 4.1% of the provincial GDP. In 2022, Western Cape (7.0%) registered the largest tourism spend as share of GDP and Mpumalanga the smallest (Table 1.34).

According to South African Tourism's *Tourism Performance Report 2022*, Mpumalanga was the province that recorded the second highest number of foreign arrivals in 2022, with a share of 18.3% of total foreign arrivals. This was up from the 12.5% of total foreign arrivals in 2017. In 2022, Mpumalanga captured 11.7% of the total bednights spent by all foreign tourists in South Africa. This was higher than the 10.6% in 2017.

1.7.12 Inflation

The most common way to measure inflation is by reference to a CPI, which measures the changes in prices of a basket of goods and services purchased by a representative set of households. Mpumalanga’s average annual inflation rate for 2023 was 6.6%, which was the third highest/seventh lowest among the provinces and higher than the average for South Africa (6.0%). Mpumalanga’s average annual inflation rate for 2023 was lower than the 7.3% average for 2022.

In January 2024, Mpumalanga recorded an inflation rate of 5.4%, which was equivalent to the 5.4% registered in December 2023. This was the twenty-third month in succession that the provincial inflation rate was higher than the national inflation rate. In January 2024, Mpumalanga’s inflation rate was below the upper band of the inflation target zone. The comparative percentage change in the CPI for South Africa and Mpumalanga from January 2003 to January 2024 is displayed in Figure 1.52.

The main determinants of inflation in Mpumalanga based on their respective weightings, as provided in Table 1.37, are price changes in food and non-alcoholic beverages (FNAB), housing and utilities, transport as well as miscellaneous goods and services (MGS). These four indices, in terms of the weighting, contribute nearly 72% to the level of inflation and inflation movements in Mpumalanga.

Figure 1.52: CPI in South Africa and Mpumalanga, 2003–2024

Source: Stats SA – CPI, 2024

It appears from Table 1.35 that the FNAB index accounted for 28.7% of the average price increase in Mpumalanga during January 2024. The housing and utilities index was accountable for 20.4%. The transport index was responsible for 18.2% and the MGS index for 12.1%. Together, the four main determinants contributed 79.5% of the average price increase in Mpumalanga during January 2024.

The price increase of milk, eggs and cheese as well as bread and cereals provided most of the upward push in the FNAB index. Within the housing and utilities index, the price increases of electricity as well as owners’ equivalent rent provided the bulk of the upward swell. The higher

prices of vehicles pushed the transport index higher, whereas the price increases of insurance and personal care products propped up the MGS index.

When the impact of the more volatile FNAB and fuel prices are excluded from the consumer price index as in Figure 1.53, the underlying annual inflation would have been 5.0% in January 2024. If the electricity price was also excluded from the calculation of headline CPI inflation, Mpumalanga’s resultant core inflation would have been 4.5% in January 2024. The underlying inflation rate increased marginally between December and January, whereas the core and headline inflation rates remained unchanged.

## 1.8 International Trade

Mpumalanga's contribution to total national trade<sup>25</sup> was 2.7% in 2022, larger than the 1.1% share in 2017. The two leading provinces, in terms of total trade contribution in 2022, were Gauteng with a share of 66.4% and Western Cape with 14.0%. Mpumalanga contributed 4.2% and 1.1% to national exports and national imports, respectively.

The value of Mpumalanga's exports increased by 34.8% per annum between 2017 and 2022, whilst imports increased by 23.7% per annum over the same 5-year period. In contrast, the national exports increased by 11.5% per annum, whereas the value of national imports increased by 10.1% per annum.

Mpumalanga registered a positive trade balance of R64.8 billion in 2022, continuing the trend of exports exceeding imports since 1996. During the same period, the trade balance of South Africa fluctuated between positive and negative territory, finishing 2022 with a surplus of R221.6 billion. Mpumalanga was the province with the second largest positive trade balance in 2022.

Among the three districts, Nkangala (79.3%) was the main contributor to provincial exports in 2022, followed by Ehlanzeni and Gert Sibande with respective contributions of 14.8% and 5.9% (Table 1.36). Exports from Nkangala (69.4% per annum) recorded the highest increase between 2017 and 2022, and those from Gert Sibande the only decrease (-5.2% per annum).

Ehlanzeni attracted 47.7% of Mpumalanga's imports in 2022, followed by Nkangala and Gert Sibande. Imports flowing to Ehlanzeni recorded the highest increase (27.5% per annum) over the 5-year period and those to Gert Sibande the lowest increase (12.9% per annum).

Among the three districts, Nkangala recorded the largest positive trade balance of R59.7 billion in 2022, followed by Ehlanzeni (R3.3 billion). Gert Sibande is the only district in Mpumalanga that, from time to time in the 26-year period, recorded a negative trade balance.

## 1.9 Crime Rates

*Apex Priority Area 5 - A key priority of the South African government is Social Cohesion, Safer Communities.*

Crime in South Africa occupies centre stage in the hearts and minds of the public. Unacceptably high levels of crime, especially serious and violent crimes, result in people in South Africa living

<sup>25</sup> ReX international trade data is derived from administrative data collected by the South African Revenue Service's (SARS) Department of Customs and Excise. in fear and feeling unsafe. It also impacts negatively on the country’s economic development, undermines the wellbeing of people in the country and hinders their ability to achieve their potential.

Among the four categories of serious community reported crimes displayed in Table 1.37, it is evident that in South Africa crime increased/deteriorated between 2021/22 and 2022/23 in all four serious community reported crimes categories. Over the same period, community reported crime in Mpumalanga increased/deteriorated in three of the four categories. Mpumalanga was one of three provinces that recorded a decline/improvement in contact related crimes. Mpumalanga’s deterioration in contact crimes as well as other serious crimes were not as bad as the national deterioration, however, the province fared worse when accounting for property related crimes.

These crime statistics hold significant economic and socio-economic implications for Mpumalanga and the broader South African context. The persistent high levels of crime, particularly serious and violent offenses, have created an atmosphere of fear and insecurity among the South African population. This climate of fear not only impacts the daily lives of individuals but also hinders the country's overall economic development. Investors are deterred, and businesses face higher security costs, both of which can negatively affect economic growth and job creation.

In this context, addressing crime is not just a matter of law enforcement but a crucial element of ensuring economic stability and improving the quality of life for all South Africans. It is imperative that comprehensive strategies are developed and implemented to tackle crime at its root causes, promote community safety, and foster an environment conducive to economic prosperity and social well-being.

<sup>26</sup> 7 serious community reported contact crimes are murder, sexual offences, attempted murder, assault grievous bodily harm (GBH), common assault, common robbery & aggravated robbery.

<sup>27</sup> 2 serious community reported contact related crimes are arson & malicious damage to property.

<sup>28</sup> 5 serious community reported property related crimes are burglary at residential premises, burglary at non-residential premises, theft of motor vehicle and motorcycle, theft out of or from motor vehicle & stock theft.

<sup>29</sup> 3 serious community reported other serious crimes are other theft, commercial crime, & shoplifting.

## 2. Budget Strategy and Aggregates

### 2.1. Introduction

The MEC for Finance in a province, as required by section 27(2) of Public Finance Management Act (PFMA, 1999), tables the Budget Provincial Legislature each year within two weeks after the tabling of the national annual budget.

The Provincial Cabinet's authorisation to spend the allocations detailed in the Budget is sought through the tabling of an Appropriation Bill, which sets out the proposed amounts to be appropriated from the Provincial Revenue Fund for the first year of the 3-year medium-term expenditure framework (MTEF) period. As such, the 2024 Appropriation Bill contains allocations to Mpumalanga provincial government votes by programme and main economic classification for 2024/25. It also highlights the funds that are earmarked for a specific purpose and conditional allocations.

The Estimates of Provincial Revenue and Expenditure (EPRE) is tabled with the Appropriation Bill. The purpose of the EPRE is to provide detailed and transparent information based on the allocations set out in the Appropriation Bill for the current financial year. Government's proposed spending plans for the full MTEF period (2024/25 to 2026/27) are also contained in this year's EPRE, and outline government institutions' planned spending and allocation of resources. Explanations are provided on how institutions intend to use their budgets over the medium term to achieve their goals and priorities, which should be aligned with the province South Africa's broader development plans. Information on how government institutions have spent their budgets in the previous three financial years is also included.

The tables presented in this publication show departmental receipts, and detailed expenditure trends and estimates by programme, sub-programme and economic classification for all votes and entities. Brief explanatory narratives set out the purposes of institutions and their programmes, as well as their mandates, programme-level objectives and descriptions of sub-programmes. A brief narrative overview of institutions' expected expenditure over the MTEF period is also included.

All data tables published in the EPRE are available on the Mpumalanga Provincial Treasury's website, National Treasury's website and the Vulekamali online portal.

### 2.2. Aligning provincial budgets to achieve government's prescribed outcomes

The 2024 MTEF budget is formulated within a very tight fiscal environment. When preparing the 2024 MTEF budget, departments were advised to identify substantial savings within the baselines tabled in the 2023 Budget to absorb fiscal consolidation. Since the government identified infrastructure as the catalyst that has the potential to grow the economy and enhance the competitiveness relative to other provinces whilst improving the quality of life of the people, departments are encouraged to focus on investments rather than consumption. Also, maintaining salary levels at current levels while exercising control on compensation of employees' budgets to contribute towards stabilising the public service wage bill and assisting in bringing the fiscal framework back to sustainable levels. The key national priority areas are outlined in the Budget Prioritisation Framework: Towards Budget 2022 developed by the Department of Planning,

Monitoring and Evaluation (DPME). Departments must continue to implement key interventions outlined in the Medium-Term Strategic Framework (MTSF) 2019-2024 for the remaining term of this Administration. However, prioritisation of interventions are to be done within the context of the overall fiscal strategy. This requires the departments to reprioritise towards the most impactful interventions.

In the previous State of Province Address (SOPA), the Premier of Mpumalanga presented a strategic framework to facilitate the delivery of services to the citizens of Mpumalanga, and the nine-point programme of action that comprised of the following pillars; Loadshedding and the Energy Crisis; Just (Energy) Transition; A Jobs War Room; Infrastructure Showcasing; A Response Mechanism for Disasters; District Development Model and the State of Local Government; State-Owned Enterprise Performance Review and Repositioning; Crime, Criminality and Immigration; and Operation Clean Audit (OPCA). The SOPA 2024 continues to focus on these pillars prioritising the following:

- Monitoring the implementation of the Integrated Provincial Plan to fight gender-based violence.
- Establishment of Rapid Response Teams (RRTs) in the various local municipalities.
- Launching of the Provincial Gender Based Violence Council.
- Forging partnerships that are mutually beneficial and promote friendship and peace.
- Preparations for the full implementation of the NHI in 2028.
- Rolling-out a road infrastructure maintenance plan which aims to augment the capacity of municipalities to speed up delivery on the patching of potholes.
- Introducing the smart schools' concept in eight schools where both teachers and learners will utilize technological devices.
- Deployment and recruitment of Tourism Safety Monitors (TSMs) in the various tourist attraction points of the Province.
- Rolling-out implementation of road safety programmes.
- Recruitment and training of 1200 youth to play a pivotal in ensuring the safety and security of our communities from the grassroots level.

The framework is in line with the National Development Plan and it will enable a Province to contribute to the fight against poverty, unemployment and inequality. It also aligns to the seven strategic priorities in the Medium-Term Strategic Framework (MTSF) to address the change agenda in government that were identified by the Presidency namely:

- Economic transformation and job creation;
- Education, skills and health;
- Consolidating the social wage through reliable and quality basic services;
- Spatial integration, human settlements and local government;
- Social cohesion and safe communities;
- A capable, ethical and developmental state; and
- A better Africa and World.

A few initiatives have been and continue to be implemented to address the high unemployment, especially amongst young people. These include enabling interventions to support industries to retain jobs and public investment in a mass employment programme such as the Premier's Youth Development Fund, and continued expansion of the Expanded Public Works Programme

### 2.3. Summary of budget aggregates

Table 1.6 provides an analysis of the overall provincial budget performance by comparing total receipts against total payments, resulting in a surplus or deficit before financing over the seven-year period. The table also provides the details on financing to provide the net position after financing for each year. It reflects financial performance over seven years with the first three columns (2020/21, 2021/22) and 2022/23 indicating the audited outcomes. The 2023/24 financial year in three columns, which includes main appropriation as tabled last year in March, the adjusted appropriation (which includes adjustments tabled in November) and the revised estimates which refers to the actual expenditure and collection as at 31 December 2023 including projections up to 31 March 2024 to reflect a projected outcome and the three-year medium term estimates from 2024/25 to 2026/27.

Provincial receipts consist of transfers from national (i.e. equitable share and conditional grants) and the provincial own receipts (i.e. provincial revenue collection). Equitable share is allocated to the province based a formula taking into consideration basic needs of the province in relation to education, health, population etc. to assist in service delivery. Conditional grants are additional transfers from national government with conditions to address national priorities, programmes or policy imperatives. The main sources of provincial own receipts are motor vehicle licences, casino taxes, patient fees and interest earned.

Table 1.6 above shows that transfers from the national government main appropriation increased from R57.441 billion in 2023/24 to R59.598 billion in 2024/25 due to the following;

Provincial equitable share (PES) formula which accounts for data updates made to the components of the formula and policy changes made to the structure of the formula resulting from the review of the PES formula. For the 2023 MTEF, changes are being made to the health component resulting from the review of the risk-adjusted index which had a positive adjustment to the province's baseline, additional allocation for mainly Education and Health to fund the wage cost carry-through effects. departments to fund key service delivery programmes as well as Presidential Youth Employment Initiative and the three (3) cost of living wage agreement.

Transfer receipts from the national government grow nominally by 3.8 per cent from the 2023/24 revised estimate to 2024/25. Provincial own revenue allocated increase by 16.5 per cent between 2023/24 revised estimate to 2024/25.

Transfers from National constitute 96.7 per cent or R59.598 billion of the total receipts of the Province. Within National receipts, 80.3 per cent or R49.499 billion is allocated as provincial equitable share and 16.4 per cent or R10.099 billion as conditional grants. The share of provincial own receipts amounts to 3.3 per cent in 2024/25, 3.1 per cent in 2025/26 and 3.1 per cent in 2026/27 respectively. The provincial own receipts collection is projected to increase from R1.926 billion to R2.481 billion in 2024/25 as the Province continue to implement the Revenue Enhancement Strategies to optimize revenue collection over the MTEF and only 70 per cent of the projected revenue is allocated to departments.

The revised estimate which is based on the December 2023 IYM projections indicates that the province will end the year with a deficit of R303.7 million. Departments are continually monitored to ensure prudent spending and where required advised to put stringent measures to avoid incurring unwanted expenditure. Additional to this some departments have commenced internally spending reviews and the Provincial Treasury will conduct provincial spending reviews to encourage the re-examination of expenditure baselines to identify possible efficiency gains and to identify savings. The unallocated funds are kept in the Provincial Revenue Fund as a contingency reserve for various reasons, but mainly to protect the province against the impact of unforeseen and unavoidable expenditure pressures especially as the province is prone to disasters.

## **2.4. Financing**

*Contingency Reserve* refers to the total provincial receipts exceeds total provincial payments over the MTEF, thereby reflecting a surplus budget before and after financing. This indicates that not all financial resources available to the province have been allocated to the provincial departments for spending.

*Provincial cash reserves* refer to surplus funds in the provincial revenue fund, after taking into account all commitments and roll-overs. This includes unspent appropriated funds in departments that were not rolled over to the ensuing financial year, as well as surplus provincial own revenue that was collected in prior financial years. This category also includes unspent funds which were surrendered in one financial year and allocated back to the same department in ensuing years.

## **3. Budget process and the Medium-Term Expenditure Framework (MTEF)**

The purpose of the Medium-Term Expenditure Framework (MTEF) is to ensure that budgets reflect government's social and economic priorities and give substance to government's reforms and development commitments, while ensuring overall fiscal discipline. It is a three-year spending plan through which the cabinet and the other spheres of government establish credible conventions for allocating public resources to their strategic priorities.

The main benefits of the MTEF includes allocation of resources to priority services; more efficient planning and management; a framework within which policy proposals can be assessed; more transparency in government; and a clear demonstration of how fiscal targets will be met. The MTEF supports the ongoing reprioritisation of resources while providing stability and certainty within the budget process.

The Mpumalanga Province uses the MTEF to link the amount of funds spent on a service with the quality and quantity of the service provided. It emphasises transparency as a key driver of the budget process thereby ensuring that budget documentation that holds policy goals and resource allocation are clearly set out. In this way, it empowers provincial government to determine priorities and deliver change by providing an analysis of the efficiency of service delivery and indicates areas, which demand more attention.

Provincial Treasury ensures that departments are capacitated in respect of reforms relating to budget formulation. Department were invited to a virtual budget workshop to review current estimates format, improve budget planning, implement reforms such as spending reviews and explain budget principles. The Medium-Term Expenditure Committee meetings were held with provincial departments. During these meetings, the provincial departments and entities presented their spending proposals and demonstrated the alignment of their respective budgets with strategic objectives and government’s priorities. The outcome of these meetings informed the recommendations for the resource allocation submitted for the consideration of the Premier’s Budget and Finance Committee when finalizing the provincial allocations. The Provincial Executive Council sat on 07 March 2024 to assess the provincial priorities and the draft budgets to approve the final allocations.

The Mpumalanga 2024 MTEF budget will be tabled for adoption in the Provincial Legislature on 12 March 2024. Once the Appropriation Bill is passed, provincial departments will commence spending the approved budgets in accordance with the approved plans.

Table 1.7 above shows the total provincial receipts that have been allocated to departments as well as anticipated revenue collection. Total provincial receipts consist of transfer receipts from the national government i.e. equitable share and conditional grants, as well as provincial own receipts and provincial financing. The provincial own receipts are mainly derived from motor vehicle licences, horse racing taxes and gambling fees. The revenue collection has grown from R1.708 billion in 2020/21 to an estimated R 3.095 billion in 2026/27. The provincial own receipts constitute 3.9 percent of the total provincial receipts and grows nominally at 3.8 per cent from the revised estimate of 2023/24. Only R2.062 billion of the estimated collection of R2.868 billion has been appropriated in this budget in 2024/25.

### 4.5. Donor funding

The Province does not have any donor funding.

## 5. Payments

### 5.1. Overall position

The provincial equitable share formula accounts for data updates made to the components of the formula and any policy changes made to the structure of the formula resulting from the review of the provincial equitable share formula. For the 2024 MTEF, there are no proposed changes that are being made to any of the components of the formula resulting from the review of the provincial equitable share formula.:

- A carry-through adjustment implemented in the 2023 MTEF due to impact of new data that was made to the Mpumalanga provincial equitable share continue to be phased-in

For the 2024 MTEF, the transfers to provinces include both fiscal consolidation reductions and additional allocations. A total of R5.079 billion will be reduced from the provincial equitable share over the 2024 MTEF as part of fiscal consolidation. Furthermore, funds amounting to R8.3 billion have been added for mainly health and education for the purpose of supporting the Province to cover the carry-through cost of the public service wage bill. These funds have been mainly directed to these two sectors to continue providing good quality health services and education to the Mpumalanga citizens.

Baseline reductions are also implemented to some conditional grants to make funds available for reprioritisation and further fiscal consolidation measures.

- *Health* - To address funding fragmentation for oncology services, allocations will be shifted from the National Health Insurance Grant to the National Tertiary Services Grant. These funds are added to the developmental portion of the National Tertiary Services Grant.
- *Agriculture, land reform and rural development* - The Ilima/Letsema conditional grant is reduced in 2024/25 to make provision for the Presidential Employment Stimulus.
- *Basic education* - Previously funds were added to the Early Childhood Development Grant to pilot a nutrition support programme and a result-based service delivery model. From 2024/25, the nutrition support programme and result-based service delivery model will be implemented by national government. A certain amount is reprioritised from the Early Childhood Development Grant to national government over the MTEF for this purpose. These MTEF funding were previously unallocated in the grant.
- *Public Works and Infrastructure* - Similar to the Ilima/Letsema conditional grant, funds have been reprioritised from the conditional grants in the Public Works and Infrastructure sector to make provision for the Presidential Employment Stimulus. The Expanded Public Works Programme Integrated Grant for Provinces and the Social Sector Expanded Public Works Programme Incentive Grant for Provinces are reduced over the 2024 MTEF.

The total budget to be appropriated to Votes in the 2024/25 financial year is R61.608 billion and 74.6 per cent of this budget is allocated to the social services which constitute of Education, Health and Social Development and focuses on the infrastructure development.

### **Overview of the main services that the department intends to deliver**

As a strategic centre of Government, the Office of the Premier is required to support the Executive and provide a range of Transversal Corporate Services. EXCO Secretariat provides professional and timeous protocol, administrative and operational support services to the Members of the Executive Council.

The Office provides strategic support to the Executive in the development and implementation of high-level Provincial strategies, policies, plans and programmes. The Office of the Premier is also tasked with the coordination and implementation of National policy frameworks and the development and implementation of Information Technology Programmes and Systems designed to optimise its efficiency and effectiveness. It provides the Political and Executive Leadership with

a set of principles and practices that must be complied with, together with an implementation approach.

In order to ensure that the Office of the Premier functions optimally, regular performance and risk assessments are undertaken.

### **Legislative mandate**

There have been no significant changes to the Office of the Premier's legislative mandates. Despite insufficient capacity within the Office of the Premier (due to attrition and the vacant funded posts) to ensure compliance with all legal responsibilities that, relate to its mandate. The Office has overstretched itself to ensure minimum compliance. The Office has since obtained approval from the Executive Council to fill critical vacant posts and the recruitment and selection process is underway.

The Office of the Premier derives its legislative mandates primarily from the following pieces of legislation:

- Promotion of Access to Information Act, 2000 (Act No. 2 of 2000) - This Act gives effect to the Constitutional right of access to any information held by Government and which is required for the exercise or protection of any rights

## **2. Review of the current financial year (2023/24)**

In an effort to curb the scourge of corruption in the province the Office to finalise the Provincial Anti-Corruption Strategy and monitor departments' compliance to it. Reported cases of fraud and corruption will be investigated without impartiality.

The Office has continued to provide audit services to five cluster departments monitor the implementation of the recommendations to ensure improved audit outcome.

The Office has also geared itself to ensure that businesses are not suffering through payment of the services that they have rendered. To date, the Office has ensured that 100% of the valid invoices are paid within 30 days.

The Office is also mandated to coordinate provincial priorities through the development and review of the 2019 – 2024 Provincial 5 Year Plan. In the current financial, the Office is monitoring the implementation of the reviewed MTSF. Assessments were also conducted on two Sector Master Plans (i.e. Draft Provincial GBVF Strategy and the Draft Provincial Anti-Corruption Strategy). The main objective was to ensure that there is policy coherence with existing long-term policies within the province.

Macro Policy has also provided technical support for strategic areas, such as EXCO and PMC, PCF with their respective operational committees. Departments were supported on policy management functions i.e. integrated planning; Research related functions as well as Monitoring and Evaluation despite the quantitative challenges of personnel in the Office. The province will produce the 30-year review report by the end of the financial year that will depict achievements realised since the dawn of democracy.

The Office of the Premier is efficiently handling its transversal role in relation to cases of labour relations dispute. Structural arrangement and related activities to implement the Provincial Strategic Plan on HIV/AIDS, STIs and TB is satisfactory.

## **3. Outlook for the coming financial year (2024/25)**

The implementation of the Anti-corruption strategy seeks to instil a change of behaviour, values and ethical habits that will eventually result in an improved ethical culture for the organisation. It seeks to reduce the level of corruption in the Mpumalanga Provincial Government and private sector by 10% over the MTSF.

The implementation of the Provincial Communication Plan will ensure professional distribution of significant provincial government information, which will ultimately warrant public confidence; this will contribute towards enhancing improved trust.

The 3-year broadband plan has at its core the enhancement and provision of broadband connectivity across the areas of the Province that SA connect Programme does not reach. The expansion of broadband infrastructure therefore, to connect schools, hospitals, libraries and government offices to high-speed broadband services is of paramount importance to ensure good performance and ultimately promote economic growth, socio-economic conditions specifically aimed at women, youth and persons with disabilities. External stakeholders such as Department

of Communications and Digital Technologies, Department of Public Service and Administration and SITA are critical to ensure that the Broadband Plan is aligned to the National Strategy and Plan, as well as the Fourth Industrial Revolution Strategic Implementation Plan.

Monitoring reports on provincial mainstreaming of the target groups (Youth, Women, Older persons, and People with Disability) contributes to good performance by ensuring tracking of progress on equity and implementation of key interventions aimed at uplifting, protecting and improving (where necessary) the socio-economic situation of target groups.

The Provincial Strategic Plan on Gender Based Violence and Femicide will be implemented and monitored by the Province to institutionalize the National Strategic Plan on GBV&F. The Provincial plan seeks to provide a multi-sectoral, coherent strategic policy and programming framework to strengthen a coordinated provincial response to the crisis of Gender -Based Violence and Femicide by Government.

## **4. Reprioritisation**

The Office of the Premier reprioritised the 2024 MTEF budget to align with provincial priorities, which includes amongst;

The coordination of provincial youth development interventions in three streams (skills, economic and social).

The monitoring and coordinating of Provincial Communication Plan.

Issues of Provincial ICT.

To coordinate the implementation of Provincial Evaluations and Strengthening Research in the Province.

Activities on mainstreaming and empowerment of target groups (Women, Youth, Person with Disabilities and Older Persons).

The Implementation of Anti-Corruption Strategy and Batho Pele Programmes

## **5. Procurement**

The Office of the Premier will continue to develop and implement procurement plans for the financial year 2024/25 to ensure that the needs of the organisation are in line with Office Annual Performance Plan and the Operational Plan, as well as with the allocated budget. The Office of the Premier has contracted service providers for the major core services such as Travelling and events management. The Office of the Premier will continue to ensure that all procurements comply with relevant legislations.

## 7. Payment Summary

### 7.1. Key Assumptions

Strengthening the coordination capacity of Provincial Departments and Local Municipalities, through evidence-based decision-making processes by providing integrated research, coordination, planning, monitoring and evaluation, and coordination of DDM. This will foster collaboration amongst these tasks, thereby improve performance of both provincial and local government and resultantly improve service delivery.

Availability of resources (skilled human and adequate financial) to support achievement of priorities.

Improved relations between Management and Organised Labour, attracting skilled personnel when filling of vacant positions in the best interest of the Organisation and relevant stakeholders. Communication services will be strengthened to ensure effective communication with the people of the Province, our partners, key stakeholders in business and global community as a whole will support the implementation of the identified priorities.

#### **Co-operative governance**

To provide professional parliamentary advisory and protocol services in support of the core business of the Legislature

**Overview of the main services that the Legislature intends to deliver**

The following are the services to be delivered by the Legislature in support of its strategic objectives and goals:

Ensure that the Executive is held accountable in respect of the five government priorities over the next five years:

The Legislature acknowledges the need to further strengthen the oversight function and capacity of the Legislature to adequately respond to the new political mandate. The oversight of the executive constitutes the core business of the Legislature.

Improve public involvement, especially that of the poor, marginalised and disadvantaged members of the public in the legislative processes:

The strategic outcome-oriented goal recognises the need to increase participation of the people in the legislative processes and other activities of the Legislature to deepen democracy. Public involvement constitutes the core business of the Legislature.

Entrench effectiveness of legislation for the people of the Province:

The strategic outcome-oriented goal recognises the need to ensure effectiveness of legislation for the benefit of the people of the Province. Law-making is part of the core mandate of the Legislature

Improve the capacity of the Legislature to conduct its oversight and public participation functions through strengthened internal business processes over the next five years:

Strengthened systems, processes and policies are necessary to ensure that the Legislature is adequately supported to enable it to effectively deliver on its constitutional mandate.

Improve the integrity and image of the Mpumalanga Government through effective oversight of corporate and financial governance:

It is considered important for the Legislature as a public institution to use allocated resources effectively, efficiently and economically, whilst also embracing and adhering to the principles of good corporate governance. In such a context, the integrity and image of the Legislature is likely to be improved in the hearts and minds of its internal and external stakeholders.

Promote the implementation of the nation-building programme of government and the Legislature to improve social cohesion in the Province:

In a society that is faced with many challenges, there is a need for institutions like the Legislature to remain sensitive and responsive to prevailing societal challenges. One of the ways of addressing this challenge is for the Legislature to contribute towards improving social cohesion in the Province through implementing nation-building programme

Strengthen participation in inter-parliamentary bodies for improving participatory democracy and co-operation in the next five years:

For the Legislature to share experiences and learn from others regarding issues of parliamentary democracy and other related matters, there is a need for it to maintain and

strengthen its relations with parliamentary bodies and parliaments in both local and international contexts

### **Legislative mandate**

The Legislature derives its mandate mainly from the Constitution of the Republic of South Africa, which outlines its powers, functions, and responsibilities as follows:

In executing its legislative powers, the Legislature can: -

- Consider, pass, amend or reject any Bill; and
- Initiate or prepare legislation, except money Bills

Furthermore, the Legislature must provide for the following mechanisms:

- To ensure that all provincial executive organs of state in the province are accountable to it; and
- To conduct oversight over the provincial executive authority and any provincial organ of state, including the implementation of legislation.

The Legislature must also:

- Facilitate public involvement in the legislative and other processes of the Legislature and its committees; and conduct its business in an open manner and hold its sittings and those of its committees in public.

### **External activities and other events relevant to budget decisions**

The Legislature is expected to effectively and efficiently hold executives and other organs of the state accountable by means of intensified oversight. Committees are the engine of the Legislature. They oversee government service delivery outputs through intensified oversight and interact with the public. Accordingly, the introduction of any bill that might affect or attract public interest requires public hearings. These increase the number of committee activities and the institutional budget. Another important function of Legislature is to encourage and facilitate public participation in the processes of the Legislature. These activities involve external stakeholders and influence the institutional budget. They comprise, amongst others, the Taking Legislature to the People, Sector parliaments such as Women's Parliament, Youth Parliament, the Senior Citizens' Parliament, Public Hearings, Outreach Programmes, Radio Broadcasts and Publications.

Increase in fuel price affects the provision of services considering that the business operations of the Legislature require frequent mobility of Committee Members and support staff to committees.

Increase in the remuneration packages for the public sector which is more than the budgeted percentage affects the budget of the Legislature resulting in the challenges to fill some vacant critical posts.

#### **1.1. Aligning Legislature budgets to achieve government's prescribed outcomes**

The Legislature has not been co-ordinating or leading any of the outcomes but has an oversight responsibility towards ensuring that the Executive is held accountable for performance towards the achievement of the outcomes.

The outcomes reflect the desired developmental impacts sought to be achieved given government's policy priorities. The Legislature's responsibility is to ensure all organs of state within the province set and implement measurable outputs and key activities to achieve these outcomes.

Within Programme 2, the budget allocation endeavours to facilitate the role of the Legislature in realising the strategic objectives in line with the mandate of holding the Executive accountable, while Programme 1 endeavours to provide the strategic administrative support towards the achievement of these objectives.

## **2. Review of the current financial year (2023/24)**

For the period under review the Legislature only hosted the Youth Parliament, Taking the Legislature to the People (TLP) and Voters Education programme. The support to Portfolio and Select Committees of the Legislature in terms of research services, coordination of activities, public hearings and oversight visits by the Members of the Provincial Legislature in respect to Portfolio Committee Clusters were also done during the period under review.

The Legislature implemented cost containment measures in its endeavour to remain within allocated budget. The following activities will further drive costs in the 2023/24 financial year:

- Programmes of the various Legislature Committees;
- Statutory allocation for remuneration of Members
- IT systems, maintenance and support
- Other general operational support services including communication, security services and rental of the NCOP building.
- Voter Education Programme

## **3. Outlook for the coming financial year (2024/25)**

The Legislature's mission is to hold the Executive and other state organs accountable through intensified oversight enhanced public involvement and effective law making supported by professional administrative service.

Legislature's allocated budget for the 2024/25 financial year is R519.013 million. The following are some of the strategic projects and initiatives that have informed the 2024/25's budget:

- Statutory allocation for compensation of Members of the Provincial Legislature
- Political Party funding for the enhancement of democracy, caucus and constituency work for Members of the Provincial Legislature;
- The hosting of major events namely "Taking the Legislature to the People" (TLP) conducted twice a year for identified communities within municipalities; and State of the Province Address;
- The maintenance, support and licensing of the SAP system;
- Support to Portfolio and Select Committees of the Legislature in terms of research services and coordination of activities;
- The hosting of Sectorial Parliaments (Workers, Youth, Children, Women, Religious, Senior Citizens, Parliament for People with disabilities);

- Communication, travel and accommodation for Members of Provincial Legislature and support staff
- Public hearings and oversight visits by the Members of the Provincial Legislature in respect to Portfolio Committee Clusters; and
- The funding for the mobilisation of the public and related public programmes
- Voter Education programme.
- Rental of the new office space, Chamber system and ERP system upgrade

#### 4. Reprioritisation

The Legislature could not apply any material reprioritisation between programmes and spending items, the spending patterns did not change between the programmes. There were other projects that could not be undertaken due to budget constraints, i.e. office partitioning and Committee rooms' upgrade.

#### 5. Procurement

The Legislature will continue to ensure that the procurement of goods and services is done timely to ensure that service delivery is not compromised. The Legislature has started a process of reviewing all short-term contracts to identify and clear off any wastage. Services currently procured on existing long- and short-term contracts include:

- SAP support and maintenance
- Photocopiers
- Cleaning services
- Security services

Other projects that involve major procurement of goods and services include the State of the Province Address and Taking Legislature to the People, public participation and education outreach projects and goods and services for chamber and committee sittings.

The procurement plan for the 2024/25 financial year will be developed to ensure that budget plans translate towards the timely procurement of the necessary goods and services to achieve the mandate of the Legislature.

#### 6. Receipts and financing

The following sources of funding are used by the Legislature.

The allocation for training relates to employee capacity building, for professional and management and skills. The training budget is allocated centrally and co-ordinated within the human capital cost centre. Management has increasingly become aware of the need to consider opportunistic costs namely travel and subsistence costs related to training and development programmes for short- and long-term training and development commitments.

### 9.3.3. Reconciliation of structural changes

There are no changes in the budget and programme structure.

## Mpumalanga Provincial Treasury

---

To be appropriated by Vote in 2024/25	R 560 178 000
Direct Charge	R 0
Responsible MEC	MEC of Finance, Economic Development and Tourism
Administrating Department	Mpumalanga Provincial Treasury
Accounting Officer	Head: Provincial Treasury

---

### 1. Overview

#### Vision

Leading in innovation and service excellence.

#### Mission

Enhance fiscal discipline, accountability and effective governance in PFMA and MFMA institutions through:

- Capable and professional workforce;
- Inter-governmental collaboration; and
- Sustainable funding and equitable allocation and prudent financial management.

#### Strategic Objectives

- Administrative support services
- Maintain fiscal discipline in the province
- Assets and liabilities support
- Efficient and effective financial and corporate governance.

#### Core functions and responsibilities

Administration is responsible for political, financial and administrative management of the Provincial Treasury. The Programme provides prompt, continuous, effective and efficient administrative support to all line functions in the Provincial Treasury.

Sustainable Resources Management promotes optimal and effective Provincial resource allocation and utilization, efficient Provincial budget management. The Programme also assists with accurate financial reporting on Provincial revenue generation and maximization. It is also within the programme to enhance planning; implementation and management of infrastructure by Provincial Departments and Municipalities, and lastly, it provides technical support to delegated Municipalities on the implementation of the MFMA.

Assets and Liabilities Management is responsible for the monitoring and support on Assets, Liabilities, Provincial Supply Chain management, Transversal Systems as well as the provisioning of Information Technology Services to Departments, Public Entities and Municipalities in Mpumalanga Province.

Financial Governance serves to facilitate, monitor, support and provide professional advice to ensure good governance in the Province.

### **Overview of the main services that the department intends to deliver**

The Provincial Treasury will continue to support all Government priorities through allocation, monitoring and reporting on utilisation of all resources provided to Provincial Departments, Public Entities and Municipalities. The focus on resource allocation in the medium term is still on shifting the composition of expenditure away from consumption towards investment in especially infrastructure.

### **Legislative mandate**

The Provincial Treasury derives its mandate from the following legislations:

The Constitution of the Republic of South Africa Act, 1996

Public Finance Management Act, 1999 (Act 1 of 1999) (PFMA)

Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA)

Annual Division of Revenue Act

Intergovernmental Fiscal Relations Act, 1997 (Act of 1997)

Mpumalanga Finance Matters Act, 2006

Not applicable

Aligning departmental budgets to achieve government's prescribed outcomes

The Provincial Treasury supports all government priorities as the Provincial Treasury monitors the usage of all resources allocated to Provincial Departments, Municipalities and Public Entities.

The Provincial Treasury provides support in terms of Outcome 9 and 12 and is not a lead Department.

### **Outcome 9: Responsive, accountable, effective and efficient developmental local government system.**

The National Development Plan envisages that by 2030 South Africa will be a state that is capable of playing a developmental and transformative role in such a way that benefits accrue across society with particular emphasis on the poor.

The NDP cautions that such a developmental state cannot materialise by decree, nor can it be legislated or waded into existence by declarations. It must be consciously built and sustained. And this requires strong leadership.

### **Sub-Outcome 3: Sound financial and administrative management;**

In support of this sub-outcome, the Provincial Treasury focuses on the building the capacity of the Budget and Treasury offices, review the financial sustainability of municipalities with no or extremely weak revenue base and develop proposals on what needs to be done.

**Outcome 12: An efficient, effective and development oriented public service.**

The core objective is to put in place the mechanisms and structures that can support departments in developing their capacity and professional ethos while leaving departments with the ultimate authority for how their departments are managed.

As described in the NDP, there is unevenness in capacity that leads to uneven performance in the public service.

**Sub - Outcome 4: Efficient and effective management and operations systems**

A key intervention would be to work with service delivery departments to map business processes for services and to monitor and review operations. The focus will prioritise core services and transversal corporate functions including payment of suppliers within 30 days. The Provincial Treasury will support promotion of greater and more consistent delegations in departments, public entities and support the implementation of guidelines and delegations. Such delegations will be accompanied by effective systems of support and oversight.

This includes areas such as financial management, supply chain management (SCM) and operational delegations. In each case, the Provincial Treasury will determine whether guidelines are needed or whether the existing policy framework is sufficient, and the focus needs to shift to promoting more effective implementation by departments.

**Sub – Outcome 5: Procurement systems that deliver value for money**

The State’s ability to purchase what it needs on time, at the right quality and for the right price is central to its ability to deliver on its priorities. The State needs procurement systems that are robust, transparent and sufficiently intelligent to allow for the different approaches that are suited to different forms of procurement, procurement systems that do not only focus on procedural compliance but also on delivering value for money.

This requires strengthened supply chain management capacity and effective mechanisms for oversight and support.

- Differentiate between different forms of procurement to allow for strategic sourcing and different sourcing methodologies
- Capacity building and professionalising supply chain management
- Provide real-time operational support
- Ensure effective and transparent oversight
- Simplification of regulations and guidelines where necessary

**2. Review of the current financial year (2023/24)**

The Provincial Treasury has an approved organisational structure of 433 posts. The process of revising the current organisational structure was completed and submission forwarded to the Office of the Premier, the Provincial Treasury is awaiting approval thereof.

The Provincial Treasury experienced high labour turnover in both administrative and core functions, due to resignations, retirements, deaths, interdepartmental transfers and internal promotions. Inadequate staffing has a potential to paralyze operations with dire implications to service delivery and work overload to the existing workforce, as a result an approval was obtained to advertise and fill replacement posts, and the recruitment process is in progress. Filling of the posts will enhance effective service delivery of the Provincial Treasury

At the end of 2022/23 financial year, the Provincial Treasury operated with a total of 321 warm bodies, which comprises of 286 permanent posts and 35 non-permanent posts inclusive of interns and learners. The overall vacancy rate as per posts on the approved organisational structure is at 33.9% based on 147 posts against the total posts of 433.

The organisational structure of the Provincial Treasury currently makes provision for four Programmes. Programme 1 is responsible for political, financial, administrative management and support. The other three programmes focus on Treasury functions, which are sustainable resource management, assets and liabilities management and financial governance. The Provincial Treasury operates in both the PFMA and MFMA environments.

The functions of the Treasury Programmes are specialised and depend on skilled resources to ensure the delivery of services. The Provincial moratorium and staff turnover experienced poses a major challenge thus limiting effective execution of the Provincial Treasury's mandate. Although the recruitment of personnel by other Departments and Provinces is not unique to Provincial Treasury, it has negative implications to the overall operations of Provincial Treasury.

To address the challenges relating to the high staff turnover rate, the Provincial Treasury will intensify its implementation of the retention strategy and will address the shortfall in human resources through the rationalisation process, as the capacity will be identified within the Treasury and elsewhere in the Provincial Administration.

The Provincial Treasury is in the process of reviewing its organisational structure as an attempt to increase capacity for optimal execution of treasury mandate and to ensure realignment of functions in line with the priorities and mandate of reigning administration. Upon obtaining approval of the revised organisational structure, it will be implemented incrementally subject to availability of resources.

### **3. Outlook for the coming financial year (2024/25)**

The Provincial Treasury remains consistent in its approach to improve the organisational environment through performance excellence and addressing challenges within. It continues to make concerted efforts to ensure that the structure is appropriate for achieving the organisation's outcomes and those of government at large.

Key focus areas within the **Administration Programme** include:

- Providing of policy and political directives to achieve provincial objectives;
- Translation of policies and priorities into strategies for effective service delivery;

- Executing credible budget process to ensure sound financial and supply chain management; and providing of effective and efficient audit services.

With the planned outputs, the priority will be on awarding of contracts for services of the Provincial Treasury to previously disadvantaged groups with a focus on women, youth and people living with disabilities. The internship programme enlists youth to provide an opportunity for them to gain skill and experience in the workplace.

Whilst the moratorium on the filling of vacant posts in the Provincial Government has had a negative impact on the Provincial Treasury, the planning targets for the next year were done in line with the principle that more had to be done with fewer resources. Through effective and efficient service, the Provincial Treasury will achieve planned outcome of improved financial performance and governance within the PFMA and MFMA institutions leading to the impact of financially viable government institutions.

The **Sustainable Resource Management** programme will promote optimal and effective Provincial resource allocation and utilisation, and efficient Provincial budget management. Budgets must be allocated to the departments for service delivery. The programme must ensure that funds are allocated equitable and efficiently. The Budget and Expenditure unit will continue to monitor the financial performance of the departments and public entities. Feedback on the financial performance will be given to departments so that departments can avoid unauthorised expenditure and achieve its objectives as planned. The programme is also tasked with reporting on the financial performance to all its stakeholders including the national Treasury. Timely and the programme will provide accurate reports.

The programme also assists with accurate financial reporting on Provincial revenue generation and maximization. The programme will continue to work with departments and entities in exploring new sources of revenue and making sure that there is optimal own revenue collection. The programme is expected to continue effectively managing the cash flow of the province and will make the necessary and scheduled transfers of cash to departments tariffs will be reviewed annually to make sure that its market related and all areas are covered.

The programme will also enhance planning; implementation and management of infrastructure by Provincial Departments and Municipalities. The programme provides support and monitors 6 infrastructure departments .The support is provided through analysis and provide feedback on User Asset Management Plans. Departments are then expected to make the necessary amendments so that final plans are then monitored throughout the financial year. The programme will continue to monitor the financial performance and construction of the various projects in the province. Feedback will be provided by the programme to the six infrastructure departments. The biggest challenge will continue to be proper planning, implementation, and trying to contain the cost of delivery of the projects.

The programme will continue to provide technical support to delegated Municipalities on the implementation of the MFMA. Nineteen municipalities will be supported through analysis and feedback of the Municipal Budgets. Five financial recovery plans have been

finalised and approved by the MEC. The programme will continue monitor the implementation of those recovery plans. The programme must eventually do financial recovery plans for all eight municipalities, which were deemed dysfunctional. Through

The **Assets and Liabilities Management** programme supports all government priorities by monitoring the utilisation of resources allocated to Provincial Departments, Public Entities and Municipalities. The Programme is responsible for supply chain, assets and liabilities management and the management of the transversal systems and information technology in Provincial Departments.

There is a need for the Provincial Treasury to improve its systems to enhance the support to Provincial Departments, Municipalities and Public Entities on sound financial and administrative management, efficient and effective management and operations systems and procurement systems that deliver value for money. For the coming year the focus will be on capacity building to improve the skills on asset and inventory management.

The Provincial Treasury will provide support on the utilisation of the systems to all Departments. In this regard the Provincial Treasury has introduced electronic leave, invoice tracking and system for preparation of financial statements. This is with the objective of moving away from the manual processes. Moving forward other systems will be explored including a system for contract management as a priority for the streamlining of our processes. An analysis of the audit outcomes indicated Provincial Treasury, line departments and Municipalities experienced challenges with the design of IT controls in the focus areas of IT governance, security management, user access management and IT service continuity, and therefore more focused support will be provided.

In the **Financial Governance** programme, the Accounting Services Unit has only four officials to support 12 Departments, 4 Public Entities and 19 Municipalities. The capacity brings a challenge, as the team is not able to pay attention to specific stakeholders and ensure improvement is achieved. The approval and implementation of the proposed organisational structure could be a solution to the challenge faced by the Unit/ Programme.

Due to increasing mandates and number of institutions which needs to be serviced, the Human Capital is a challenge considering that the Mpumalanga Provincial Treasury structure is not aligned to the recommended Provincial Treasury structures issued by National Treasury which aligns Provincial Treasuries to the National Treasury mandates.

The Units in the Provincial Treasury were originally created based on the support to Departments and Public Entities and with the delegation of 19 Municipalities from the National Treasury to the Provincial Treasury, this mandate was extended, which places a heavier burden on the officials to perform.

The Provincial Treasury has entered partnerships with the South African Institute of Professional Accountants with the aim to professionalise the finance managers within government. The government makes available the learning environment, SAIPA provides the means, and tools of learning, assess and certifies the competency of the officials as Professional Accountants. The plan is to involve other professional bodies in relation to risk management, auditing, supply chain management and others.

## 4. Reprioritisation

Due to diminishing budgets, largely as a result of slow global economic recovery and a tight fiscal environment, expenditure over the 2024 MTEF will be well contained. The Provincial Treasury will continue to implement cost containment measures and reduce spending on other items in order to make funds available for activities that will ensure achievement of the strategic objectives.

## 5. Procurement

In ensuring that goods and services are procured timely the Provincial Treasury has developed a procurement plan of all goods and services between R30 000 and R500 000 and above R500 000 (applicable taxes included) which is monitored on monthly basis. Furthermore, the Provincial Treasury will ensure that when securing goods and services local suppliers are given first preference.

On Capital budget, the Provincial Treasury has allocated funds for the provision of IT infrastructure and replacement of old working tools such as computer equipment. When providing for IT infrastructure, increase in exchange rate between dollar/rand has been considered.

The budget for the Provincial Treasury has shown a decrease of 5.2 percent when compared to the 2023/24 financial year baseline. The decrease is mainly on goods and services due to funds for E-Submission and Electronic Records Management System that were rescheduled to 2023/24 financial year. The budget for 2024/25 MTEF however has increased when compared to audited outcome. This is as a result of special funding received for 2022/23 for E-Submission and Electronic Records Management System.

#### Core functions and responsibilities

Section 154 of the Constitution of the Republic of South Africa, 1996 states that National and Provincial governments, by legislative and other measures, must support and strengthen the capacity of Municipalities to manage their own affairs, to exercise their powers and to perform their functions.

Section 105(1) Constitution of the Republic of South Africa, 1996 states that the MEC for Local Government in a province must establish mechanisms, processes and procedures in terms of section 155(6) of the Constitution to:

- Monitor Municipalities in the Province in managing their own affairs, exercising their powers and performing their functions.
- Monitor the development of local government capacity in the Province; and assess the support needed by Municipalities to strengthen their capacity to manage their own affairs, exercise their powers and perform their functions.

The Traditional and Khoi-San Leadership Act, 2019 (Act No. 3 of 2019) enables the Department to provide for the functions and roles of traditional and Khoi-San leaders; to provide for the recognition, establishment, functions, roles and administration of kingship or

queenship councils, principal traditional councils, traditional councils, Khoi-San councils and traditional sub-councils, as well as the support to such councils; to provide for the establishment, composition and functioning of the National House of Traditional and Khoi-San Leaders; to provide for the establishment of provincial houses of traditional and Khoi-San leaders; to provide for the establishment and composition of local houses of traditional and Khoi-San leaders; to provide for the establishment and operation of the Commission on Khoi-San Matters; to provide for a code of conduct for members of the National House, provincial houses, local houses and all traditional and Khoi-San councils;

## **LEGISLATIVE AND OTHER MANDATES**

### **Constitutional Mandate**

The following Chapters with the relevant sections of the Constitution of the Republic of South Africa, 1996 are important regarding the specific constitutional mandates of the Department:

#### **The Constitution of the Republic of South Africa, 1996**

The Department subscribes to the founding provisions of the Constitution, including the Bill of Rights as well as the principles of co-operative governance and intergovernmental relations as contained in Chapters 1; 2 and 3 of the Constitution of the Republic of South Africa, 1996.

#### **Section 139, Chapter 6 of the Constitution of the Republic of South Africa, 1996**

The MEC as per the directives of the Provincial Executive Committee (EXCO) may intervene in the affairs of a municipality.

#### **Section 154(1), Chapter 7 of the Constitution of the Republic of South Africa, 1996**

The MEC as assigned by the Provincial Government to ensure by legislative or other measures, must support and strengthened the capacity of Municipalities to manage their own affairs, to exercise their powers and to perform their functions.

#### **Section 155(6), Chapter 7 of the Constitution of the Republic of South Africa, 1996**

The MEC as assigned by the Provincial Government to establish Municipalities in the Province in a manner consistent with legislation enacted in terms of section 155(2) and 155(3) respectively and by legislative or other measures, must monitor and support local government in the Province and promote the development of local government capacity to enable Municipalities to perform their functions and manage their own affairs.

#### **Section 156(1), Chapter 7 of the Constitution of the Republic of South Africa, 1996**

The MEC as assigned by the provincial government, subject to section 44 of the Constitution, has the legislative and executive authority to see to the effective performance by Municipalities of their functions in respect of matters listed in Schedules 4 and 5 of the Constitution, by regulating the exercise by Municipalities of their executive authority referred to in section 156(1) of the Constitution.

#### **Section 212, Chapter 12 of the Constitution of the Republic of South Africa, 1996**

The Department acknowledges the role for Traditional Leadership as an institution at local level on matters affecting local communities and to deal with matters relating to traditional leadership, the role of Traditional Leaders, customary law and the customs of communities observing a system of customary law by the establishment of Houses of Traditional Leaders.

**Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998)**

The Act empowers the MEC to establish Municipalities in accordance with the requirements relating to categories and types of municipality; to establish criteria for determining the category of municipality to be established in an area; to define the type of municipality that may be established within each category; to provide for an appropriate division of functions and powers between categories of municipality; to regulate the internal systems, structures and office-bearers of Municipalities; to provide for appropriate electoral systems; and to provide for matters in connection therewith.

**Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000)**

The Act seeks to provide for the core principles, mechanisms and processes that are necessary to enable Municipalities to move progressively towards the social and economic upliftment of local communities and ensure universal access to essential services that are affordable to all; to define the legal nature of a municipality as including the local community within the municipal area, working in partnership with the municipality's political and administrative structures; to provide for the manner in which municipal powers and functions are exercised and performed to provide for community participation; to establish a simple and enabling framework for the core processes of planning, performance management, resource mobilization and organizational change which underpin the notion of developmental local government; to provide a framework for the provision of services, service delivery agreements and municipal service districts; to provide for credit control and debt collection; to establish a framework for support, monitoring and standard setting by other spheres of government in order to progressively build local government into an efficient, frontline development agency capable of integrating the activities of all spheres of government for the overall social and economic upliftment of communities in harmony with their local natural environment; to provide for legal matters pertaining to local government; and to provide for matters incidental thereto.

**UPDATES TO THE RELEVANT COURT RULINGS**

**Constance Mogale and three others vs President and Others (CCT 73/22) [2023] ZACC 14**

On 30 May 2023, the Constitutional Court of South Africa handed down judgment in the matter of the constitutional validity of the Traditional and Khoi-San Leadership Act, 2019 (Act No. 3 of 2019) (TKLA). This application was brought by Constance Mogale and 3 Others (Applicants) against the Speaker of the National Assembly and 15 Others (Respondents) in terms of section 167(4)(e) of the Constitution of the Republic of South Africa, 1996 for an order declaring that the National Assembly, the National Council of Provinces (NCOP) and the nine provincial legislatures have failed to fulfil their constitutional obligations to reasonably facilitate public involvement in the passing of the TKLA.

The Constitutional Court emphasised that, regardless of the process Parliament chooses to adopt, it must ensure that “a reasonable opportunity is offered to members of the public and all interested parties to know about the issues and to have an adequate say”. A reasonable opportunity to participate in legislative affairs “must be an opportunity capable of influencing the decision to be taken”. The Constitutional Court noted that it is clear from the evidence that Parliament failed to fulfil its constitutional obligation to reasonably facilitate public involvement in the legislative process leading to the enactment of the TKLA.

The following order was made:

- It is declared that Parliament has failed to comply with its constitutional obligation to facilitate public involvement before passing the Traditional and Khoi-San Leadership Act 3 of 2019 (TKLA).
- The TKLA was, consequently, adopted in a manner that is inconsistent with the Constitution and is therefore declared invalid.
- The order declaring the TKLA invalid is suspended for a period of 24 months to enable Parliament to re-enact the statute in a manner that is consistent with the Constitution or to pass another statute in a manner that is consistent with the Constitution.

### **UPDATES TO INSTITUTIONAL POLICIES AND STRATEGIES**

The Mpumalanga Department of Co-operative Governance and Traditional Affairs has developed its 5 Years Strategic Plan to be in line with revised 2019-2024 National and Provincial MTSF which is defined as the combination of a NDP Five Year Implementation Plan for the Priorities outlined in the Electoral Mandate and an Integrated Monitoring Framework. Much more focused on a limited set of priorities which allows for a clear line of site for the President and the country:

Required delivery, resources and delivery timelines

Proposals (Targets, Interventions, Outcomes and Indicators)

Through the proposed NDP 5 Year Implementation Plan, government will collaborate with the private sector, labour and civil society to contribute to the achievement of the set priorities.

### **Policies and strategies the institution plans to continue implementing during the 2024/25 financial year following:**

Mpumalanga Spatial Development Framework, 2019

Integrated Urban Development Framework

Mpumalanga Anti- Poverty strategy

Local Government Back to Basics Approach

Integrated Municipal Support Strategy

Inter-Governmental Relations Framework

District Development model (Khawuleza model)

National Development Plan, Vision 2030

Mpumalanga Vision 2030

Mpumalanga Economic Growth and Development Path

### **Outputs/ Interventions/ Strategic Policy Directions**

The Department has aligned its outputs and interventions to contribute to the National and Provincial Priority 1 of Building a capable, ethical and developmental state. The outcome is also linked to the following National and Provincial priority:

**2019-2024 MTSF Priority 5: Spatial integration, human settlements and local government.**

The outputs that the Programme intend to achieve will contribute to the outcome of improved governance and performance in municipalities, through monitoring and supporting municipalities on capacitation of municipal officials and Councillors, strengthening oversight committees and appointment of suitable senior managers. In improving the performance of municipalities, the department will conduct municipal performance review sessions, implementing municipal support plans where gaps are identified for improvement and support municipalities to implement acceptable service standards. The Department will further support municipalities in maintaining functionality of ward committees to contribute to improved channels of communication, guiding on compliance with Municipal Rates and Property Act to ensure revenue enhancement and supporting municipalities to reduce prohibited expenditure (Unauthorised, Irregular and Fruitless and Wasteful expenditure). Eventually, the achievement of this outcome will result in municipalities capable to manage their own affairs, exercise their powers and perform their functions to contribute to the realization of the impact statement of spatially transformed communities and sustainable livelihood.

The programme has also prioritised cross cutting issues from the **2019-2024 MTSF Priority 1 outcome 5**: mainstreaming of gender, empowerment of youth and persons with disabilities by monitoring the appointment of senior managers in line with MSA regulations as well as monitoring GBVF responsive programmes implemented in municipalities.

Furthermore, the planned performance responds to direct effects of uncoordinated planning and development in respect of unsustainable service delivery, basic service backlog, unemployment, spatial disintegration, insecurity of tenure, inefficient and ineffective land use management, poor project and Programme management, and disaster incidences.

The outputs that the Department intend to achieve through programme 3 will contribute to the outcome of improved planning, development coordination and access to basic services through supporting developments, surveying land, promoting security of tenure in identified settlements, speedy processing of applications by municipalities; implementation of SDFs proposals. Initiatives including GIS; IDPs that adequately respond to the needs and priorities of communities. Implementation of programmes aimed at the reduction of unemployment, poverty and inequality. Implementation of projects funded by the national grants by municipalities including the Municipal Infrastructure grants will contribute to the reduction of backlog and increase access to basic services (water, sanitation, electricity and refuse removal). The Department will also monitor the functionality of the Waste Water and Water Treatment Works to improve the adequate supply of water and sanitation services. The reduction of disaster incidences will also result in the achievement of the outcome. The achievement of the outcome will assist in realizing the impact of spatial transformation and sustained livelihood within the Province.

In realizing the outcome, the Department will implement enablers such as planning, infrastructural, economic and environmental interventions; programmes of the provincial project management unit, capacity building; District Development Model as well as provision of adequate tools of trade.

2019-2024 MTSF Priority 2: Economic transformation and job creation;

2019-2024 MTSF Priority 5: Spatial integration, human settlements and local government.

The outputs that the Programme 4 intend to achieve will contribute to the outcome of improved performance of Traditional Councils through supporting traditional/kings council on participation in municipal affairs, clear accountability to the public, and adequate tools of trade towards the impact of improving access to service delivery in traditional communities.

The contribution of the planned performance is that the programme aims at ensuring the functionality of traditional/King councils and improved cooperation with government through sound financial administration, clear accountability to the public, adequate tools of trade, formal and informal partnership agreements between private investors with Traditional councils, effective participation in Council sittings, OVS, and Ward Committees.

Capacity building, tools of trade, participation in municipal affairs, sound financial administration as well as holding of cultural ceremonies will enable functionality of traditional/king councils and cooperation with government and that will result in the provision of basic services within Traditional communities and the impact of spatially transformation and sustained livelihoods within the Province will be attained.

### **1.1 Aligning departmental budgets to achieve government's prescribed outcomes**

According to the government priorities as identified by Cabinet, the Department has been assigned with outcome 9: A responsive, accountable, effective and efficient local government system. However, the Mpumalanga Department of Co-operative Governance and Traditional Affairs has developed its 5 Years Strategic Plan to be in line with new MTSF which is now defined as the combination of a NDP Five Year Implementation Plan for the Priorities outlined in the Electoral Mandate and an Integrated Monitoring Framework

Much more focused on a limited set of priorities which allows for a clear line of site for the President and the country:

Required delivery, resources and delivery timelines

Proposals (Targets, Interventions, Outcomes and Indicators)

Through the proposed NDP 5 Year Implementation Plan, government will collaborate with the private sector, labour and civil society to contribute to the achievement of the set priorities.

#### **Impact statement**

### 1. Overview

#### Vision

Vibrant, equitable, and sustainable communities with a united and transformed agricultural and environmental sector.

#### Mission

To facilitate an integrated, comprehensive, sustainable environmental & agricultural development in communities through ensuring social cohesion and collaboration by all sectors of society.

#### Values

Guided by the principles of Batho Pele, we will render services particularly based on the following values:

- Result orientated, diligent and professional staff.
- Responsive to the needs of all citizens, particularly the poor, women, youth, elderly and persons with disabilities.
- Driven by community-based development.
- A learning organization that is participatory in its approach and grows from its experiences and new knowledge and innovations.
- Promote and improve effective, efficient and responsive Departmental systems and use of resources.
- Act with honesty, ethical, impartial and with integrity.

#### Programme 1: Administration

To provide political leadership, financial and administrative management of the Department, which ensures an effective and efficient administrative support to all line functions in the Department and external stakeholders.

#### Programme 2: Sustainable Resource Use and Management

To provide agricultural support services to land users to ensure sustainable development and management of natural agricultural.

**Programme 3: Agricultural Producer Support and Development**

To provide support to farmers through agricultural development programmes.

**Programme 4: Veterinary Services**

To provide veterinary services to clients in order to ensure healthy animals, sustainable and profitable animal production enterprises, safe trade in animals and products of animal origin and well-being of animals and the public.

**Programme 5: Research and Technology Development Services**

To provide expert, problem focused and client centric agricultural research, technology development and transfer impacting on development.

**Programme 6: Agricultural Economics Services**

To provide timely and relevant agricultural economic services to ensure equitable participation in the economy.

**Programme 7: Structured Agricultural Training**

To provide and facilitate structured and vocational agricultural education and training to establish a knowledgeable prosperous and competitive sector.

**Programme 8: Rural Development Coordination**

To create vibrant, equitable rural communities with food security for all through the sustainable rural economic livelihoods.

**Programme 9: Environmental Affairs**

To promote a well-managed, sustainable environment.

Some of the key drivers that the Department has planned to implement to contribute towards achieving some of the outcomes are as follows:

**Greening Mpumalanga Initiative**

As a contribution towards addressing the triple challenges of unemployment, inequality and poverty facing the Province and the country at large, the department intensified its efforts through the Greening Mpumalanga Programme.

The Department as guided by the Agriculture and Agro-processing Master Plan (AAMP), has streamlined its development in corridor form. There are three main corridors, which are Vegetable Corridor mainly in the Gert-Sibande District and part of Ehlanzeni District, Fruit Corridor in the Ehlanzeni District and deciduous fruit in the Gert Sibande District and lastly Grain Corridor mainly in Nkangala District.

The Department is increasing production of this commodity in these corridors since they were identified in terms of the competitive and comparative advantages of these districts. This is also as outlined in the Agricultural Policy Action Plan (APAP).

**Phezukomkhono Mlimi- Ilima/Letsema**

The programme was able to continue to boost and increase production capacity of our subsistence and emerging farmers, including vulnerable households. We continued providing

support in the form of ploughing mechanization, planting, production inputs and extension and advisory services.

The programme also encourages application of Smart Agriculture methods in mitigation of the impact of Climate Change such as the use of Water Efficient Maize seed for Africa, pest-resistant TELA maize seed, Conversation Agriculture, Climate Smart Agriculture, use of water saving technologies, and square food gardens.

### **Masibuyele Esibayeni Programme (MESP)**

In the planning year, the department will be rolling out the livestock programme so that there is mix farming that enables the farmer to grow and move from subsistence to commercialisation. The Masibuyele Esibayeni Programme is targeted to contribute to the increase in production of the livestock development. Animal Production as linked to the available grazing land, is a dominating farming business in areas of Ehlanzeni and Gert Sibande. However the department will focus more on Highveld regions which are Gert Sibande and Nkangala Districts for animal production since Lowveld region is under the Red Line Zone along the Kruger Park.

The Department, through this programme is able to support deserving farmers with sets of animals both large and small livestock. Provision of these animal is done with strict consideration of environmental sustainability and animal health compliance. Environmentalists and Veterinarians are part of the process acquiring these animals. The interventions in this plan will push the commercialization of this industry even.

### **Veterinary Services**

In the previous financial year, the Province suffered an outbreak of the Foot and Mouth Disease in the free zone of Nkangala District, joining the other five Provinces that reported it in their free zones.

The Veterinary Services Unit was able to take swift and decisive action to prevent its spread and protected our livelihoods, through implementing strict bio-security measures, including quarantines, movement restrictions and testing of all animals in the affected areas. The disease was contained and within a very short space of time eradicated. About 1.8million livestock unites were spared which saved our economy and related jobs.

### **Agri-Hubs**

The Agri-hub is a fresh produce market facility at district level. They are marketing infrastructure wherein farmers aggregate produce for marketing purpose to different market segments and easily accessible to producers. These facilities are located at close proximity to producer/farmers in order to limit transport costs of the producers. Farmers produce is aggregated, packaged and sorted in these facilities then distributed to the Client Departments. These Agri-hubs are customized specifically to cater for the local commodities produced in the area. Farmers in the local vicinity will have easy access to supply the Government Nutrition Programme (GNP) through these facilities.

### **Government Nutrition Programme (GNP)**

The Provincial Government continued with efforts to improve market access for farmers. This is a huge milestone in ensuring that all farmers in the Province, smallholders and commercial, have access to markets.

The Department also provided workshops to 114 farmers on SAGAP and 28 agro-processing farmers who were trained on HACCP food safety certified for SAGAP by PPECB. The Department received more applications for CASP conditional grant in the 2022/23 financial year as more farmers come into the mainstream of farming, a large number that would not be covered with the grants appropriated to the Province. As a result, the Department signed a blended funding Service Level Agreement with the Land Bank to increase the footprint of farmers supported by the department in Province with post settlement support.

***Mpumalanga Agri-Park:***

As part of the broader strategy of strengthening the collaboration between the partners such as Private, Public, and Communities. The department has collaborated and entered into a partnership agreement with SASOL to develop a multidisciplinary and multi-stakeholder Agricultural Park in Secunda in Govan Mbeki Local Municipality. The aim of which is to bring together the producer groups in various commodities and provide access to marketing and conservation facilities for their produce.

***Just Transition***

The Mpumalanga coalfields are fast depleting. This was revealed by the resource and reserve coal study conducted by national geo-scientific repository, the Council for Geo-Sciences, in collaboration with Eskom, which indicated that coal in Mpumalanga has declined from 28.1Bt to 12.4Bt (DMR Industry Overview, 2014).

Just Transition will address both the costs and risks for fossil fuel workers and communities of the transition while also addressing the broader development challenges facing the South Africa and the Province: to build an inclusive, diversified, and sustainable development pathway for Mpumalanga Province.

Mpumalanga's threats on decommissioning of power stations that will eventually have negative impacts on mine closure and other associated sectors depending on power stations and mining, especially in Nkangala and Gert Sibande District Local Municipalities.

***Mpumalanga International Fresh Produce market***

The Mpumalanga International Fresh Produce is nearing completion with some of its key section commissioned. With the first phase of the MIFPM targeted to operational in the current financial year, the Department will intensify efforts and invite private sector for investment in primary production. The department will also be operationalising the completed sections of the markets.

The Department in partnership with the commodity groups and commercial farmers continues to put efforts towards increasing production that will be supplied to the MIFPM. As an effort to increase production, a number of farmers that are in production of various commodities have been identified throughout the province.

The department will be initiating the process of operationalisation of the MIFP in the planning year.

***Tea and Coffee Production Plant***

The Department is continuing to refurbish the whole estate to its former operational state and revive some of the markets that are still in existent.

## **Legislative and other mandates:**

### **Constitutional mandates**

The Department of Agriculture, Rural Development, Land and Environmental Affairs, is an integral part of the South African Public Service established in terms of section 197 of the Constitution and read with section 7 (1) and 7 (2) of the Public Services Act of 1994.

The Department derives its core mandate from the provisions of schedules 4 and 5 of the Constitution of the Republic of South Africa and in accordance with section 104 (1) b and the sections 24,25 and 27 of the Constitution.

As a concurrent national and provincial legislative competency listed in schedule 4 of the Constitution, the Department, as part of the system of concurrent governance, derives its administrative mandate from both National Parliament and Provincial Legislature.

### **Legislative mandates**

The Department derives its mandates from a number of Acts and policies. These include but are not limited to the following:

#### **Agriculture, Rural Development, Land Environmental Affairs related acts**

- Strategic Plan for South African Agriculture, November 2001
- Comprehensive Rural Development Framework Version 2 of 2009
- Conservation of Agricultural Resources Act, 1983 (Act 43 of 1983)
- The Labour Tenant Act, 1996 (Act 3 of 1996)

#### **Environmental Management Related Acts**

- National Environmental Management Act, Act 107 of 1998
- National Environmental Management: Protected Areas Act (Act 57 of 2003)

- National Environmental Management : Biodiversity Act, (Act 10 of 2004)
- National Environmental Management: Air Quality Act, (Act 39 of 2004)
- National Environmental Management :Waste Act,(Act 59 of 2008)

### **Administrative Related Acts**

The Department is guided by some of the following administrative related acts:

- Public Finance Management Act
- Public Service Act 103 of 1994
- Labour Relations Act no. 66 of 1995
- Promotion of Access to Information Act no.2 of 2000
- Promotion of Administrative Justice Act no.3 of 2000
- Higher Education Act 101 of 1997
- South African Qualifications Authority Act of 1995,
- Further Education and Training Act 98 of 1998

### **Policy Mandates**

The key main policy mandates as identified in the Department's Strategic Plan (SP) for the MTEF period 2020/21 to 2024/25 of the department have not changed. They are still relevant and applicable in the current planning period 2022/23.

### **Agricultural sector**

The White Paper on Agriculture provides for the building of a strong agricultural economy and reducing inequalities by increasing incomes and employment opportunities for the poor while conserving natural resources. The following are the key responsibilities of the Department:

- Build an efficient and competitive agricultural sector;
- Support emerging diverse structure of production with large increase of number of successful small holder farming enterprises;
- Conservation of natural resources; and Sustainable resource use.

### **Rural Development sector**

The Rural Development mandate arises from the Medium Term Strategic Framework (MTSF) strategic objective number 3: Comprehensive Rural Strategy linked to Land and Agrarian Reform. This provides for the Department's responsibilities of stimulating agriculture production with a view to contributing to food security and providing pre- and post- settlement support in the implementation of land reform programmes. The mandate provides for inter-governmental and Departmental coordination role of the following:

- Aggressive implementation of land reform policies;
- Sustainable agrarian reform;
- Improved rural services to support livelihoods;
- Improved access to affordable and diverse food;
- Improve service delivery to ensure quality of life for animals and humans;
- Skills development;
- Improved employment opportunities and economic livelihoods; and
- Enabling institutional environment for sustainable and inclusive growth.

## **Environmental Management sector**

### ***White Paper on Environmental Policy for South Africa, 1996***

To regulate and manage all environmental activities in the Province, including the development of provincial policy instruments to further the objectives of national policy on integrated environmental management.

### ***White Paper on Integrated Pollution and Waste Management in South Africa***

The policy provides for a national policy framework for integrated pollution control across all three-environmental media (i.e. land; air and water).

### ***White Paper on the National Climate Change Response Strategy***

The policy document provides a national direction through which South Africa aims to respond to the adverse impacts of global warming.

It collates and integrates the various strategies and action plans developed by various organs of state and community organizations and align these to global climate change response instruments and mechanisms, e.g. the United Nations Framework Convention on Climate Change.

#### **Relevant court rulings:**

- Constitutional Court Ruling of July 2010 declared the Development Facilitation Act unconstitutional.
- Constitutional Court Ruling of August 2010 declared certain Sections of the Communal Land Rights Act unconstitutional.

## **Aligning departmental budgets to achieve government's prescribed outcomes**

In line with the **MTSF 2019-2024**, the Department has geared itself towards achieving the following Outcomes:

### **Outcome 1: Improved Governance and Accountability**

This Outcome is important in ensuring that the Department develop and reach the stage of being a capable organ of state that has the required resources to deliver on aims and plans it set itself to serve its citizenry. The Outcome addresses the MTSF Priority 1: Capable, Ethical and Developmental State.

Focus under this Outcome is on the improvement of financial management, and the integrated monitoring, and public administration capabilities of the Department to respond to and or meet the expectation of the communities as laid out in its mandate. The mandate as enshrined in The Constitution of the Republic of South Africa, that "everyone has the right to have access to sufficient food and water." It further guarantees everyone the "right of access to an environment that is not harmful to their health and wellbeing and to have the natural environment protected for the benefit of current and future generations".

The Department has set up the target of achieving Clean Audit Outcomes during this planned period. The key focus area is clearing all the issues that have the risk of limiting the Department to effectively deliver on its services.

The target for the Department will be to ensure that it delivers on key programmes and projects within the specified contract terms. That the spending of the Department is contributing directly towards the changing the lives of the people and the creation of decent job opportunities.

In addition the target is also on responding to the issues of the designated groups. To ensure that the Department elevate and highlight the issues and achievement of priorities of women, children and people with disabilities. The Department aims to award an increasing percentage of procurement to designated groups and contribute towards an inclusive, diversified and growing economy.

With the achievements of the targets as indicated, the Department will contribute towards achievement of the intended impact of a transformed agriculture and food security for all.

## **Outcome 2: Increase in agricultural production.**

The Outcome of Increase in Agricultural Production is intended to respond and aim to address MTSF Priority 5: Spatial Integration, Human Settlements and Local Government. The aim of “South Africa’s rural communities having better opportunities to participate fully in the economic, social and political life of the country”. Wherein people are ‘able to access high-quality basic services that enable them to be well nourished, healthy and increasingly skilled”. This Outcome emphasises that “Rural economies will be supported by agriculture and, where possible, by mining, tourism, green economy, agro-processing and fisheries. The Department seeks to contribute directly to the Outcome of Accelerated Land and Agrarian Reform including Food Security.

The commitment is of the Government seeking to ensure that there is an increase of potentially arable land is put under production. It further relates to the mandate as enshrined in the Constitution of the Republic of South Africa, that “everyone has the right to have access to sufficient food and water.”

Through this outcome, the Department seeks to increase agricultural production by providing agricultural technical advice, training, mechanisation services, and agricultural infrastructure. To this effect the Department has planned on focusing and elevating the projects and or programmes that are earmarked for the designated groups. The Department has designed and planned key specific project and programmes that are dedicated to youth and women. The dedicated programme includes programmes and projects such as the Greening Mpumalanga Initiative, Graduate Programme, Tractor Mechanic, and women owned projects.

The key enablers for the Department to be able to achieve the outcome are that there are sufficient resources, partnerships, off-take agreements and improved access to markets, land and water.

One of the strategies of this outcome is to build transformed integrated and sustainable farming communities that are able to produce for their own sustenance and export some to the global markets including agro-processing.

This outcome will address some of the goals in the pillars of the National Development Plan that are aimed at tackling poverty, inequality and unemployment. Achievements of these goals will

mean that no person in South Africa and in particular Mpumalanga will go hungry and the 'economy will grow at a much faster rate than the population'.

The success of this outcome will be evident in the contribution of the achievement of a transformed agriculture able to produce for food security for all and surplus for markets. From this, the subsistence and emerging farmers get to be actively involved in the full value chain and thus reduce the dominance of big industries.

### **Outcome 3: Increased broader participation in the agro-processing.**

The focus on increased broader participation in the agro-processing is to contribute towards the aims of the MTSF Priority 2 of Economic Transformation and Job Creation. The Outcome responds to MTSF Priority 2's Sub-programme of Industrialisation, localisation and exports, and in particular to the National Outcomes of Agro-processing.

The Outcome seek to address the mandate as enshrined in The Constitution of the Republic of South Africa, that "everyone has the right to have access to sufficient food and water." This outcome responds directly to one of the Government's announcement of the seven bold priorities of – Economic Transformation and Job Creation.

Access to markets has been a challenge over the years, for previously marginalised farmers. The Department has elevated agro-processing to ensure that farmers access markets both local and international. The outcome is contributing to the MTSF Priority 2 through implementation of the various project and programmes such as development of Agri-Hubs, Dairy Processing Plants and Parlours, processing of fruits and nuts, and resuscitate existing community and private grain mills to ensure that there is a broader participation of farmers in agro-processing. Some of these projects, such as grain mills, are owned and managed by the youth and in some instances women.

The Department will be able to achieve the outcome by ensuring on the following enablers: stimulate and enhanced partnerships with key stakeholders like the established commercial farmers commodity groups, solid offtake agreements (local and international), mass production in commodity-based approach initiatives, research and development, skilled farmers and officials.

The success of this outcome will be evident in the contribution of the achievement of a transformed agriculture sector. From this, the subsistence and emerging farmers get to be actively involved in the full value chain and thus reduce the dominance of big industries.

### **Outcome 4: Enhanced Environmental Sustainability**

The Departmental Outcomes of Enhanced Environmental Sustainability seek to address the aim of Priority 4 of the MTSF 2019-2024. It addresses in particular, the MTSF's Outcomes of State of Ecological Infrastructure Improved, and the Municipal Preparedness to Deal with Climate Change (Adaptation).

The Outcomes relates to the mandate to the Department that guarantees everyone the "right of access to an environment that is not harmful to their health and wellbeing and to have the natural environment protected for the benefit of current and future generations.

The Department will continue to monitor air pollution through the air quality monitoring stations it has established. This will assist in identifying priority areas that needs interventions.

Over the next five years, the following must be in place for the Department to achieve the outcome, Mpumalanga climate change mitigation strategy, Mpumalanga climate change adaptation strategy, Environmental policies and legislation, Resources and Partnerships.

The Mpumalanga coalfields are fast depleting. This was revealed by the resource and reserve coal study conducted by national geo-scientific repository, the Council for Geo-Sciences, in collaboration with Eskom, which indicated that coal in Mpumalanga has declined from 28.1Bt to 12.4Bt (DMR Industry Overview, 2014).

Just Transition will address both the costs and risks for fossil fuel workers and communities of the transition while also addressing the broader development challenges facing the South Africa and the Province: to build an inclusive, diversified, and sustainable development pathway for Mpumalanga Province.

Mpumalanga's threats on decommissioning of power stations that will eventually have negative impacts on mine closure and other associated sectors depending on power stations and mining, especially in Nkangala and Gert Sibande District Local Municipalities.

**Key actions to be undertaken in order to achieve the MSTF targets are as follows:**

- Provide comprehensive support to farmers for targeted commodities
- Prioritise land reform farms to increase production
- Invest in irrigation schemes for sustainable production
- Provide comprehensive support to small scale farmers and cooperatives
- Implement targeted skills development programmes in the sector
- Engage with established commercial farmers to create skills development and placement opportunities for young people in the sector
- Take deliberate actions to establish youth cooperatives in the sector and provide the necessary infrastructure and finance through Fortune 40 Programme
- Implementation and coordination of the CRDP and GNP Programmes
- Implement Climate Change interventions and projects
- Promote socio-economic benefit to local communities through establishment of Zonda Insila cooperatives for waste economy initiatives
- Promote adaptation and mitigation actions against climate change impacts by developing key sector plans for agriculture, tourism, human settlement, land and social development, rural live hood forestry and biodiversity.
- Reduce atmospheric pollutants, to ensure progressive of everyone's rights to air that is not harmful to health and well-being.

The Department has the following key provincially based institutional policies and strategies towards enhancing its services to the communities:

- The Masibuyele Emasimini Policy revised as **Phezukomkhono Mlimi (PKM)**, The Masibuyele Esibayeni Policy

- Mpumalanga Integrated Waste Management, Air Quality Management Policy Climate Adaptation and Mitigation Strategies.

## 2. Review of the current financial year (2023/24)

The COVID-19 pandemic continued to have some negative impact on some sectors the provincial economic. However, agriculture continued in year under review to be the least affected industry due to the demand for agricultural products locally and internationally. The sector also showed job gains during the lockdown period. This industry recorded growth of more than 13% in the first 9 months of 2020. Unfortunately the impact of lockdown regulations due to COVID-19 that started from 2020 and crossing over to 2021, had in more than one way showed its consequences on the agricultural industry as a whole, and on secondary agricultural industries in particular. Both the officials and the farmers had to adopt an innovative farmer support interaction while ensuring compliance to lockdown protocols. To that effect the Department had to make provision in terms of technological support, man-hour required, and / or methodology to offer extension and advisory services.

### Agri- hubs

In November 2022, a storm caused damage to the rooftop of the main vegetable trading floor section of the building at the Mkhondo Agri-Hub, resulting in a delay in its readiness to operate. Consequently, in this fiscal year, the department will give priority to refurbishing the Mkhondo Agri-Hub to ensure its operational readiness.

### Grain Milling

The Department has also collaborated with the strategic investor who has established a Provincial Commercial Maize mill in Middleburg aimed at assisting grain farmers with access to market. The mill is currently operational and collecting some maize from the local grain farmers.

### Phezukomkhono Mlimi

To date the Department has ploughed and planted 16 200 hectares (ha), supported food production from 560 Food gardens, and over 3000 households supported with agricultural food production initiatives. The Department plans to plant 117 010ha and support 12 180 households by end of this financial year.

## 3. Outlook for the coming financial year (2024/25)

The following are DARDLEA's key MTEF priorities that will continue to be implemented for the coming financial year, 2024/2025:

### Job creation and economic growth

#### Mpumalanga International Fresh Produce Market (MIFPM)

The Fresh Produce Market in Mbombela primarily deals with produce from other provinces, as local producers reportedly utilize their own informal and formal distribution networks. For instance, the Tshwane Fresh Produce Market sources some of its produce from areas as distant as Malelane in Mpumalanga. With the first phase of the MIFPM set to become operational in the

current financial year, the Department will actively seek internal resources and invite private sector investment in primary production.

### **Government Nutrition Programme (GNP)**

The Provincial Government has launched the Provincial-based Government Nutrition Programme (GNP) with the primary aim of supporting local farmers, revitalizing agricultural production levels, and enhancing the agro-processing value chain.

The objective of the program is to facilitate radical economic transformation within the agricultural sector by leveraging the resources of government departments and entities to procure agricultural produce and commodities from small enterprises, including emerging farmers. This initiative represents a deliberate and gradual strategy focused on gradually replacing a portion of fresh produce through preferential sourcing from local farmers.

The Department currently assumes a pivotal role in coordinating all stakeholders involved in the program. This includes coordinating with farmers to ensure the production of the required produce and quantities and facilitating supply to all participating government client departments.

Furthermore, the department continues to offer comprehensive support to farmers through planting programs tailored to meet the requirements of client departments.

### ***Tea and Coffee Production Plant***

The Department is continuing to refurbish the whole estate to its former operational state and revive some of the markets that are still in existent. This has created jobs in the Province.

### **Skills Development**

In order for farmers to effectively engage in the entire agricultural value chain, possessing agricultural and related skills is essential. The agricultural sector is currently facing a growing skills gap due to various factors, including unclear policy directions on land issues, the aging of farmers, and a lack of interest among youth in farming. To tackle these challenges, the Department is concentrating on ensuring coordinated efforts among key relevant departments, academic institutions, civil society, and the private sector. This collaboration is facilitated through a multi-stakeholder Provincial Agricultural Education and Training Forum.

Currently, the Department is outsourcing the accredited farmer training. However, the plan is to begin to develop accredited training programme on production (plant and animal), agro-processing, farm management and entrepreneurial skills.

### **Harnesses the latest advances in smart agriculture.**

### ***Research and Development***

The Department remains committed to conducting adaptive research and demonstration trials in various areas such as crops, veld, pastures, and animal research. These research activities occur both on the Department's two research farms and on producers' farms. Given the challenges posed by climate change, the research will continue to collaborate with other research institutes to pinpoint adaptation strategies and technologies. The aim is to ensure that agriculture remains productive, especially for smallholder producers.

Collaboration with entities like the Agricultural Research Council (ARC) and the African Agricultural Technology Foundation (AATF) will persist in related adaptive research spheres. This includes expanding demonstration trials of Water Efficient Maize for Africa (WEMA) seeds across four districts. These trials will aid in identifying the most suitable seeds for the diverse climatic zones of the Province.

Furthermore, the Department will continue conducting grain and sweet potato cultivar trials to determine the best-performing cultivars. Additionally, production guidelines tailored to the various climatic zones and soil types within the province will be developed.

### **Climate Change and Environmental Degradation**

The global escalation of Climate Change and Environmental Degradation demands urgent attention. The Department has intensified its commitment to advocate for and integrate climate change and environmental concerns, aiming for a cleaner, healthier environment within the Province and beyond. Efforts include the development and ongoing implementation of climate response tools to mitigate the adverse effects of climate change. These efforts encompass educational campaigns, awareness initiatives, practical demonstrations, and the creation of employment opportunities within the environmental sector.

The finalization of the Provincial Environment Outlook Report represents a significant milestone. This comprehensive report furnishes interested stakeholders, decision-makers, and the general public with vital information regarding the environmental status. It facilitates analysis of trends and serves as a basis for developing targeted responses to enhance environmental conditions. Moreover, the ongoing implementation of the Zonda Insila Programme stands as a crucial intervention in combating Climate Change. This initiative not only reduces greenhouse gas emissions but also promotes environmental preservation and socio-economic advancement. Progress in the Zonda Insila Programme is on track and is generating much-needed employment opportunities.

## **4. Reprioritisation**

The department has new projects to implement in the next financial year. The budget has been reprioritised to support the implementation of some projects. Funds from other programmes has been revised to augment the running cost of implementation of these projects. An amount of R 14 834 million has been reprioritised on Compensation of Employees for ERP Programme and a further amount of R 69 753 million has been reprioritised within Goods and Service and some to Payment for Capital Assets respectively within and across main divisions to help fund programmes responsible for implementation of projects.

## **5. Procurement**

The Department will pursue to ensure that the procurement of goods and services is done in a fair, equitable, transparent, competitive cost effective and timely manner, to ensure that service delivery is not compromised. In addition, all contracts will be subject to market price analysis and the terms and conditions will be analysed to identify areas where the department can negotiate for better value for money without compromising the quality of services acquired.

Contracts related to the core services of the department are discussed below:

The department will monitor the services rendered in line with the service level agreement in the current financial year. As part of poverty alleviation, the Department will supply seeds and fertilizer to farmers and assist in ploughing, tiling and planting arable land to poverty-stricken communities as well as land reform farms through Phezukomkhono Mlimi Programme.

The Department's overall budget has decreased from R1 669 777 to R1 513 968 due to financial constraints on the government fiscus. Nevertheless, the department remains committed to prioritizing service delivery and filling critical positions for service delivery programs.

Adequate budgetary provisions have been made for all contractual obligations and production inputs to ensure the continued provision of agricultural services to rural communities, thereby increasing food production for subsistence and personal consumption. A 1.5% skills levy against the salary bill has been allocated for employee training. Additionally, funds have been earmarked for audit fees, legal fees, and the procurement of veterinary medicine to combat outbreaks of diseases such as rabies and foot-and-mouth disease.

Under the Comprehensive Agricultural Support Programme (CASP) grant, allocations have been made for various purposes, including training, funding for the Extension recovery plan and

unemployed Graduates. This will enable the department to better address farmers' needs and provide comprehensive support.

Despite budgetary limitations, the Department will continue to address its priorities, including farmer support.

## 8.2. Programme 2: Sustainable Resource Management

### 8.2.1. Description and objectives

To provide agricultural support services to farmers in order to ensure sustainable development and management of agricultural resources. The programme provides support in the form of agricultural infrastructure development services that ranges from planning and designing to physical construction of structures to enhance sustainable natural resource management. The programme plays a key role in promoting the expanded Public Works Programme (EPWP) in the rehabilitation of degraded land.

## 8.3. Programme 3: Agricultural Producer Support and Development

### 8.3.1. Description and objectives

The programme renders district level services in support of the agrarian reform and rural development. The programme provides technical and infrastructure support to land reform beneficiaries including subsistence food producers, smallholder farmers and commercial farmers. It seeks to promote job creation, income generation and household food security through the implementation of commodity-based projects funded through the Comprehensive Agricultural Support Programme (CASP) and the Masibuyele Emasimini Programme. Through its CRDP inter-department coordinating role it supports the development of integrated rural development plans and budgets in liaison with the Municipalities' IDP processes.

**Aligning departmental budgets to achieve government’s prescribed outcomes.**

The Department of Economic Development and Tourism (DEDT) is guided by the following policy frameworks:

- National Development Plan (NDP)
- Mpumalanga Vision 2030: The Strategic Implementation Framework
- Mpumalanga Economic Growth and Development Path (MEGDP)
- Mpumalanga Industrial Development Plan (MIDP)
- The draft Mpumalanga Provincial Five Years Plan (2020 – 2025)

The MEGDP framework and the MIDP remain the relevant guiding policy documents to be utilized in setting out priorities for the 2020 – 2025 MTSF period. These policy frameworks instruct the Province to focus on the following **five key ‘job-drivers’**:

- Key economic sectors;
- Infrastructure development;
- Spatial development;
- Regional and international cooperation; and
- Seizing the potential of new economies.

The key economic sectors identified as drivers for rapid economic growth and job creation are agriculture (including forestry), manufacturing, mining, tourism as well as “new economies”. To realize the strategic issues identified above, there are specific outputs that are prioritized in each sector. In addition, also key actions to ensure that the five-year outputs are achieved as planned.

Key programmes/strategies supporting the economic priorities are as follows:

- Provincial Trade and Investment Promotion Strategy
- Mpumalanga Industrial Development Plan (Industrial Technology Parks – including Sabie Forestry Technology Park, Mpumalanga International Fresh Produce Market in the City of Mbombela and also 3 Agri-Hubs/Parks as well as the Nkomazi SEZ – agro-processing)
- Mpumalanga Forestry Development Plan
- Mpumalanga Green Economy Development Plan
- Integrated SMME Strategy – focus also on township economic development
- Mpumalanga Tourism Development Strategy

In terms of the Provincial demographics, the Mpumalanga population increased from 4.04 million 2011 to 5.14 million in 2022 according to Census 2022.

The five largest populations have a population number of more than 3 million and a share of almost 60% of the total Mpumalanga populations. These municipal areas are the City of Mbombela, Bushbuckridge, Nkomazi, Emalahleni and Thembisile Hani. Three of these areas are in the Nkomazi District. Municipal areas with high average annual population growth rates of more than 3% pa, include Nkomazi, Mkhondo, Victor Khanye, Bushbuckridge, Thembisile Hani and Dr Pixley Ka Isaka Seme. The population growth rates in urban areas such as Steve Tshwete, Emalahleni and Govan Mbeki were surprisingly lower than 1% pa.

According to Census 2022, females constitute 50.5% of the provincial population distribution and males 49.%. The youth cohort (0-34 years) made up 64.3% of the total population of the Province,

and the age group 60 years and older accounted for 8.1% according to Stats SA's Mid-Year Estimates

### **Key challenges and opportunities**

The higher population and household numbers will put pressure on basic service delivery, infrastructure, job and economic opportunities, especially in high population growth areas but at the same time these Municipalities will probably receive more funds in terms of the equitable share and other grants to address the pressures in terms of especially poor people.

In 2022, the world economy faced significant challenges, including soaring global inflation, rapid monetary tightening, recession risks, a major European conflict, supply chain disruptions, volatile commodity markets, and debates on globalization's future. Despite these hurdles, the global economy grew by 3.4%, slower than the strong 6.2% rebound in 2021 but still demonstrating resilience.

The global economic growth and prospects has an impact on the national and provincial economy, especially if our main trade partners like China is experiencing some economic challenges and relatively low growth. There are, however, opportunities for South Africa in Africa and in a BRICS context. Trade opportunities with India can be highlighted in this regard.

In Q2 2023, the South African economy expanded by 0.6% q-o-q which followed on the 0.4% q-o-q expansion recorded in Q1 2023. Over the last twelve quarters since the severe slump in Q2 2020, the South African economy has recorded nine quarters of expansion and three of decline. Despite the nine quarters of expansion, the national economy was only 0.8% larger in Q2 2023 than what it was in Q1 2020, before the COVID-19 pandemic.

Current 2023 growth estimates for South Africa ranges from 0.3% by the IMF, World Bank, and OECD to 0.9% by National Treasury. Together with the SARB forecast of 0.4%, this points to a sharp slowdown in economic growth in 2023 (Table B). The annual average growth rates for South Africa, from 2023 to 2027, is forecasted at 2.1%.

The South African economy is not doing well at the moment and the forecasted 2024 growth rate is low around 1%. There are challenges especially in the primary and secondary sector in industries such as mining and manufacturing. The growth and opportunities are very much in the services sector in industries such as trade and tourism, finance, government and personal services.

It is estimated that in 2022, Mpumalanga contributed some R512.4 billion in current prices to the GDP of South Africa. The 7.7% contribution in current prices placed Mpumalanga fourth among the nine provinces. Converted to constant 2015 prices, Mpumalanga's contribution was R299.5 billion in 2022. In 2022, Mpumalanga's contribution in constant 2015 prices were, however, the sixth largest among the nine provinces. Mpumalanga's contribution in constant 2015 prices decreased from 7.7% in 1996 to 6.5% in 2022. Gauteng (36.5%) was the main contributor to the national economy in 2022.

To achieve higher economic growth, the Province should attempt to nurture a spirit of innovation and entrepreneurship, in order to create more entrepreneurs, more enterprises and more jobs. Mpumalanga should thus attempt to develop niche enterprises and incorporate new technology

and processes, that can take the Provincial economy forward. This can be accomplished by empowering the citizens of the Province to participate in a modern economy by addressing the skills shortage that is prevalent in the economy.

***Broad Sectoral Observations including challenges and opportunities***

The following broad sectoral observations can be highlighted:

- Importance of agriculture as a champion industry and agro-processing. High labour intensity industry. Importance of commercial farmers, but also opportunities for small scale farming. The critical importance of the operationalization of the MIFPM (Mpumalanga International Fresh Produce Market).
- The importance of an energy mix for the country. The increasing importance of renewable energy. Opportunities pointed out at the Provincial Energy Summit, including Emalahleni as a Renewable Energy Hub.
- Renewable energy will have an impact on the coal mining industry. But, still some good export opportunities for the coal mining industry (especially short and medium term) according to research. Infrastructural challenges however in terms of transport and ports.
- Industrialization crucial, but a concern from an economic and employment growth point of view. The danger of jobless growth. The importance of the implementation of the MIDP (Mpumalanga Industrial Development Plan).

Concern about the struggling construction industry the last couple of years. The critical importance of provincial infrastructure projects and the reviewed Mpumalanga Infrastructure Masterplan to guide the province. Job creation in Q2 2023 very good news.

The trade industry a very important industry, especially from a tourism and informal sector point of view. Some good recovery in the province according to the 2022 growth and labour data. Very important employment industry, which is highly labour intensive.

Huge impact of Covid on transport industry. Some good economic recovery in 2021/22, but not where it should be in terms of job creation.

Finance a champion industry in Mpumalanga in the past in terms of economic growth and job creation. Good recovery in 2021/2, but not always in terms of job creation. Some good job gains in 2022 and especially in Q3 of 2022. The latest job losses in Q2 of 2023 disappointing. Role of restructuring, 4IR factors etc.

Community services (government and personal services) influenced by Covid and still job losses in 2021. Good recovery (especially personal services) in 2022 with a lot of job gains in 2022, especially the first part of 2022. Government is dominating this industry. Important employer.

Private households as employment industry (domestic workers) – concern about the job losses in the first part of 2022. Some recovery in Q4 & Q1. Important industry to put food on the table for poor households.

### **Tourism Sector**

In 2022 the global tourism industry has shown signs of recovery from COVID-19 impact with international arrivals reaching 66% of the pre-pandemic levels and the first seven months of 2023 the levels have reached 87%.

International tourists in South Africa reached 56% of 2019 levels and in the first seven months of 2023 it improved further to reach 81% of the comparative 2019 levels.

In 2022, Mpumalanga recorded a share of 18.3% of South Africa's foreign arrivals, the second highest number of foreign arrivals among the provinces after Gauteng that recorded 35.5%. Mpumalanga's share increased between 2015 and 2022, however, the 2022 foreign arrival numbers were only 69.1% of the pre-pandemic level of 2019.

The largest share of foreign arrivals to Mpumalanga originated mainly from Mozambique (65.0%), eSwatini (12.6%) and USA (4.0%). In 2022, the average total foreign direct spending (TFDS) by tourist in Mpumalanga was the highest among tourists from the Americas with R30 860 per tourist. TFDS in Mpumalanga was approximately R5.2 billion or 8.7% of TFDS in South Africa.

In 2022, international tourists spent some 9 million bed nights in Mpumalanga, which was equal to 11.7% of total bed nights in South Africa and the fourth largest share. The average length of stay by foreign tourists in Mpumalanga was 7.8 days, which was the seventh longest/third shortest among the provinces.

Mpumalanga was the seventh most frequented destination province with a 6.8% share of day trips in 2022. In 2022, Mpumalanga (10.1%) was the sixth most frequented destination province with respect to domestic overnight trips.

According to simulations, tourism's direct contribution of Mpumalanga's GDP in 2022 ranges from 2.3% to 3.6% depending on the underlying assumption. Mpumalanga's tourism employment contribution (direct) in 2022 ranges from 3.4% to 4.6% depending on the underlying assumptions.

Overall, the Department will utilise its strategic position to influence the economic direction of the Province by ensuring that strategic initiatives are supported for the maximum benefit of the people of Mpumalanga.

The Revised Medium Term Strategic Framework (MTSF) for 2019-2024 articulates the vision of an integrated economic system that must be pursued by all.

Aligned to the Revised Medium-Term Strategic Framework (MTSF), the Mpumalanga Provincial Five-Year Plan (2019 – 2024) includes the following seven (7) National Priorities as contained in the NDP Five-Year Implementation Plan (NDPIP) 2020-2025:

- Priority 1: A Capable, Ethical and Developmental State
- Priority 2: Economic Transformation and Job Creation
- Priority 3: Education, Skills and Health
- Priority 4: Consolidating Social Wage through Reliable and Basic Services
- Priority 5: Spatial Development, Human Settlements and Local Government
- Priority 6: Social Cohesion, Safer Communities

- Priority 7: A Better Africa and a Better World

As a result, department is charged with the responsibility of facilitating and coordinating the implementation of **Priority 2: Economic Transformation and Job Creation**, which is aligned to the impact and outcome approach.

Based on the mandate of the Department, the following targets, as contained within the Mpumalanga Provincial Five-Year Plan (2020 – 2025), will be the focus of all operations and activities within the Department to implement the NDPIP and the Provincial Priorities.

Development of the Nkomazi Special Economic Zone (SEZ). This will create an opportunity for investment and development of small businesses and co-operatives in the Nkomazi Local Municipality within Ehlanzeni District Municipality. In collaboration with the private sector, with a budget allocation of over R50 million the Department will continue to rollout the Post-Designation Implementation Plan of the Nkomazi SEZ, including the finalisation of the SEZ Strategy.

The support for the development of SMME's and Cooperatives through all government initiatives such as the Social Enterprise Development Programme (SEDP) will be done in a phased-in approach to build productive capacity to supply and manufacture construction materials for built environmental projects. It aims to empower and uplift SMME's in the construction and building industry to become successful, independent and sustainable through Built Environment initiatives. The Department will ensure that, working with SABS, our SMME's and cooperatives are certified to ascertain quality products supplied to various sectors.

To create an inclusive, competitive and sustainable tourism industry within the Province, the Department focuses on the following strategic interventions during the remainder MTEF period:

- Tourism product development;
- Tourism Destination Marketing and Promotion
- Implementation of the Rural and Township Tourism Development;
- Tourism Sector Transformation;
- Tourism Stakeholder Management and Development.

## **2. Review of the current financial year (2023/24)**

The Department continued in the quest to improve the quality of life of the people of the Province towards a thriving, inclusive economy and reduced poverty and inequality within the Province. Our strategic outcomes in the 2019-2024 MTSF period are; first, Inclusive, diversified and growing provincial economy. Second, Inclusive, competitive and sustainable tourism industry; and last, An ethical, well-coordinated, enabling and capable center of business excellence.

The Department overall budget expenditure is at 71%, with the Compensation of Employees at 71%, whereas the Goods and Services being at 78% and transfers to Entities at 76% during the period under review.

The department succeeded the implementation of the Workplace Skills Plan; verification of financial disclosures, and implementation of the Learnership Programme (with 10 learners attending classes). However, the unavailability of parties impeded the finalization of cases (a

grievance and a misconduct), and there were fewer incidents of non-compliance to the PMDS Policy regarding mid-year reviews and annual assessments.

We managed to reach a percentage value of procurement from designated groups, and compliance with the ICT Governance System and Framework. Only 97% creditors were paid on time, and we could not achieve the 25% decline in irregular expenditure as planned.

The department continued supporting small businesses with machinery, production inputs, tools of trade, equipment and chemical products in the areas of waste management, agro-processing, manufacturing (textile), spaza shops, car washes and hair salons. We continue supporting Black Empowered Businesses, Local Municipalities to participate in the Green Economy initiatives; Black Industrialist Programme, Mining Value Chain, Tourism Sector and others in the tyre industry; implement the Red Tape Reduction Strategy, functional LED Forums as well as facilitating an engagement of the Provincial B-BBEE Advisory Council.

For The Trade and Investment Promotion we produced 2 more market intelligence reports at the request of the Office of the Premier, as well as coordinating the participation of SMME's in the Manufacturing Indaba and the Global Exporter Passport Programme. Three unplanned engagements were also conducted with the DTIC and MEGA; another with SADC Business Council; as well as with Quattro-Canna Holdings.

Implementation of the Nkomazi SEZ and the industrial technology parks progressed well, as we develop critical economical infrastructure for manufacturing and agro-Processing within the Province. Progress on the Nkomazi SEZ implementation include monitoring on the implementation of the Nkomazi SEZ's SLA. The call for nominations to serve on the SEZ Board has been authorized. Legal opinion sought with State Law Advisors on the establishment of the Entity as a subsidiary of MEGA. Developed additional traffic study as well as alternative access route for consideration. Town Planner appointed for Rezoning and surveying  
Monitoring reports are available for the Mpumalanga Green Cluster Agency, the MOA with Eskom. The incubation programme (MSI and the Furntech), 15 Young people trained on wood and furniture manufacturing and MSI commenced with training of 10 learners in CNC production Process with 9(nine) learners remain in the training programme.

The department managed to reach 100% in resolving consumer cases as well as conducting consumer education and awareness campaigns. Compliance and oversight report on the MER produced. The review of the Mpumalanga Business Act still outstanding, which is dependent of the ongoing amendment of national legislation.

In diversifying tourism product offering and enhance visitor experience, the Railway & Heritage Tourism Project was facilitated in addition to the Tourism Train Project, the Barberton Makhonjwa Mountain World Heritage Site and TRILAND programme towards growing the Provincial tourism sector.

Lagging behind, however, are the feasibility study assessment on Mpumalanga 360 Degree Route Project and development of the Municipal Tourism Sector Plans due to process delays. We also succeeded to conduct and report on the planned Tourism Month activities as well as the Tourism Careers Expo. Implementation of the prioritized rural and township tourism initiatives through the SATOVITO lacks behind.

### 3. Outlook for the coming financial year (2024/25)

The Department continues to use the Problem and Solution Tree methodology to conduct an external environmental evaluation and analysis. This section provides an overview of the problem and solution trees that have identified the focal points that the Department needs to address to ensure economic growth is sustained.

We continue to contribute in the achievement of an Inclusive Green Economy, mining industry, and a diversified and growing manufacturing sector through Enterprise Development and the Empowerment of Previously disadvantaged communities. This is to ensure economic inclusivity and to address the triple challenges of inequality, poverty and unemployment in the Province. Our planned performance in relation to the programmes output is that, Women and youth are being prioritised through the support of township and rural economy businesses such as small scale bakeries and confectionaries, auto-body repairs and mechanics, car washes, clothing leather and textiles, personal care such as hair salon and beauty therapists, spaza-shops, shisanyama and cooked foods.

The Department will be focusing on increasing the number of participation of black-owned companies, including women, youth and people with disabilities, in the key sectors of manufacturing, green-economy and Tourism. Given the limited resources available, the focus is given on ensuring that black entrepreneurs participate meaningfully in the mainstream of the economy by increasing the number of black manufacturing businesses benefiting from the Black Industrialist Programme (BIP). We will contribute to the revitalization of township and rural businesses by providing support to tyre fitment centers based in rural areas and townships thereby linking them with access to credible tyre suppliers, access to credit facilities as well as branding for their outlets.

We continue to be guided by the Mpumalanga Industrial Development Plan (MIDP, of which, in essence, seeks to translate the strategic goals of the Mpumalanga Economic Growth and Development Path (MEGDP) framework into reality. The MIDP asserts that, if we are to grow the provincial economy and create the much-needed job opportunities for the of Mpumalanga, re-industrialization would be of paramount importance to pursue. In a nutshell, over the medium terms seeks to realize the strategic objectives of the MIDP. There are also sectoral policies that are geared towards supporting the objectives of the MIDP, for example, the Mpumalanga Trade and Investment Promotion Strategy, Mpumalanga Small Business Development Strategy, Mpumalanga Green Economy Development Plan, Mpumalanga Economic Reconstruction and Recovery Plan (MEERP), etc. Therefore, as the Department, the 2024-25 Medium Term Strategic Framework captures our clear intentions in terms of the realization of strategic goals expressed in both the National Development Plan (NDP) and the MEGDP.

The department will continue to prioritize the high impact projects prioritized in the MIDP. There are three high impact projects that the programme continues to support their implementation processes, namely, the Nkomazi SEZ in Komatipoort; Petrol-Chemical Industrial Technology Park in Govan Mbeki and the Energy SEZ around Emalahleni and Steve Tshwete municipalities. Overall, the high impact projects are aimed at facilitating and coordinating the implementation of these projects because their impact on economic growth and job creation is immense. Among these projects, we will also prioritize the issue of energy security. The understanding is that energy

security is key in terms of driving the re-industrialization programme. Of critical importance, the prioritized projects will not only contribute towards economic growth and job creation but also create more opportunities for small businesses, particularly for the youth and women enterprises.

Since the Province has a resource-based manufacturing industry, the following interventions will contribute towards creating a knowledge-based manufacturing industry within the province.

- Establishment of Agri-hubs and Special Economic Zones (SEZ)
- Implement a master plan that ensures a comprehensive manufacturing support base of the SMME'S in the value chain
- Leverage Foreign Direct Investments (FDI)
- Roll out of relevant skills development programmes
- Implement Mpumalanga Industrial Development Plan (5 key projects identified)
- Development and implementation of incentive schemes
- Explore and develop appropriate low cost renewable energy sources
- Review non-essential SABS standards to assist compliance for local SMME manufacturing operations
- Revitalisation of the township and rural economy
- Directly link government procurement to rural and township economies

The Department and its Agency Mpumalanga Tourism and Parks Agency (MTPA) will play a more dominant role in coordinating tourism related activities within the province to ensure that aligned and integrated tourism development within the province takes place. Therefore, the following interventions will contribute towards addressing the problem of uncoordinated tourism development:

- Embark on an education and awareness campaign to lobby support of impacting departments to leverage/influence and persuade the aligned flow of resources across three spheres of government
- Amend enabling legislation to secure the participation of key stakeholders in sharing of information and implementation of identified interventions and clarify roles and responsibilities
- Prioritisation and provisioning of adequate funding for tourism development
- Implementation of township and rural tourism initiatives

The department will also address the problem of fragmented planning, uncoordinated implementation and poor work ethic by implementing the following interventions:

- Lifting the moratorium on appointments
- Decentralisation of services
- Human capital development through workforce reskilling and upskilling
- Integrated Planning approach internal to the Department and with SOEs and stakeholders

#### **4. Reprioritisation**

The department has reprioritised funds within its baseline to cater for the revised recruitment strategy in the 2024/25 financial year and also ensured that contractual obligation is adequately budgeted for over the MTEF.

## 5. Procurement

The Procurement Plan will be developed for all projects estimated at a total cost that is above R1 000 000, this will be done in time for submission to Provincial Treasury.

The following procurement is planned over the MTEF in respect of the Nkomazi SEZ:

- 2024/2025 - Procurement of final detailed design and bill of quantities for internal services, external bulk roads and storm water, external bulk water, external bulk sewerage, internal and external electrical services.
- 2025/2026 – Development of the required bulk and internal services (Phase 0)
- 2026/2027 - Commencement of works for phase 1 of the Nkomazi SEZ development

## 7. Payment summary

### 7.1. Key assumptions

The department will continue to have the necessary capacity to deliver on the planned programmes (both financial and human resource).

The economy will be stable and make adequate provision for having seed capital to enable the department to grow the economy through involving the private sector.

The department applied the CPI for 2024/25 and 2026/27 financial year for goods and services.

### 1. Overview

#### Vision

“Accelerating the delivery of quality education and skills for a changing world”

#### Mission

Mpumalanga Department of Education commits to working together with stakeholders to ensure effective teaching and learning through pro-active and effective communication, and good governance utilising tools of the fourth industrial revolution to create responsive public servants.

#### Strategic Objectives

The core business of the Department is the facilitation of the curriculum. In order to facilitate the implementation of CAPS, the Department has developed an effective school management strategy (self-managing schools), this strategy will be reviewed in line with the new MTSF. The Department will ensure development of the following strategies to ensure effective implementation of programmes:

- Development of Provincial Skills Master Plan – the purpose of the strategy is to assist the Province to strategically prioritise its focus and interventions in an already complex provincial human resource supply, demand and development environment.
- ECD Migration – to enhance the provision of ECD services
- Infrastructure alternative delivery model
- Integrated School Safety Strategy – to improve the safety and security of schools

#### Core functions and responsibilities

Since 2001, the Department has been shifting its focus from establishing broad policy and governance structures and stabilisation of the education system, to improving access, quality and equity. Recent policy pronouncements from the Presidential State of the Nation Address point to the centrality of Education in driving an accelerated and shared economic growth. 2020/2021 financial year is the third year of 5 Year Cycle 2020 – 2025 whereby the focus will be on implementing the National Development Plan through the priorities as outlined in the Medium-Term Strategic Framework 2019-2024 of Government.

To achieve the outcome of improved quality of basic education, there will be a focus on improving the quality of teaching so that results improve, as measured by internationally grades over time. In order to achieve this, we will be providing all schools with appropriate learner and teacher support materials such as lesson plans, workbooks and textbooks, to ensure proper coverage of

the curriculum. Curriculum coverage and the utilisation of these resources will be closely monitored as this is part of the non-negotiable for the sector.

The following activities / functions require streamlining for maximum benefit of the system:

- Monitoring of schools
- Training of teachers and officials
- Resourcing of schools
- More often committees replace individual responsibilities and accountability.
- HR development – is it really addressing and responding system requirements?

A thorough analysis of the Department needs to be undertaken in order to identify overlaps, including gaps. Need to streamline functions / roles and responsibilities in order to eliminate duplications and strengthen accountability.

### **Overview of the main services that the Department intends to deliver**

Legislative mandate

South African Schools Act No 84 of 1966 (SASA)

Public Service Act of 1994 (PSA)

Public Finance Management Act, Act 1 of 1999 (PFMA)

National Education Policy Framework Act No 5 of 2000 (PPPFA)

South African Quality Authority Act No 58 of 1995 (SAQA)

and all other related legislation

External activities and other events relevant to budget decisions

### **Aligning Departmental budgets to achieve government's prescribed outcomes**

The core mandate of the Department is to provide quality basic education and training to all learners of school going age in Mpumalanga. The 1996 Constitution of the Republic of South Africa makes basic education a basic right. In the year 2010, as part of a major overhaul of government's planning systems, improving the quality of basic education was declared 'Outcome 1' of a total of 12 outcomes representing the top priorities for government. In the MTSF 2019-2024 the number of outcomes has been increased to 14 and the Department is still responsible for Outcome 1 and 5.

It is widely recognised that the country's schooling system performs well below its potential and that improving basic education outcomes is a prerequisite for the country's long-range development goals. The need is straightforward as far as the basic education sector is concerned. Our children and youths need to be better prepared by their schools to read, write, think critically and solve numerical problems. These skills are the foundations on which further studies, job satisfaction, productivity and meaningful citizenship are based.

As a response to these challenges, the Education Sector has developed the Schooling 2030 and Action Plan 2014 to 2019, which clearly outlines the areas to be prioritised for the learners to attain quality learning outcomes.

Improvement of Literacy and Numeracy in all exit grades, i.e. 3, 6, and 9 is critical for us to ensure that our pass rates increase at Grade 12 level and beyond.

All Provincial Education Departments in the country are responsible in the main for Outcome 1: Quality Basic Education. In 2010 the Executive Council in Mpumalanga Province centralised the

HRD functions including the management of bursaries to the MDoE. As a result of this, the MDoE is obligated to play a role in the delivery of some sub-outcomes i.e. sub-outcome 3 and 7 of Outcome 5: "A skilled and capable workforce to support an inclusive growth path". The challenge with this state of affairs is that the MDoE does not have a direct vehicle to implement the deliverables of Outcome 5 as it does no longer have a concurrent function with FET Colleges. The only vehicle at the disposal of the Department to deliver on some of the sub-outcomes is through formation of strategic partnerships with various stakeholders and the Mpumalanga Regional Training Trust.

## **2. Review of the current financial year (2023/24)**

The Department has a revised allocation of R25.306 billion for the 2023/24 financial year. There was an increase of about 4.4 per cent from the 2022/23 financial year.

During this financial year the Department also had to pay all accruals amounting to R266.939 million that could not be paid in the 2022/23 financial year because of the delay in the implementation of infrastructure projects and invoices that could not be paid at year end as the expenditure related to the end of March.

The Department continues to experience challenges with infrastructure delivery. The main reason for this challenge is that the scope of the current infrastructure backlog exceeds present and future budget allocations. Unpredictable migration patterns resulting in urban sprawl and the growth of informal settlements have had a net effect of under-utilisation of existing infrastructure in certain areas such as farming communities and overcrowding in other areas. This has forced the Department to utilise mobile classrooms to alleviate the challenge.

During the year under review the Department continued with its commitment of transforming the schooling systems and the following are some of the significant achievements to note:

- Professionalised the ECD sector by enrolling ECD practitioners with Institutions of Higher Learning to towards an NQF ECD Level 6 qualification. Furthermore, practitioners who completed their studies were absorbed into Post Level 1 teacher posts. This is to ensure that there is quality teaching in our grade R classes.
- Provided targeted teacher training focusing on pedagogical practice in the classroom and theories of leaning.
- Obtained 76.95% pass rate in the 2023/24 Grade 12 Results.
- Restored dignity of most learners by accelerating its programme of improving school sanitations facilities.
- Worked with a range of stakeholders to improve reading proficiency in our schools and to ensure that our learners can compete with their counterparts in other parts of the world.
- Implemented the government pro poor policies targeting poor learners and ensured that over 85% of our learners are benefiting from the National School Nutrition Programme (NSNP), No-fee School Policy and 60 629 learners benefited from scholar transport programme.
- Provided support to School Governing Bodies, conducted on going training on their roles and responsibilities and began a process of capacity building programme for them.
- Provided resources to schools serving for learners with special educational needs as set out in Goal 26 of the Action plan 2014 to 2019 towards schooling 2030.
- Provided textbooks and workbooks to schools to improve the teaching and learning process.

- Provided out of school youth with post school funding to enable them to pursue studies in critical and scarce skills as stated in the HRDS and MEGDP.
- Placed graduates on internship and learnership programmes to arm the youth in the Province with competitive advantage when entering the job market. The list goes on.

The only vehicle at the disposal of the Department to deliver on some of the sub-outcomes is through formation of strategic partnerships with various stakeholders and the Mpumalanga Regional Training Trust.

### 3. Outlook for the coming financial year (2024/25)

The Department has been allocated a budget of R26.369 billion for the 2024/25 financial year.

- *An increase in programme 1: Administration* is mainly due to the operational costs budget which has been cut.
- *The increase in Programme 2: Public Ordinary Schools* is because of the earmarked funding for Mkhondo boarding school (operationalisation), school furniture, e- learning and section 21 transfers which the department has received as an additional funding.
- *Programme 3: Independent Schools Subsidies* shows a minimal increase to the allocation over the MTEF period, the Department could not fund the independent schools at the national norms and standards for school funding due to financial constraints.
- *Programme 4: Public Special Schools* shows an increase over the MTEF period though.
- *Programme 5: Early Childhood Development* has increased allocation due to ECD grant not getting a cut like the other grants.
- *Programme 6: Infrastructure Development* has shown an increase due earmarked funding the department received on mobile classroom, construction of school for the deaf and the infrastructure portion of the ECD grant which was moved to the programme.
- *Programme 7: Examinations and Related Services* has decreased due to Presidential Youth initiative no longer being there.

### 4. Reprioritization

For the 2024/25 financial year, the department has reprioritised its budget as follows:-  
 Programme 1: Administration increased with R298.490 million, the increase relates to the compensation of employees for the payment of cost-of-living adjustments. Programme 2: Public Ordinary school decreased with R512.576 million due to the fiscal reductions suffered by the Department over the 2024 MTEF. Programme 3: Independent Schools Subsidies decreased by R2 million with a view of accommodating the fiscal reductions suffered by the Department over the 2024 MTEF.

Programme 4: Public Special School increased with R9.538 million, with the view of improving the quality of teaching and learning in Special Schools. Programme 5: Early Childhood Development increased with R72.898 million. The increase relates to compensation of Employees for the payment of the cost-of-living adjustment as well as the translation of Grade R Practitioners into the mainstream. Programme 6: Infrastructure Development increased with 7.380 due to the additional budget allocated for mobile classrooms. Programme 7: Examination and Education Related services increased with R126.270 million due the expenditure that relates to the administration of Examinations.

## 5. Procurement

The Department will do the following major procurement:

- Supply of relevant MST equipment through the MST grant.
- National School Nutrition Programme (NSNP) – none CRDP areas
- Food supply to boarding schools.

Table 7.1 above gives the sources of funding used for Vote 07 over the seven-year period 2020/21 to 2026/27. The table also compares actual and budgeted receipts against actual and budgeted payments. As illustrated, the Department will receive a budget allocation of R26.369 billion in 2024/25. Included in this amount are conditional grants totalling to more than R2.375 billion. The allocation of own revenue has increased to R307 million for the 2024/25 financial year.

The funding for conditional grants for the 2024/25, 2025/26 and 2026/27 are R2.478 billion, R2.489 billion and R2.606 billion respectively. The Department experienced an average annual nominal growth from 2020/21 until 2023/24 on average year on year of 3.7 per cent against an average annual nominal increase in budgets from 2023/24 until 2026/27 of only on average year on year of 4.2 per cent.

Table 7.2 above illustrate the revenue collected by the Department over a seven-year period. Details of these receipts are presented in the Annexure to Vote 07 – Education. The Department's scope of increasing own revenue is very limited. The major source of own revenue relates to the interest received on the bank account, commission claimed on administering of stop orders and the collection of debts owed to the Department. The Department has put in place a strategy to enhance the collection of own revenue and has been approved by Provincial Treasury.

### 6.3. Donor funding.

The Department does not have donor funding

## 7. Payment summary

This section summarises payments and budgeted estimates for the vote in terms of programmes and economic classification in the new economic reporting format. Details according to economic classification are presented in Annexure to Vote 07 – Education.

### 7.1 Key assumptions

- Improving performance of learners across all Grades
- Improved Grade R and planning for extension of ECD
- Funding of full service schools
- Funding of the boarding schools

Table 7.4 above illustrates payments and budget trends for the Department per economic classification. Compensation of employee's takes the biggest share of the total Departmental budget, 80.28 per cent after the deduction of the conditional grants for the 2024 MTEF period. Transfers and subsidies to non-profit institutions cater mainly for payments of subsidies to Section 21- and no-fee-schools, independent schools, public special schools and ECD centres. However, the Department is unable to fund this at the correct level.

### 7.4. Infrastructure payments

#### 7.4.1 Departmental infrastructure payments

The infrastructure budget split will still provide a distinction between school category and school type e.g. Primary versus Secondary as well as Public Ordinary Schools, Special Schools or ECD facilities. The Department intends to eradicate pit latrines and accelerating the maintenance of existing school infrastructure. The DPWR&T who is the implementing agent of the Department will see to it that the infrastructure plans are implemented as agreed.

The 2024 MTEF allocation for Programme 1 is R1.561 billion, R1.407 billion and R1.471 billion. The budget reflects a projected increase of 11.2 per cent, decrease of 9.9 per cent and increase of 4.6 per cent respectively over the 2024 MTEF. The programme renders administrative support in the provision of quality education that will in the long run try to minimise the impact of the triple challenges of poverty, unemployment and inequality.

The financial tables above reflect payments and budgeted estimates relating to this programme for the period 2020/2021 to 2026/2027. The largest portion of the budget under this programme is allocated to the sub-programme: Public Primary Schools, because the number of institutions and learners in these schools exceeds those in Public Secondary Schools. This programme includes the budget for educators, their salaries, and development needs. The consistent growth in spending and estimates under Programme 2, particularly in the category of compensation of employees, can be attributed to costs relating to improvements in condition of service, the impact of various policy changes within the education sector, national priorities and the implementation of OSD 2.

Public Ordinary School Education spending increase slightly over the 2024 MTEF period and the payment of educator salaries continues to be the major cost driving item in this programme. It must be noted that the Department has not created additional educators' posts because of the financial pressure being experienced. Further increases in compensation of employees over the 2024 MTEF can be attributed to the additional funding received to compensate for the carry-through effect of the higher anticipated wage settlements and payment of notch progression. The Department will concentrate in the 2024 MTEF on literacy and numeracy in Grades 3, 6 and 9, the matriculation improvement.

programme in dysfunctional schools and the maths and science improvement programme. The Department is always striving to comply with the norms and standards through the transfers to Section 21 and No Fee Schools but could not continue with this trend because of the budget cut.

Furthermore, the Department endeavours linking all primary schools to the Maths and Science Academy to improve the learner performance in grade 3, 6 and 9; as well as paying attention to dysfunctional schools which brought down the provincial performance. Training and monitoring of School Management Teams in these schools are critical to address content gaps. The issue of displaced educators will be addressed to ensure that they are adequately utilized. The strengthened co-operation of and improved communication with sister Departments will pave the

way for fighting crime and violence in schools. Implementation of the National Schools Nutrition Programme will be closely monitored. Measures will be put in place to ensure that the School Nutrition Programme complies fully with the grant framework in terms of coverage, cost, menu, targeted learners, etc.

The Department will not be able to fund all quintiles in accordance with the national norms, and this underfunding will be continued in the MTEF because of the budgetary constraints.

Refer to Departmental Annual Performance Plan for 2024/25

## 8.3. Programme 3: Independent Schools Subsidies

### 8.3.1. Description and objectives

The objective of this programme to support Independent Schools in accordance with the SASA. From funds appropriated by the provincial legislature, a subsidy is granted to an independent school that is eligible for subsidy according to the National Norms and Standard for School Funding (NNSSF).

Subsidies are granted in relation to the socio-economic circumstances of an eligible school's clientele. Subsidy allocation, therefore, must show preference for independent schools that are well managed, provide good education, serve poor communities and individuals, and are not operated for profit. These schools are evaluated and monitored by the Department, according to objectives, transparent and verifiable criteria. Independent schools must be managed subject to SASA and any applicable provincial law. To ensure compliance with provincial Department's requirement regarding registration, withdrawal of registration and subsidies to independent schools, provincial regulations were published for public comments, and after consideration of public comments, the final regulations were published.

The MDE supports 18 special schools in terms of curriculum and overall school management. Of these, 15 schools admit learners with intellectual disabilities who require moderate to high levels of support within a better controlled environment and 3 Child and Youth Care Centres (CYCC) admit learners who are in need of care and protection (in line with the Children's Act) and also those that are in conflict with the law (in line with the CJA). In addition, Vaalrivier had been converted to a special school for learners with moderate intellectual disabilities, as a mitigation strategy for space challenges in special schools. The schools follow the National Curriculum Statement (NCS), including technical subjects. The Grades offered range from Grades 1 - 9, Grades 1 - 10 and Grade 8 - 12.

It has to be noted that all 3 schools have therapeutic intervention programmes conducted by child and youth care workers after school, during weekends and holidays.

Furthermore, of the 15 schools, 9 receiving high level support, there are 6 schools that accommodate learners who have disabilities but who, require moderate level of support.

The schools adapted the NCS up to Grade 10 and offer pre-vocational skills.

The other schools that cater for severe disabilities only offer adapted curriculum up to Grade 7. Tables 7.14 and 7.15 above reflect payments and budgeted estimates relating to this programme for the period 2020/21 to 2026/27.

The financial tables above reflect payments and budgeted estimates relating to this programme for the period 2020/21 to 2026/27.

The emphasis in ECD should be on improving quality in ECD provisioning to professionalize the ECD sector. Grade R phase is being implemented and managed with varying qualifications and less favourable conditions of service. The concept document drafted by DBE, state qualifying practitioners outside the Public Sector may be considered for the Foundation Phase teaching posts. Creation of educator posts should be seen within the context of making Grade R compulsory in 2019.

Grade R teachers need to enjoy the same status as the teachers in the mainstream. There is a career path plan to encourage all under qualified and/or unqualified practitioners to upgrade their qualification (in accordance with the government gazette on minimum qualifications requirements) before they can be appointed and enjoy same benefits of a qualified REQV 13 educator.

There are budget pressures pertaining to the effective implementation of the ECDI in the MTEF. The ECDI is meant to assist in professionalising the ECD sector by equipping 0-4 practitioners with skills and knowledge in Child Care.

There are also budget pressures pertaining to the provision of indoor and outdoor play based resources to Pre-Grade R centres and schools. The implication of LTSM budget pressures impacts adversely on learners' school readiness and their social, physical and intellectual development is impaired contributing to poor performance in the Foundation Phase

## 8.8. Programme 6: Infrastructure Development

### 8.6.1 Description and objectives

The objective of this programme is to provide and maintain infrastructure facilities in the Department. The Department has started with the building of some boarding schools which will go a long way to address the challenges of small and farm schools.

- Manage the implementation of programmes and strategies that lead to the development and empowerment of communities and contractors. This includes the provincial management and co-ordination of the Expanded Public Works Programme.

### **Legislative mandate**

The mandates of the Department of Public Works, Roads and Transport are derived from the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996). In giving effect to these mandates, the Department is guided by the commitment to “improve the quality of life of all citizens and free the potential of each person”.

The Department’s key legislative mandates are embodied in the following pieces of legislation:

- Construction Industry Development Board Act. (Act 38 of 2000)
- Cross-Border Road Transport Act, (Act 4 of 1998)
- Expropriation Act, 1975 (Act 63 of 1975)
- Fencing Act, 1963 (Act 31 of 1963)
- Infrastructure Development Act, 2014 (Act 23 of 2014)
- Government Immovable Asset Management Act, (Act 19 of 2007)
- Mpumalanga Road Act, (Act 1 of 2008)
- Mpumalanga Road Traffic Act (Act 4 of 1998)
- National Archives and Records Services Act, (Act No. 43 of 1996)
- National Building Regulations and Building Standards Act, 1977 (Act 103, of 1997)
- National Environment Management Act, 1998 (Act 107 of 1998)
- National Land Transport Act, (Act 5 of 2009)
- National Road Traffic Act, 1996 (Act 93 of 1996)
- National Veld and Forest Fire Act, (Act 101 of 1998)
- Preferential Procurement Policy Framework Act, (Act 5 of 2000)
- Promotion of Access to Information Act, (Act No. 2 of 2000)
- Promotion of Administrative Justice Act, (Act No. 3 of 2000)
- Public Finance Management Act, (Act 1 of 1999)
- Public Service Act, (Act 103 of 1994)
- Road Safety Act, (Act 9 of 1972)

Aligning departmental budgets to achieve government’s prescribed outcomes

The mandate of the Department of Public Works, Roads and Transport is stipulated in schedule 4 and 5 of the Constitution and read with other legislations.

The current Medium Term Strategic Framework (MTSF) is driven from the following Seven (7) Priorities derived from the Electoral Mandate and the State of the Nation Address (SONA).

- **Priority 1:** A Capable, Ethical and Developmental State
- **Priority 2:** Economic Transformation and Job Creation
- **Priority 3:** Education, Skills and Health
- **Priority 4:** Consolidating the Social Wage through Reliable and Quality Basic Services
- **Priority 5:** Spatial Integration, Human Settlements and Local Government

- **Priority 6:** Social Cohesion and Safe Communities
- **Priority 7:** A better Africa and World

DPWRT is aligned to **Priority 2** and contributes to the other priorities. The Department further act as an implementing agent for the infrastructure as part of **Priority 3, 4 and 6** for the following client departments:

- Department of Education
- Department of Health
- Department of Social Development
- Department of Culture, Sport and Recreation
- Mpumalanga Provincial Legislature

The Department of Education's mandate is to provide quality education and training towards a better life for all. Department of Public Works Roads and transport will provide technical expertise to the Department of Education as it invests in school buildings and maintenance, to address backlogs, replace inappropriate buildings and meet minimum standards for sanitation and school facilities. This will improve learning opportunities within accessible radius to schooling facilities and in conformance to norms and standards.

The Department of Health continues with the endeavour to provide quality health care through its Hospital Improvement Plan. Most health facilities are located near populated areas and people living in outlying areas (rural and farm) must make use of transport to access these facilities. Department of Public Works, Roads and Transport will continue to support the Department of Health to implement infrastructure projects that will improve accessibility to health care services.

Infrastructure investment amongst others focuses not only on maximizing the economic benefits derived from its construction but further achieving social objectives to activate and support local economies. A large number of emerging enterprises will benefit from the Infrastructure sector for skills and business development.

The population increase has an impact on the social welfare. It has led to a need to improve and enhance social infrastructure across all spheres including Social Development; Culture, Sport and Recreation. In 2024/25 the Department will continue with planning, design and construction of strategic capital infrastructure projects of the client departments.

To ensure that the Provincial Legislature pursue its mandate of law making, oversight and public participation, the Department will continue with the construction of the Mpumalanga Parliamentary Village.

## **2. Review of the current financial year (2023/24)**

By the end of December 2023, the Department achieved 18 (63%) of the 3 planned targets for the 2023/24 financial year. Acceleration plans and remedial actions were identified to address challenges in terms of achieving the planned targets by the end of March 2024. These plans will be strictly monitored to improve performance for the remaining quarter.

Under Administration, the Department managed to achieve all four (80%) of its planned targets which include signing of performance agreements, appointment of learners, revenue collection and payment of invoices received within 30 days. However, only 650 of the 700 learners were enrolled since some learners did not comply too all the requirements needed to participate in the Programme.

Programme 2, Public Works Infrastructure achieved 3 (75%) of the 4 planned targets with 96% of capital infrastructure completed. A total of 164 building infrastructure designs were completed, 116 projects were completed which includes 90 for Department of Education, 3 for Department of Health, 3 for Department of Social Development and 15 Libraries for Department of Culture Sport and Recreation. The Department further completed 3 projects for the High-Altitude Training Centre and 2 at the Kwamhlanga Government Complex. The Department continues to experience site related challenges including community unrest, payment delays and poor performing contractors. There are ongoing engagements with these service providers to fast track the projects and the address site related challenges. The utilisation inspections on office accommodation and condition assessment of state-owned buildings are ongoing and performed as planned.

The Transport Infrastructure Programme only completed 40% (4 of 10) planned targets for the 9 months period. Targets that were not achieve relates to the upgrading of roads from gravel to surface (92%), construction of Integrated Rural Mobility and Access (IRMA) projects (1 of 3 completed), rehabilitation of surfaced roads (91%) reseal of surfaced roads (56%) and blading of gravel roads (63%). The construction of bridges under the Welisive Programme is behind schedule due to delays in assessments and verification of sites by the National Department of Public Works & Infrastructure and the South African National Defence Force (SANDF). Sites have since been identified 9 of 16 projects have since commenced. All projects are strictly monitored to fast-track performance and achieve targets by year end.

The Transport Operations Programme managed to achieve 5 (83%) of the 6 planned targets which include the subsidisation of kilometers for public transport, conduction of roadside checks, Provincial Regulating Entity (PRE) hearings and monitoring of scholar transport routes. The target that was not achieved relates to trips subsidised (99.7%). This target was not achieved due to community unrest.

Progress was made with creation of working opportunities under the Expanded Public Works Programme (EPWP), with 2 of the 5 planned targets achieved (40%). The targets for creation of work opportunities in total for DPWRT, work for youth and people with disabilities remains a challenge. Programmes must be re-structured to be more inclusive to designated groups. A total of 5 923 work opportunities were created by DPWRT and 26 331 in the Province, including 17 045 women, 11 463 youth and 149 people with disabilities.

### **3. Outlook for the coming financial year (2024/25)**

2024/25 is the last financial year for the current Medium Term Strategic Framework (MTSF) period. This also means that 2024/2025 concludes the current Strategic Plan (2020/21-

2024/25). As such it is crucial to reflect on how far we are in the implementation of government priorities and calls for close monitoring of plan and acceleration plans to achieve the five-year targets. The acceleration will be done under difficult circumstances as the country continues to be characterised by uncertainties due to the energy crisis, which also contributes to the high cost of living and unemployment. In addition, the recent floods, especially in the eastern part of the province, have further deteriorated the condition of our public buildings and roads infrastructure. These uncertainties are going to shape how the limited resources are being invested by the Department in order to be responsive to the ever-changing environment. As a result the Department ensure that a Disaster Management Plan is approved in the 2024/25 financial year in line with the Disaster Management Act.

The Department has completed the Mpumalanga Infrastructure Master Plan (MIMP): 2060 but will be updated it to include the latest statistics from Census 2022. Departments, Municipalities and various stakeholders were consulted through a series of workshops in the finalization of the Plan. Further consultations with these stakeholders will take place once the document is finalized to include the Census updates. Long-term infrastructure plans must be developed by each entity to realise targets set in the MIMP: 2060, for economic growth and job creation in the Province. It is anticipated that MIMP will be approved in 2024/25.

The Department continues to be the key driver for the Medium-Term Strategic Framework (MTSF) priority number no 2 i.e. **economic growth and job creation**. This is done through interventions such as the Public Employment Programmes (e.g. EPWP, Siyatentela, Sakh'abakhi, NYS, NCDP, etc.), Internship and Learnership Programmes, Roads infrastructure programme, Social Enterprise Development Programme (SEDP), economic empowerment of designated groups (youth, women and people with disabilities) and the release of State land for developmental purposes, yet it also contributes to the other 6 MTSF priorities. As part of job creation massification the Department has taken a position to strengthen the Internship, Learnership, Siyatentela, National Youth Service (NYS), Sakh'akhakhi, National Contractor Development and Young Professional Programmes thus capacitating the youth and contributing to the reduction of unemployment within the Province.

Notable, the Department is responsible for approximately 13 868 kilometres of the provincial road infrastructure network that interconnects municipal areas, other provinces and neighbouring countries. The strategic importance of the provincial road network is mainly based on the following: (i) Mpumalanga generates almost 75% of the country's electricity hence the strategic importance of the coal haulage network to ensure energy security. (ii) Transport infrastructure plays a critical role in promoting tourism growth by allowing tourists to access and enjoy Mpumalanga's vast tourist attractions and (iii) Mpumalanga is one of South Africa's important agricultural regions and plays a key role in its export profile and is also an important lifeline for food security and (iv) Easy access to economic activities and social amenities.

The dire economic outlook will continue to make it difficult to sufficiently invest on our infrastructure hence the prioritisation process in the 2024/25 financial year will be based on the following:

- Contractual obligations including multi-year projects
- Priorities based on SONA/ SOPA pronouncements, emergencies (e.g. storm damage), and public participation programmes e.g. cabinet outreach programmes, IDPs, community consultations etc.
- Scientific Planning Tools (RAMS)
- Mpumalanga Infrastructure Master Plan (MIMP)
- Municipal Support

DPWRT's Transport Infrastructure Programme will utilize appropriated funds to promote mobility and accessibility, safe and affordable movement of people, goods and services through the delivery and maintenance of transport infrastructure that is sustainable, integrated and environmentally sensitive, and which supports and facilitates social empowerment and economic growth. However, the Department cannot underestimate the challenges brought by the country's energy crisis in the implementation of its infrastructure projects.

The province is participating in the **Welisizwe rural bridges programme**. The programme was introduced on 2023/24 financial year and is planned to run until 2025/26.

The programme aims to provide safe access to social amenities such as schools, clinics and places of work to areas affected by natural disasters through construction of Modular Steel Bridges. The South African Defense Force (SANDF) has been deployed into the province for the construction of the bridges. A Memorandum of Agreement (MOA) between National Department of Public Works and Infrastructure (DPWI) and the Mpumalanga Department of Public Works Roads and Transport (DPWRT) has been signed. The MOA deals with the roles and responsibilities of each stakeholder involved.

The Department will continue to participate in the intergovernmental relations structures as outlined in the Intergovernmental Relations Framework Act (2005). The District Development Model is a good example of the intergovernmental relations function at play.

The Department of Public Works, Roads and Transport sits at the heart of this plan as an implementing agent of catalytic infrastructure projects and coordinator of the Expanded Public Works Programme (EPWP). Significantly, the Department must implement this plan under very challenging local and global economic, geopolitical and social environment. The efficient and effective Department of Public Works, Roads and Transport is critical to ensure realisation of the socio-economic outcomes envisaged in the National Development Plan, Economic Recovery Plan and Annual Performance Plan.

The Department will continue to subsidise 154 routes and 831 271trips in 2024/25. The Department has adopted the Infrastructure Delivery Management System (IDMS) which is aimed at improving planning, budgeting, procurement, delivery, maintenance, operation, monitoring and evaluation of built infrastructure projects. However, adherence to the IDMS principles by client departments remains a challenge.

The Department will continue to seek out opportunities to build the economy by investing in transport infrastructure and addressing the infrastructure backlogs. The Department will further pursue partnerships with the private sector to stimulate economic development

through improved commercial access, involving mining houses in the delivery of roads infrastructure projects, and resolving overloading by cargo hauliers. The Department will continue to prioritise its strategic routes as well as tourism routes as an enabler for economic growth within the Province.

The Infrastructure Rural Mobility Access (IRMA) programme has continued to achieve the desired impact. The Department will construct 4 Integrated Rural Mobility and Access projects to ensure that rural communities have access to social and economic amenities. The Department has developed several documents which include the Provincial Freight Plan, Provincial Land Transport Framework, Provincial Transport Policy and Scholar Transport Policy in a quest to assist in the provision of an integrated transport system and infrastructure that promotes socio-economic development. The Department together with the national Department of Transport will continue to support District Municipalities with the development of the Integrated Public Transport Plans to promote sound transport planning. Further, the Department is going to continue to work with the taxi and bus industry as they are the main modes of transport within the Province

As a coordinating agent for Expanded Public Works Programme (EPWP), the Department is committed in ensuring that work opportunities are created throughout the Province in 2024/25 financial year. The Expanded Public Works Programme will continue to be significant in ensuring that work opportunities are created for the most disadvantaged communities thus contributing to the National Target.

#### **4. Reprioritisation**

The Department has reprioritized R261.1 million from payments of capital assets and R25.3 million from compensation of employees to cater for roads and building maintenance services in the department.

#### **5. Procurement**

The Department continues to ensure that there is always compliance monitoring and improving transparency and accountability in terms of supply chain management processes.

The delivery of an efficient, competitive and responsive economic infrastructure network remains the main outcome of the Department. In achieving that particular National outcome the Department will procure the following infrastructure projects for implementation during the 2024/25 financial year:

- Upgrade of Road D20 between R555 and olifant river lodge
- Upgrade of Road D2904 Ramokgaletsane to D2900 Senotlelo
- Upgrade of Road D3954 and D3958 between Casteel and Zoeknog
- Upgrade of Road D3960 and D4442 Ga-motibidi to Rainbow
- Upgrade of Road D3976 Mathibela phase 2
- Upgrade of Road D4382 Belfast and Justicia
- Continuation of assisting municipalities with pavement of municipal roads
- Rehabilitation of Road D1723 Emoyeni between D636 and P258/1

- Rehabilitation of Road P216/1 Embalenhle to Secunda
- Rehabilitation of Road P171/1 from P8/1 near Mashishing to D212 & D2630 towards Roosesenekal/ Sekhukhune (Phase1 & Phase 2)

The Department will further continue with the Presidential rural initiatives such as the construction of Bridges such as Welisizwe across all Mpumalanga Districts. The Department through the Public Works programme will continue with the upgrade of the Fire system at Riverside Government Complex in the 2024/2025 financial year.

The Department will continue to provide a balanced and equitable provincial government building infrastructure by promoting accessibility that is sustainable, integrated and environmentally sensitive which supports economic development and social empowerment.

Total revenue collection is projected to increase by R1.9 million from R22.6 million targeted in the 2023/24 financial year to R24.5 million in the 2024/25 financial year. Actual revenue collection varies from projection due to once-off performing items such as sale of capital assets. Interest earned on bank account is also a dependent on the amount in value in the bank account that the Department can keep at any given time.

The support programme of the department has decreased by R15 million from the budget of R358.4 million in the 2023/24 financial year to R343.2 million in the 2024/25 financial year. The decrease is as a result of the equitable share reduction.

The programme continues in strength to manage key offices such as the office of the MEC, HOD, Corporate Support, Financial Management, Government Motor Transport (GMT) and Departmental Strategy Services .

### 8.1.2 Service delivery measure

Refer to the Annual Performance Plan (APP) for 2024/25

## 8.2. Programme 2: Public Works Infrastructure

### 8.2.1 Description and Objective

The purpose of the programme is to provide a balanced and equitable provincial government building infrastructure by promoting accessibility that is sustainable, integrated and environmentally sensitive which supports economic development and social empowerment.

The overall baseline of the programme has decreased by R224 million from the budget of R1,146 billion in 2023/24 financial year to R922 million in the 2024/25 financial year. The decrease is mainly due to reductions in the allocation of some major capital projects which are expected to conclude in the current financial year, which is Mkhondo boarding school and the Mpumalanga Parliamentary Village.

The department will continue with its focus of addressing the backlog on building maintenance including Riverside Government Complex and other shared buildings, thereby fulfilling its mandate of improving the condition of the province's building infrastructure and settlement of property rates and taxes.

Transport Infrastructure's overall baseline has increased by R277 million, from the R2.487 billion in the 2023/24 financial year to 2.764 billion in the 2024/25 financial year. The increase is mainly due to the additional allocation on the Provincial Roads Maintenance Grant and the earmarked upgrades and addition projects such as Driekoppies bridge and Emalahleni civic bridge.

The programme continues to experience pressure due to high demand for equitable share funded projects such as upgrades of roads and bridges in rural communities. The flood damages also affecting the progress in terms of infrastructure delivery due to high maintenance demand.

The total budget allocation for the programme increased by R74 million to R1.452 billion in the 2024/25 financial year, from the main budget of R1.379 billion in the 2023/24 financial year. The increase is due to additional allocation for Scholar Transport and the appointment of 98 Traffic Officers in the 2024/2025 financial year. There are major contractual obligations such as scholar transport services under goods and services and the public transport subsidies under transfers and subsidies which administered by the programme. The programme is also responsible for public transport safety and compliance to ensure safety of commuters on public transport.

The Public Transport Operations Grant is essential to subsidise bus commuters in the Province. The grant funding is also supplemented by provincial equitable share portion of the subsidy. The programme also provides funding towards operationalization of the Mpumalanga Provincial Taxi Council (MPTC).

- Strengthen community based and private partnership with the South African Police Service to fight crime.
- To provide a safe road environment through the regulation of traffic flow on public roads, overload control, implementation of road safety campaigns as well as registration and licensing of vehicles and drivers.
- To coordinate the provision of security services in the province.

#### Legislative and other mandates

The following are some of the important legislative framework and policies that govern the operations and day-to-day administration of the Provincial Department of Community Safety, Security and Liaison in the context of Civilian Secretariat:

The Constitution of the Republic of South Africa Act, 101, 1996 Chapter 11 role of Provincial Government in policing as follows:

*Section 206 (2)* provides that the national policing policy may make provision for different policies in respect of different Provinces after taking into account the policing needs and priorities of these Provinces.

*Section 206 (3)* determines that each Province is entitled to:

- Monitor police conduct;
- Oversee the effectiveness and efficiency of the police service including receiving reports on the police service;
- Promote good relations between the police and the community;
- Assess the effectiveness of visible policing; and
- Liaise with the Cabinet member responsible for policing with respect to crime and policing in the Province.

*Section 206 (4)* further states that a provincial executive is responsible for policing functions vested in it by this chapter, assigned to it in terms of national legislation and allocated to it in the national policing policy.

*Schedule 4, Part a* (Republic of South Africa, act, 101, 1996) further confers functional areas of concurrent national and provincial legislative competence to which the department is responsible for transport regulation.

*Schedule 5, Part A*

### **Aligning departmental budget to achieve government's prescribed outcomes**

The Department in 2023/24 will be responding to priority 5 "Safe communities and social cohesion". The Department will continue to derive its mandate from amongst others the following: Provincial Priorities, State of the Nation and Province Addresses and Policy directives by the president, Decade of Action on Road Safety and the National Development Plan: Vision 2030 - future let's make it work with the Medium-Term Strategic Framework 2021-2024/25. This will be realized by working with the various stakeholders from the Criminal Justice Cluster as embodied in the Constitution of the Republic of South Africa. The department will also further contribute to the realization of the following priorities:

**Priority 1: Capable, Ethical and Development State** - Implementing governance issues

**Priority 2: Economic Transformation and Job Creation** - The Department will deploy Tourism Safety Monitors in the tourist's attraction points of the Province and recruiting youth to internship and learnership projects. The Department will strengthen its financial and human resources capacity for effective service delivery. However financial constraints can limit the Department in achieving its set objectives. The Department implemented crime prevention programmes such as Educational Awareness campaigns, Community Outreach Programmes to reduce the level of contact crimes. Community Safety Forums and Community Policing Forums were supported to curbing criminal act occurring at our localities. The Civilian Secretariat for Police Act was implemented by monitoring the performance of police service on policy compliance and conducting audits on DVA legislations. Traffic Law Officers were deployed in Provincial routes to ensure that road crashes and fatalities are reduced.

**Priority 3: Education Skills and Health** - Implementing school safety programme to deter youth from committing crime and school traffic safety programme so that youth at schools are taught at an early to be responsible road users. The Department will support its core service delivery programmes.

## **2. Review of the current financial year (2023/24)**

For the period under review (Nine Months 2023/24) the Department implemented various interventions to fight gender-based violence and femicide in the areas that have shown to be contributors to this category of crime. Engagements were conducted with various stakeholders in the fight against crime through the Provincial Crime Prevention Summit. The Summit adopted resolutions which will be the basis of the crime prevention strategy and plan.

These engagements were also heled with communities in the three regions of the Province though the izimbizos. Integrated crime prevention programmes in the crime hot spots of the Province were conducted in the guise of the “Overall Friday” project. Various successes were registered through this Project in the form of the arrest of wanted suspects who are fugitives to justice.

Oversight was conducted to monitor the compliance of the SAPS to policy prescripts. Where there were identified non-compliance recommendations were made to the Provincial Commissioner for Intervention. Institutional structures in the fight against crime were also supported to ensure that grassroots interventions in the fight against crime owned by the communities are implemented.

Five (05) Transport Regulation Programmes Safety Engineering, Traffic Law Enforcement, Road Safety Education, Transport Administration and Licensing and Overload Control. For the Period under review, there was a decrease of road crashes by 6.6 % in the 2023/24 financial year compared to the same period in 2022/23. The decrease is as a result of increased visible patrols of the traffic law enforcement officers and various safety activations in our road network.

### **3. Outlook for the coming financial year (2024/25)**

**Reduction of Contact Crimes** - The department will continue to exercise oversight over the South African Police Service (SAPS) to ensure a citizen centred service. The implementation of initiatives to fight Gender Based Violence and Femicide will be enhanced to ensure that the vulnerable groups do not become victims of this heinous crime. The Department will recruit the crime prevention wardens who will be a force multiplier to the SAPS to ensure that our communities are safe. To ensure that they are fully equipped in executing their responsibilities, they will be provided with the required capacity building,

**Reduction of Road Crashes** - Five road safety programme will be implemented focusing on safety engineering, traffic law enforcement, road safety, transport administration and licensing and overload control will be implemented to reduce road crashes in the Province. The current 2023/24 cohort of cadets who are in the Mpumalanga Traffic Training College will be absorbed in the 4th Quarter of the 2024/25 Financial Year.

To ensure that all due revenue is collected in line with the provision of the Public Finance Management Act, the Steve Tshwete and eMalahleni transport administration and licensing function will be taken over. Preparation will be initiated to take over the function from the remaining municipalities.

**Secured and protected government properties** - The department will continue to coordinate the provision of security services in Provincial Government sites and Principal residences to ensure their safety. The compliance to the Service Level Agreement (SLA) by the Private Security Providers will be monitored to ensure that value for money is obtained for the service provided

## 4. Reprioritization

The Department has reprioritized R16.1 million to compensation of employees to fund salary adjustment and defray pressure anticipated. Funds allocated to goods and services have been directed towards critical areas of service delivery items and contractual items. Budget on goods and services has been reduced even on key items due to budget reduction, available funds will only cater for nine months.

## 5. Procurement

The department continues to ensure that there is always compliance monitoring and improving transparency and accountability in terms of supply chain management processes.

It continues to ensure that the needs of the organisation are in line with the pillars underpinning the department's strategy as well as with its allocated budget. The department has contracted service providers for the major core services and will continue to procure the following goods and services:

- New Mpumalanga number plate system.
- Installation, maintenance and calibration of hardware and software solution for vehicle testing stations in the province.
- Supply and maintenance of handheld gadgets for Traffic Law enforcement.

The department will also ensure that local suppliers are supported through these projects as part of the province's initiative to support small, medium and micro enterprises (SMMEs).

The budget for Community safety, security and liaison has shown a decrease on the baseline allocation of Equitable share and increase on own revenue. The department had over past years received its income from Equitable share, Conditional grants and Own revenue. The programme for Security Management received a larger share of the budget followed by Traffic management. The department will continue to strengthen its traffic law enforcements on the roads through the provision of working materials, absorption of traffic officers and optimizing working systems and processes.

The focus in the MTEF period will also be directed towards monitoring and evaluation of police stations and strengthening of research and policy development. Budget for monitoring and evaluation of police stations and strengthening of research and policy development has decreased due to budget cuts on equitable share. Development of support staff will be negatively affected throughout the MTEF due to non-funding of training for support staff.

The department's main source of revenue is motor vehicle licenses followed by fines, penalties and forfeits. The department is anticipating collecting R1.525 billion for 2024/25 financial year and increase to R1.601 billion in the following year. This increase is as a result of the takeover of Steve Tshwete and Emalahleni municipalities for the motor vehicle licences.

## 7. Payment summary

### 7.1. Key assumptions

Funding will be allocated for strengthening safety in our roads and communities.

Provision of security to all government properties has also costed more resource from the budget.

The department will channel funds towards policy development and research to cope with trends and developments in our operating environment.

Monitoring and evaluation of police stations in the province is also provided.

Catering for learners in MTTC and cleaning services will be funded.

The overall budget has shown increase of R109 million, 6 per cent from initial budget of R1.768 billion in 2023/24 financial year to R1.877 billion in 2024/25 financial year. The increase is as a result of takeover of two municipalities, absorption of traffic learners and law enforcement recruits.

Compensation of employees has increased from R684 million to R817 million, 19 percent increase is mainly for absorption of traffic learners and takeover of staff from Steve Tshwete and Emalahleni municipalities. It is also taking into consideration the wage increases and CPI Inflation. Compensation of Employees was prepared using Human Resource Budget Plan, headcount and Provincial Treasury guidelines.

Goods and service is decreasing with 2.9 percent from R1.052 billion to R1.021 billion. About R271 million has been ear-marked for new priorities namely: taking over of municipalities, absorption of traffic learners, law enforcement recruits and top up of security payments for new sites. Departmental core drivers will be negatively affected because of underfunding of operational cost.

The transfers and subsidies decreased from R4.5 million to R4.1 million in the 2024/25 financial year to fund renewal of motor vehicle licencing, injury on duty and leave gratuity.

Budget for payment of capital has been increased by R7 million from R27 million to R34 million. R14 million is funded for government motor vehicles as the department will be appointing traffic officers. R19 million is for handheld gadgets that will be utilised for traffic summons and the R600 thousand is for the software to be installed.

The budget for the programme has decreased from R170 million to R156 million, decrease of 8.2 percent or R14 million is due to new priorities that are earmarked allocations. Compensation of employees has a slight increase to cover salary adjustments. Contractual items including municipal services, rentals of buildings and machines, audit costs and payment of telephones are not fully funded. Administrative costs for intake of municipalities and traffic officers are not funded.

### 8.1.2 Service delivery measures

Refer to departmental Annual Performance Plan for 2024/25.

## 8.2. Programme 2: Civilian Oversight

### 8.2.1 Description and objectives

- Exercise oversight on the South African Police Service on their effectiveness and efficiency to provide safety to communities.
- Conducting research on policing matters to ensure that the interventions to fight crime are informed by reality
- Implement an integrated approach towards reducing crime and conditions making communities to be victims of crime
- Strengthen community based and private partnership with the South African Police Service to fight crime.

The programme consists of five sub-programmes or directorates namely: Programme Support, Monitoring and Evaluation, and Policy and Research, Promotion of Safety and Community Police Relations.

The overall baseline for the programme increased by R41 million from a budget of R60 million in 2023/24 financial year to R101 million in 2024/25 financial year.

Budget for compensation of employees increased by R30 million mainly to appoints 1200 brigades. Goods and services increase by R3.7 million or 24 percent from budget of R15 million in 2023/24 to R19 million in 2024/25 financial year. The increase is not sufficient considering operating cost namely training, stationery, fleet service and promotional items. Budget for Monitoring of police stations, outreach programmes and support of Community Police Forums (CPF's) was reduced due to earmarked funding for new priorities.

**8.2.2 Service delivery measures**

Refer to departmental Annual Performance Plan for 2024/25.

**8.3. Programme 3: Transport Regulation**

**8.3.1 Description and objectives**

The purpose of Transport Regulation is to provide a safe road environment through the regulation of traffic flow on public roads, overload control, implementation of road safety campaigns as well as registration and licensing of vehicles and drivers. The Programme consists

of Programme Support, Traffic Law Enforcement, Overload Control, Road Safety Education, Safety Engineering and Transport Administration and Licensing.

The total budget for the programme has increased from R722 million for the 2023/24 financial year to R788 million for the 2024/25 financial year. Compensation of employees has increased by R65 million, the increase is because of takeover of Steve Tshwete and Emalahleni municipalities.

Goods and services are also set to decrease from R166 million to R129 million, is about R37 million reduction in the 2024/25 financial year. Budget for the programme is very limited and cannot fully cater for contractual items: bank charges, computer services (Rims & Syntel), contractors and fleet services.

Transfers and subsidies slightly decreased by R555 thousands.

Accounting Officer	Head: Health

### 1. Overview

#### Vision

“A healthy long living Society”

#### Mission

To provide sustainable health services that are people-centric and aims at ensuring healthier, longer and better lives focusing on access, equity, efficiency and quality for the inhabitants of Mpumalanga.

#### Strategic objectives

The department has a number of strategic objectives and sub-outcomes that are aligned with the National Development Plan (NDP) 2030, Sustainable Development Goals 2030, MTSF 2014-2019 and the National Health sector priorities.

The strategic objectives include the following:

- Expand access to health care services
- Improve health care outcomes
- Improve quality of health care
- Re-alignment of human resource to departmental needs
- Strengthening Health Systems Effectiveness
- Improved health facility planning and accelerate infrastructure delivery
- Reduce health care costs

#### Core functions and responsibilities

The Department of Health has a mandate to provide quality health services that are preventative, curative and rehabilitative to the people of Mpumalanga Province and beyond. The departmental budget vote has eight main divisions, namely *Administration, District Health Services, Emergency Medical Services, Provincial Hospital Services, Central Hospital Services, Health Sciences and Training, Health Care Support Services and Health Facilities Management*.

*The District Health Services* is foundation for service delivery within which comprehensive primary health care and district hospital services are provided to the community using the District Health System. The Department provides a comprehensive primary health care package that includes Child Health, STI and AIDS, TB, Reproductive Health, Mental Health, Chronic Diseases, and Trauma and Injury services. These services are rendered to communities through a mix of healthcare facilities, which include Clinics, Community Health Centers (CHCs), and District

Hospitals. Furthermore, services are rendered through the use of Mobile Services, Ward-Based Services, Outreach Teams, and Integrated School Health Services in partnership with Non-Profit Organizations.

*Emergency Medical Services* provides pre-hospital medical services, inter-hospital transfers, rescue and planned Patient Transport to all inhabitants of Mpumalanga Province within the national norms of 30 minutes in urban areas and 60 minutes in rural areas.

*Provincial Hospital Services* renders secondary health services in Regional Hospitals and provides TB services in Specialized Hospitals.

*Central Hospital Services* provide a package of specialized services and a platform for training of health care workers including research. The province does not have a full complement of tertiary services and refers cases to Gauteng Department of Health. Developmental plans are underway to improve the package of services in the Department.

*Health Care Support Services* ensure the availability of medicines, clean linen, and well-serviced life servicing devices, forensic services, orthotic and prosthetic including other ancillaries.

*Health Facilities Management* build, upgrade, renovate, rehabilitate, and maintain facilities.

**Overview of the main services that the Department intends to deliver primarily include the following:**

- Comprehensive primary health care services.
- Pre-hospital medical services, inter-hospital transfers, rescue and planned patient transport to all inhabitants of Mpumalanga Province.
- Level 1, 2 and 3 hospital services that include district, TB specialized, regional and tertiary hospitals hospital services.
- Forensic pathology services.

### **External activities and other events relevant to budget decisions**

The following incidences have had influence budget considerations:

- Globally, The World Economic Outlook of the International Monetary Fund expects growth to decline from 3.4 percent in 2022 to 2.8 percent in 2023. Although global inflation is expected to decline from 8.7 percent in 2022 to 7 percent in 2023, inflation is not expected to return to target until 2025.
- The South African Reserve Bank's forecast for South Africa's real Gross Domestic Product (GDP) growth is 0.3 percent for 2023, For 2024 and 2015, the growth forecast is 1. And 1.1 percent, respectively. The slow growth directly impacts the ability for revenue to be collected and distributed among the spheres of government. This in turn affects the Department's ability to adequately address its human resource needs, infrastructure backlog and other operational resource requirements due to the shrinking fiscal envelope.
- Furthermore, Mpumalanga Province is predominantly rural which has an influence on the ability of the Department to collect revenue. Therefore, majority of patients are subsidized fully when accessing healthcare services.
- The increase in pricing for services/goods such as electricity, fuel, etc. have a direct impact to the financial health of the Department.
- The Covid-19 pandemic has led to a dramatic loss of human life worldwide and presented an unprecedented challenge to public health, food systems and the world of work. The economic and social disruption caused by the pandemic is long lasting and has left leaving millions of people at risk of falling into extreme poverty.

### **Aligning Departmental budgets to achieve government's prescribed outcomes**

The Department contributes to MTSF 2019-2024 priority no 3; Education, Skills and Health with 10 outcomes from Health sector NDP 5-year implementation plan as outlined below.

- *Maternal, infant and child mortality reduced* – Clinicians will be capacitated through continuous training for the following: BANC, sexual and reproductive health, and safe anaesthesia. The District Clinical Specialist Teams are established in the 3 districts. The department has operationalised a 12-bedded neonatal critical care ward at Witbank Hospital.
- *Communicable diseases: HIV & AIDS and Tuberculosis* prevented and successfully managed- Antiretroviral Treatment Programme in South Africa remains the largest in the world. The Department plans to prevent the increase in HIV infection by implementing the 95-95-95 strategy that will improve life expectancy.
- *Universal Health Coverage progressively achieved through implementation of National Health Insurance* - The Department has prioritized the first phase of the National Health

Insurance by ensuring that a number of clinics reach Ideal Clinic Status. The Departments plans realise the Ideal Clinic status for an additional 97 PHC facilities as well as have 294 facilities visited by a General Practitioner through contracting at least 69 General Practitioners.

- *Improve quality and safety of care* - The Department will continue to improve compliance to National Core Standards in all health facilities, which will improve quality of health service by improving access and patient experience.
- *Improve community engagement* and reorient the system towards Primary Health Care through community-based health programmes to promote health. The Department is implementing four streams of PHC Re-engineering: WBPHCOTs, DCSTs, Ideal clinic Status and GP Contracting.
- *Improve equity, training and enhance management of Human Resources for Health*: The Department will appoint health professionals through reprioritization of savings due to terminations. This includes improving of quality of health care by ensuring ongoing capacitation of clinical staff and accessibility of health services.
- *Implement robust and effective health information systems* to automate business processes and improve decision making based evidence: Efficient Health Management Information System will be developed and implemented for improved decision making.
- *Execute the infrastructure plan* to ensure adequate, appropriately distributed and well-maintained health facilities: The department will continue to invest in infrastructure in order to improve access to health services through physical infrastructure. A number of facilities are maintained in order to improve access to health care services.
- *Reduced health care costs* - The department will continue to implement austerity measures and efficiency projects to ensure efficient provision of health services. Internal control processes will be enhanced in order to ensure value for money in all areas of expenditure.
- *Improved human resources for health* - The enhancement of human resources within the health sector has been a focal point of our department's strategic initiatives. In line with this, the departmental cost per head ceiling has been structured to facilitate appointments on Conditional Grant funded vacant positions as outlined in the approved Business Plan. Under the equitable share allocation, provisions have been made for the filling of 746 replacement posts and those expected to be vacated as of April 1, 2024. Recognizing the imperative to address critical vacancies in alignment with the department's service delivery objectives, savings resulting from posts vacated after April 1, 2024, will be reallocated accordingly.

Moreover, the Department's Equitable Share Compensation of Employee Budget Ceiling accommodates the appointment of 30 additional medical officers, thereby bolstering healthcare outcomes across the Province. Additionally, allocations have been earmarked for 19 positions to facilitate the extension of operational hours at Rockdale and Lillydale Clinics, along with 116 posts designated for the operationalization of Balfour CHC, Ethandukukhanya CHC, Morgenzon Clinic, Nhlazantshe 6 Clinic, and New Botleng Ext 6 Clinics. These strategic measures underscore our commitment to enhancing healthcare accessibility and efficacy within our communities.

- *HIV & AIDS and Tuberculosis prevented and successfully managed* - Antiretroviral Treatment Programme in South Africa remains the largest in the world. The interventions of the programme ensure that clients live longer and reduce their chances/probability of infecting others, thus leading to a reduction in new HIV infections. HIV is also a risk factor for TB, and so reductions in HIV infections also contributes to reductions in TB infections.

### Linking budgets to prescribed outcomes

The Department has allocated MTEF budget in line with the MTSF priorities, which include the following:

#### *To Increase Life Expectancy and improve Health and Prevent Disease*

- Institutional Maternal Mortality Ratio reduced from 91.5/100 000 to 87/100 000 live births. The following planned interventions will still be prioritized in 2024/25 financial year.
  - Establish Obstetric Midwifery Birth Unit (OMBU).

- Identify shortage of necessary diagnostic equipment at all clinics and procure where necessary.
- Follow-up of all treatment defaulters through Ward Based Primary Health Care Outreach Teams (WBPHCOT).
- Decrease malaria inpatient case fatality rate from 0.6% to less than 0.5%. A budget amounting to R 29.861 million is allocated in order to implement the following interventions;
  - Conduct Indoor Residual Spraying of 769 000 households in the Malaria endemic areas
  - Recruitment of spray operators
  - Procurement of spray pumps
  - Conduct malaria awareness campaigns
  - Roll out the onsite testing and treatment from the ports of entry to farms along the borders
- Prevent the increase of HIV infection by implementing the 95-95-95 strategy- the Department has invested R 2.172 billion to achieve the following intervention;
  - Strengthen the test and treat policy using the Phuthuma strategy.
  - Ensure early ART initiation among HIV positive clients by implementing same-day ART initiation policy.
  - Expand provision of PrEP, HIV self-screening and index testing services to all public health facilities.
  - Perform viral load testing on all clients on ART
  - Monitor and support compliance to latest HIV clinical guidelines.
- TB Client Treatment Success Rate at 90% and TB client lost to follow up rate at <5%. An amount of R 37.986 million was set aside to fund the following interventions;
  - Utilise Ward Based Outreach Teams and Community Health Workers to trace TB defaulters.
  - Improve clinical skills for TB management.
  - Monitor and evaluate TB programme performance.

*Access to health services improved*

- 65% EMS P1 urban response rate achieved under 30 minutes and 88% EMS P1 rural response rate achieved under 60 min. Funding amounting to R 30.031 million was allocated for the following activities;
  - Establish a centralized Emergency Communication (ECC)
  - Appointment of 6 Basic and Advance life support personnel, 14 already appointed.
  - Procure additional ambulances.
  - Establishment of Patient Engagement Platform
- Improve quality of care by increasing availability of medicines and surgical sundries at medical depot to 95%. In ensuring availability of medicines an amount of R 717.025 million was set aside in order to achieve the following.
  - Procure medication for health facilities.
  - Monitor availability of medicines through SVS and Rx solution.
  - Develop an integrated medicine management system which will interface between the dept and health facilities.

- 100% of PHC facilities qualify as Ideal Clinics. A budget amounting to R 14.621 million was allocated in order to achieve the following interventions;
  - Conduct Self Determination assessments in all PHC facilities.
  - Develop and implement Quality Improvement Plans for all PHC facilities.
  - Procure critical medical equipment in all health facilities.
- 69 Contracted GP's contracted for PHC facilities with a budget amounting to R 20.334 million. The allocated budget will be directed towards the recruitment and contracting of an additional 12 General Practitioners, on top of the 57 already contracted to PHC facilities.
  - Improve access to PHC health through GP contracting, Ideal Clinic initiative, outreach services, integration of COVID-19 into PHC.
  - Allied health outreach teams established.
  - Procurement of necessary vehicles

#### *Build Health Infrastructure for effective service delivery*

- Improve safety and security in all healthcare facilities, a budget of R 0.00 was allocated for the following intervention.
  - install Digital security solutions in hotspot health facilities (CCTV Cameras and Panic buttons)
- Five Modern hi-tech hospitals are under construction an amount of R 839.962 million was allocated. The following activities will be achieved.
  - New Mapulaneng Hospital currently under construction, (budget allocated R 509.531 million)
  - New Middleburg Hospital currently under construction (budget allocated R 61.853 million)
  - KwaMhlanga Maternity Ward currently under construction, (budget allocated R 87.514)
  - Linah Malatjie Tertiary Hospital currently under planning (budget allocated (R 218.215 million),
  - Upgrading of Mmamethlake Hospital R 15.556 million and
  - Upgrading of Bethal Hospital (Budget allocated R 34.807 million)

## **2. Review of the current financial year (2023/24)**

The outcome for Health sector is "A long and healthy life for all South Africans". All the programs, projects and interventions of the Department are geared towards achieving this outcome and other provincial priorities.

The Department is currently integrating Covid-19 services into the routine healthcare services, following the relaxing of the Covid-19 restrictions as well as WHO indicating that Covid-19 is no longer considered a global health emergency.

The Department has finalized its key priorities, with the essential interventions targeted at:

**Programme 1: Administration** - *The audit is in progress and plans remain underway not to regress rather to improve and ultimately obtain a clean audit outcome.*

- Percentage of women appointed in Senior Management positions: Quarter 3 progress is 43.3 percent (against a quarter 3 target of 50 percent)
- The programme did not achieve the Percentage of representation on employment of persons with disabilities across all levels a consecutive year now. Plans are underway to prioritise employment of people living with disability. Quarter 3 progress is 0.54 percent (against a quarter 3 target of 1 percent)
- Percentage of youth appointed is currently: Quarter 3 progress is 28.72 percent (against a target of 30 percent)

**Programme 2: District Health Services** - The following key indicators measure the implementation of health policies and measures the effectiveness of the health system strengthening.

The progress for key performance indicators thus far in 2023/24 is:

- ART adults remain in care rate (12 months): quarter 3 progress is 72% (against a quarter 3 target of 90%).
- ART child remain in care rate (12 months): quarter 3 progress is 75.7% (against a quarter 3 target of 76%).
- Adult - viral load suppressed rate (12 months): quarter 3 progress is 90% (against a quarter 3 target of 90%).
- Child - viral load suppressed rate (12 months): quarter 3 progress is 88% (against a quarter 3 target of 90%).
- All DS-TB client LTF rate: quarter 3 progress is 6.7% (against a quarter 3 target of 7.5%).
- All DS-TB Client Treatment Success Rate: quarter 3 progress is 71% (against a quarter 3 target of 80%).
- Couple year protection rate: quarter 3 progress is 74.9% (against a quarter 3 target of 43%).
- Delivery 10 to 19 years in facility rate: quarter 3 progress is 15.5% (against a quarter 3 target of <13%).
- Maternal Mortality in facility Ratio: quarter 3 progress is 118/100 000 (against a quarter 3 target of 100/100 000).
- Live birth under 2500g in facility rate: quarter 3 progress is 12.1% (against a quarter 3 target <11.5%).
- Neonatal (<28 days) death in facility rate: quarter 3 progress is 13.3/1000 (against a quarter 3 target of 10/1000).
- Immunisation under 1year coverage: quarter 3 progress is 89.6% (against a quarter 3 target of 90%).

**Programme 3: Emergency Medical Services (EMS)**- The purpose of Emergency Medical Services is to provide pre-hospital medical services, inter-hospital transfers, Rescue and Planned Patient Transport to all inhabitants of Mpumalanga Province within the revised national norms of 30 minutes in urban and 60 minutes in rural areas.

The first quarter performance for the programme in 2023/24 is as follows:

- EMS P1 urban response under 30minutes rate: quarter 3 progress is 65% (against a quarter 3 target of 65%).
- EMS P1 rural response under 60minutes rate: quarter 3 progress is 69% (against a quarter 3 target of 69%).

**Programme 4 and 5: Regional, TB Specialized and Tertiary hospitals-** The purpose of programme 4 is to provide health services in regional hospitals and TB specialized hospital services.

The first quarter performance for the programme 4 in 2023/24 is as follows:

- Number of maternal death in facility: quarter 3 progress is 0 (against a quarter 3 target of 5).
- Number of death in facility under 5 years: quarter 3 progress is 60 (against a quarter 3 target of 3).
- Child under 5 years diarrhoea case fatality rate: quarter 3 progress is 2.4% (against a quarter 3 target of <3.4%).
- Child under 5 years pneumonia case fatality rate quarter 3 progress is 2.2% (against a quarter 3 target of 3%).

The 3rd quarter performance for the programme 5 in 2023/24 is as follows:

- Number of maternal death in facility: Quarter 3 progress is 0 (against a quarter 3 target of 5)
- Number of death in facility under 5 years: quarter 3 progress is 60 (against a quarter 3 target of 3)
- Child under 5 years pneumonia case fatality rate quarter 3 progress is 2,2% (against a quarter 3 target of <3%)

**Programme 6: Health Sciences and training** - The purpose of the programme 6 is to ensure the provision of skills development programmes in support of the attainment of the identified strategic objectives of the Department

- Number of healthcare workers trained on critical clinical skills: quarter 3 progress is 1008 (against a quarter 3 target of 1000)

**Programme 7: Health Service Support** - The progress for key performance indicators thus far in 2023/24 is:

- Percentage availability of EML at the depot: quarter 3 progress is 88% (against a quarter 3 target of 90%)
- Number of orthotic and prosthetic devices issued: quarter 3 progress is 1715 (against a quarter 3 target of 1187)
- Number of sites rendering forensic pathology services: quarter 3 progress is 21 (against a quarter 3 target of 21)

**Programme 8: Health Facility Management and Infrastructure** - The purpose of the programme is to build, upgrade, renovate, rehabilitate and maintain health facilities. The Department is implementing all construction and maintenance projects through the Department of Public Works, Roads and Transport (DPWRT) and all projects are at different stages of completion.

*However key priorities and key intervention are refocused and repurposed to ensure that key issues such as facility maintenance are addressed by the programme.*

The progress for key performance indicators thus far in 2023/24 is:

- Support preventative maintenance activities of life saving medical equipment to prevent failure: progress is 60%( against an annual target of 75%)
- Percentage of health facilities with completed capital infrastructure projects: progress to date is 40% (against an annual target of 46%)

### 3. Outlook for the coming financial year (2024/25)

*The Department is planning the following key interventions: Prevent the increase of HIV infection by implementing the 95-95-95 strategy:*

- Conduct HIV testing and counselling services in health facilities and communities.
- Procure additional HIV test kits
- Provide community-based HIV testing, targeting men and youth through District Supporting Partners such as Broad-reach and Right to Care
- HIV testing at High Transmission Areas targeting key populations like sex workers, LGBTIQ and truck drivers.
- Contract HTS counsellors to offer HIV counselling and testing in health facilities and Correctional facilities.
- Conduct in-service training of HTS Counsellors and health care workers to ensure quality testing
- Awareness campaigns, screening services and VMMC will be conducted in addition to the treatment that is provided to the clients that are living with HIV and AIDS and infected with TB.

*TB Client Treatment Success Rate at 90 %*

- Utilize Ward Based Outreach Teams and Community Health Workers to trace TB defaulters.
- Conduct in-service training of health care workers on the management of TB, using District Support Partners (DSP).

The Department is planning to strengthen routine screening for diabetes and hypertension which will assist in quantifying the prevalence and burden that these two conditions place on the Department.

*Deaths due to violence and injury*, Management aims to improve EMS response time for emergency calls to decrease the risk of death as an outcome due to violence and injuries. The Department will also implement Planned Patient Transport services, monitor the contract of aeromedical services, implement the Emergency Management System, procure medical equipment for all ambulances where necessary, and procurement of additional ambulances.

*Universal Health coverage progressively achieved through implementation of National Health Insurance* – Taking our mandate from the National Development Plan 2030, Mpumalanga Province will focus on the World Health Organization’s six building blocks of a health system, in order to improve the health system adequately to provide universal coverage. Affordability and sustainability of universal health coverage is dependent on provision of most services at the Primary Health Care level which has an adequate referral system to other levels of care when the need arises. The referral system will further be improved through ensuring that the Emergency Medical Services response times are within expected standard. In addition, 4 new clinics will be

operationalized at a cost of R 45.697 million, and 2 will have their operational hours extended to 24 hours at a budget of R 6.150 million.

*Improve quality and safety of care* - All health care facilities will ensure that patients are afforded an opportunity to express their views regarding the quality of health care through a functional complaints mechanism with the aim of achieving complaint resolution will be within 25 days. Client Satisfaction Surveys will be conducted annually in all health facilities to measure patient experience of care. Gaps identified through the Client Satisfaction Surveys will be addressed through monitored quality improvement plans. Furthermore, there will be an intake of an additional 30 medical officers in the province at a budget of R 42.109 million, which will contribute to improved quality of care.

*Improve community engagement and reorient the system towards Primary Health Care through community-based health programmes to promote health* - Implementation of the five (5) streams of PHC reengineering will ensure improved access to quality health care. The WBPHCOTs reach out to the communities at household level.

The District Clinical Specialist Teams (DCSTs) are established in the 3 districts. These teams play a pivotal role in improving governance and practices of Maternal and Child Health Services. 121 School Health Teams are established. Ideal Clinic Realization and Maintenance shall be implemented according to the guidelines to benefit all health care users at all levels of service. All PHC facilities are expected to obtain Ideal Clinic Status. *Robust and effective health information systems to automate business processes and improve evidence-based decision making* - The Health Patient Registration System (HPRS) has been rolled out in all 3 Districts (Ehlanzeni, Gert Sibande & Nkangala Districts). The department will roll out the system to 33 hospitals to ensure that all patients are registered and have audit trail of services offered to a patient irrespective of place where the service was rendered.

*Improving availability of medical products and equipment* - Compliance by all facilities with Radiation Control prescripts will ensure that patients are correctly diagnosed and managed which will result in improved quality and safety of care. The Department will prioritise the relevant posts to ensure the appointment of more radiologists and radiographers, replacement of obsolete X-ray equipment and continuous maintenance (preventative and corrective).

Maintaining the number of functional blood transfusion committees will save costs and improve quality of care. This will be achieved through appointment of senior clinicians and training of all health professionals in the use of Blood and Blood products.

Maintaining the twenty-one sites rendering Forensic Pathology Services (FPS) in fully functional state will ensure that the reports produced are credible and contribute meaningfully to the Criminal Justice System. This will be achieved by conducting routine maintenance of FPS facilities and equipment, filling in of critical vacant funded posts, conducting academic training sessions for medical officers and facilitating wellness programme for employees.

*Improve equity, training and enhance management of Human Resources for Health* - The implementation of the training programmes is aimed at improving the effectiveness of the department in achieving its stated outcomes and the overall provision of quality healthcare. A

comprehensive consulted training plan will be developed, and this plan will be based on the deliverables of each programme.

The training targets will seek for the advancement of women, people with disabilities as well the well-being of all children in the province.

*Provide leadership and enhance governance in the health sector for improved quality of care -* The department of health continues to provide leadership through community engagement to ensure that communities are well informed with health care programs, progress and departmental challenges in the institution. The programmes for stakeholder engagement include amongst others open day activities in all hospitals where communities are informed of services rendered in the institution, community complaints are addressed, and future plans are discussed. The department plans to establish hospital board and Clinic committees for all facilities.

*Execute the infrastructure plan to ensure adequate, appropriately distributed, and well-maintained health facilities -* Department has prioritized the refurbishment and maintenance of health facilities over the mid-term period to improve access to health care, including the operationalization of New Middleburg Hospital amounting to R 29 million for ICT infrastructure. This will contribute towards building health infrastructure for effective service delivery.

#### **4. Reprioritization**

The department has reprioritized from goods and services, transfers and subsidies, and machinery and equipment to fund compensation of employees. The reprioritization was first done within the goods and services to fund minor medical equipment and key accounts such as contractors, medical waste, clinical stationery, medical supplies, property payments, to align the baseline to the department's needs. The huge increase on contractors is also due to reclassification from computer services. An amount of R 70.310 million was reprioritized out of goods and services to fund the carry through impact of the wage agreement. The reprioritization of R 12 million from transfers and subsidies was mainly from the Cuban programme due to the reduced number of students. The budget of R 64.991 million was reprioritized from replacement of motor vehicles, medical equipment, response cars to fund the pressure on compensation of employees.

#### **5. Procurement**

The department will uphold the provisions of the PFMA Act 1 of 1999 (as amended) which seeks to ensure fairness and equity in the business dealings of the Department. Procurement of goods and services will be confined within the procurement and demand plan as linked to Annual Performance Plan (APP) and operational plans.

The department participates in number of the National Treasury contracts that are aimed at yielding efficiency gains through economies of scale. The department will also participate in the provincial transversal contracts issued by the Provincial Treasury. The department plans to award contracts in order to improve speed of procurement. The department will engage on projects to improve efficiencies on procurement of goods and services.

Contracts for patient stationery and furniture were awarded in the 2022/23 financial year. These contracts will ensure ease and efficient procurement of items to respond to service delivery. The

Department has planned to procure maternal, paediatric, oncology equipment, ambulances, patient food, cleaning detergent. The following services will be procured in the 2024/25 financial year maintenance of life saving devices, maintenance of health facilities, radiology and oncology services, lease of office equipment and medical gas.

## 6. Receipts and financing

### 6.1. Summary of receipts

The department was allocated R 16.825 billion for the 2022/23 financial year which was adjusted to R 17.221 billion though the adjusted appropriation which resulted into an outcome of R 17.034 billion. The incline between the 2021/22 and 2022/23 financial year was due to the baseline increases on both equitable share and conditional grants allocations. The once-off Covid-19 funding to support the Health Sector was not allocated to the department in the 2022/23 financial year. The department has used part of the baseline increase to provide for the Covid-19 budget pressures.

The compensation of employees for Covid-19 interventions funded from the grant will not continue as the component funding was discontinued. In the 2023/24 financial year the budget increased by R 480.142 against the 2022/23 main appropriation, of which R 200 million was rescheduled to fund the Middelburg hospital project and the variance to fund cost of living adjustment, mental health personnel, Witbank hospital neonatal, operationalization of CHC's, diesel and coal, Linah Malatji Hospital and the grant increase. The increase of R 913.158 million in the 2024/25 financial year is due to the R941.351 additional allocation to cater for the MTEF impact of the caused by the 2023 wage agreement. However, although it shows an overall increase the own revenue has decreased by R 97.689 million and a fiscal consolidation reduction amounting to R 384.322 million. All in all, there is a 5 percent growth as per the CPI and in real terms the growth is 0.1 per cent.

In the 2022/23 financial year the conditional grants baseline budget was revised downward by R 93.566 million. The reduction on the District Health Programmes Grant was due to the discontinuing of the Covid-19 funding. However, other grants baseline increased, and the department received funding for Expanded Public Works Programme Integrated Grant for Provinces which it did not receive in the 2021/22 financial year. The conditional grant has a R 222.351 increase in the 2024/25 financial year due to the additional funding on the National Tertiary Grant (NTSG) to establish tertiary services, the annual funding of the EPWP grants. However, there was a budget reduction on the District Health Programme Grant and the National Insurance Grant (NHI). In the next financial year, the oncology component which was funded on the NHI grant has been moved to the NTSG grant.

### **Conditional grants**

*Statutory Human Resource and Health Professions Training and Development Grant* – The conditional grant supports the departmental Health Sciences and Training Programme in funding services relating to training and development of health professions.

*Hospital Facility Revitalization Grant* - To help accelerate construction, maintenance, upgrading and rehabilitation of new and existing infrastructure in health including, health technology, organizational development and quality assurance; to enhance capacity to deliver health infrastructure.

*National Health Insurance Grant* – To expand the healthcare service benefits through the strategic purchasing of services from healthcare providers.

*National Tertiary Services Grant* - The grant enables the department to transform and introduce the tertiary hospital service delivery platform in line with national policies for the improvement of quality of health services.

*District Health Programmes Grant* - This is aimed at ensure integrated management of the HIV/AIDS pandemic in the Mpumalanga province and to support the implementation of the HIV/AIDS and STI Strategic plan of the country. The grant also provides for the initiatives related to the Covid-19 pandemic.

*Social Sector Expanded Public Works Programme Incentive Grant for Provinces* - To incentivize provincial departments to expand work creation efforts through the use of labour-intensive delivery methods.

*EPWP Integrated*-To incentivize provincial departments to expand work creation efforts through the use of labour-intensive delivery methods in the following identified focus areas, in compliance with the Expanded Public Works Programme guidelines: road maintenance and the maintenance of buildings; low traffic volume roads and rural roads; other economic and social infrastructure; tourism and cultural industries; sustainable land-based livelihoods; waste management.

In the 2020/21 financial year, the department was under collecting on the budgeted revenue due various challenges, which include RAF and inadequate patient administration processes and the Covid-19 pandemic. This led to a downward revision of the revenue projection in the MTEF period. The department still has the same challenges in the current financial year that pose a risk. However, the department has plans to mitigate the challenges and the economic downturns visible in the third quarter for the 2021/22 financial year. An approved Patient administration policy is implemented in the 2022/23 financial year.

The department has revised its revenue collection during the budget adjustment by R 10 million due to under collection caused by the RAF fund by not paying for patient claims. This challenge is faced by all provinces and is currently being handled by the national department of health. The increased revenue is due to the medical aid payment received for Covid-19 vaccinating services offered to their members. This challenge is faced by all provinces and is currently being handled by the national department of health.

However, in the 2023/24 financial year the department increased its projection. Revenue collection is a priority and an amount of R 14.333 million is allocated for interventions to increase revenue collection and funded over the MTEF. Patient Administration and Revenue supervisors have been appointed at the various hospitals to maximize revenue collection in the year under review. In the 2024/25 financial year the department is maintaining its budget for 2023/2024 financial year budget due to under collection caused by RAF by not paying for patient claims. This challenge is faced by all provinces and is currently being handled by the national department of health. The Implementation of the revenue improvement plan is in progress.

### *The factors influencing revenue collection of health patient fees*

- Given the parts rurality of the province, majority of the people of the province depend on public for health services. This has a negative impact on the opportunities of the department to collect revenue.
- Inability to address the number of challenges within the Department that have a potential to increase revenue collection due to budget constraints.
- The Covid-19 pandemic has led to a dramatic loss of jobs worldwide and presents an unprecedented challenge to public health. The economic and social disruption caused by the pandemic is devastating leaving millions of people at risk of falling into extreme poverty and dependent on public services.

- Mpumalanga province is at the border of Mozambique and Swaziland and has an exodus of foreign nationals accessing health services in various healthcare facilities without proper documentation. This challenge has paralyzed the ability of the Department to collect revenue even from South Africans.
- The lack of human resources and advanced integrated patient administration and revenue systems has a huge impact on revenue collection.

## 7. Payment summary

### 7.1. Key assumptions

The Department has applied the following broad assumptions when compiling the budget:

- The Customer Price Index will remain at 4.9 percent in 2024/25 financial year.
- Pay progression of 1.5 percent will be implemented in 2024/25 financial year. The medical aid employer contribution will increase by 8.45 percent and housing with 4.9 percentage.
- Accruals and payables for 2022/23 financial year are estimated only march orders and invoices.

The department has applied the following principles when compiling the budget:

- Key cost drivers were prioritized in the MTEF period in order to ensure sustainability of the provision of basic services.
- A cost per employee were composed in determining overall compensation of employees of the department. The needs for additional staff were considered in the preparation of the MTEF budget especially health key staff taking into account the compensation of employee budget ceiling over the MTEF period as prescribed.
- A mix of incremental and performance-based costing has been applied in preparation for the MTEF budget.
- Priorities were identified in the 2022 MTFS and funding allocated per priority.
- The 2024 MTEF technical guidelines were used in compiling the budget.
- Annual Performance Plan commitments and State of the Provincial Address Commitment were the basis for the preparation of the MTEF budget,

*Key Departmental challenges when compiling the budget:*

- Funding of litigations.
- Funding of unauthorized expenditure approved without funding.
- Increasing APP targets on a declining budget baseline in real terms.
- Funding operations for all new facilities.
- Increasing costs versus a decreasing budget

### 7.2. Programme summary

The Department has eight budget programmes of which four are services delivery programmes and four support programmes. Table 10.3 and 10.4 below provide a summary of payments and estimates according to these eight programmes, as well as per economic classification.

Table 10.3: Summary of payments and estimates: Health

The budget of the department shows growth of R 620.710 million from 2021/22 to 2022/23 financial year. The growth is due to the baseline increase on equitable share, conditional grants and allocation of own revenue. The equitable share Covid-19 allocation was not allocated in the 2022/23 financial year. The baseline increase will cater for the Covid-19 pressures and address the adverse impact caused by the 2021 MTEF budget cut. In 2023/24 there was a baseline reduction of R 480.142 million due to reduction of own revenue, due to the increase in the baseline and the rescheduling of the of funds for the Middelburg hospital capital project. The increase in the 2024 MTEF period is due to the carry through funding of the wage agreement and additional special allocation to fund operationalization of new facilities, extension of operational hours, intake of medical officers and the operationalization of the New Middleburg hospital.

*Programme 1: Administration*, the incline in 2023/24 is due to the funding of the revenue collection and Supply Chain Management (SCM) priorities to address under collection of revenue and SCM challenges the priorities are sustained over the MTEF period. The programme will continue to implement austerity measures and efficiency projects to reduce health costs. The increase of R 12.261 is due to the wage cost carry-through.

*Programme 2: District Health Services* shows a decrease in 2023/24 financial year attributed to the reduction of grant baseline for District Health Services Grant, the reprioritization of funds from district management to fund key accounts and priorities in other programmes. In the 2024/25 MTEF is due growth additional funding on compensation of employees to fund the carry through impact of the wage agreement, operationalization of new clinics, pronounced clinics operational hours to 24hours, and medical officers' intake.

*Programme 3: Emergency Medical Services* shows an increase in the 2023/24 financial year due to the baseline addition to fund the interventions to improve emergency medical services response time. The increase of R79.419 million in the 2024/25 financial year is due to the wage cost carry through and the funding of the citizen engagement system.

*Programme 4: The Provincial Hospital Services* budget for 2022/23 shows an increase of R63.908 million due to additional baseline allocation to fund additional neonatal beds and establishment of paediatric ICU to reduce neonatal mortality. In the 2024/25 financial year the incline of R178.044 million in the budget due to the additional funds on compensation of employees to cater for the pressure caused by the wage agreement, intake of medical officers and budget that came through reprioritization to fund medicine, food and property payment.

*Programme 5: Central Hospital Services* consists of Rob Ferreira Hospital and Witbank Hospital budget, and benefits from the National Tertiary Services grant. The programme is benefiting from

an indirect grant to fund the oncology services rendered by Rob Ferreira, which commenced in the 2019/20 financial year. The increase in 2023/24 financial year was due the additional baseline allocation to fund Witbank hospital neonatal, the carry through effect of COLA and the baseline incline of the National Tertiary Services Grant that is part of the programme. In the 2024/25 MTEF is due growth of R 153.271 additional funding on compensation of employees to fund the carry through impact of the wage agreement, intake of medical doctors and increase on the National Tertiary Grant.

*Programme 6: Health Science & Training* shows an incline due to shifting of the registrar programme from programme 4 regional hospitals to the training other programme as well as the additional allocation to baseline to cater for the carry through effect of COLA. In the 2024/25 financial year the increase of R 5.394 million is due to the impact of COLA.

*Programme 7: Health Care Support Services* the increase results from reprioritization to fund warm bodies and COLA in compensation of employees. However, the following was funded in the programme; procurement of medical equipment to address maternal backlog, replacement of forensic vehicles and the procurement of the MRI scan. The decline of R 8.442 million in the oncoming year is due to the reduction in the maternal priority to procure maternal equipment and replacement of forensic vehicles due to the fiscal consolidation reduction.

*Programme 8: Health Facilities Management* the slight increase in the 2023/24 financial year is due to the baseline increase to fund the carry through effect of COLA in compensation of employees, diesel and coal and solar energy. The Health Facility Revisitation grant has reprioritized funds from compensation of employees to fund maintenance of health facilities in goods and services. The programme funds infrastructure lease, maintenance of medical equipment, coal and diesel. A budget of R206.649 million is budgeted for maintenance. In the 2024/25 financial year there's a massive baseline reduction of R 180.546 million due to the budget is due to the reduction on the indicative baseline for building and other fixed structures. However, the Health Facility Revitalization Grant has a R31.084 million increase.

The construction of new hospitals Mapulaneng, Middelburg, Witbank hospital and Mmametlhake and Linah Malatji hospital on equitable share is ongoing.

*Compensation of Employees* – In the 2024/25 financial year, the department's cost per head allocation facilitated the employment of 21,079 individuals on the fixed structure, along with 1,046 statutory appointments, 215 sessional appointments, 532 periodic appointments, and 6,659 abnormal appointments, totalling 28,436 employees. This includes the provisions made for filling of 914 critical vacancies, comprising 748 replacements, 30 posts for the appointment of additional Medical Officers, 19 posts for extending operational hours, and 116 posts for operationalizing new facilities. However, the department faced limitations in fully funding contract staff whose contracts were set to expire on March 31, 2024, due to budgetary constraints. As a result, extensions or permanent appointments for these employees were not feasible, necessitating a reprioritization of replacements to accommodate these staff.

Notably, the compensation of employees witnessed a 7.1 percent increase in the 2024/25 financial year, attributed to the implementation of a 4.9 percent cost-of-living adjustment and a 1.5 percent pay progression, totalling R 666.587 million. With only R 112.129 million available for new appointments, specific allocations were earmarked accordingly: R 42.106 million for the appointment of 30 additional medical officers, R 6.150 million for extending operational hours through 19 appointments, and R 26.106 million for appointing 116 staff members to operationalize new facilities.

Looking ahead, there is a projected increase of 3.8 percent in the 2025/26 financial year and 4.6 percent in the 2026/27 financial year. Despite these projections, the department faced challenges in fully accommodating the cost-of-living adjustment and pay progression over the next two financial years. Consequently, there will be limitations in appointing additional staff, prompting a strategic reprioritization of replacements to mitigate adverse effects.

*Goods and Services* – The decline in the 2023/24 financial year was due to the reprioritization out of goods to fund warm bodies in compensation of employees and vehicle licenses and litigations on transfers and subsidies and, mobile clinics and assistive devices on machinery and equipment.

The department will continue to intensify efficiency measures and internal controls to reduce health costs and provide sustainable health essential services to the community. In the 2024/25 financial year the increase of R 228.651 million caters for key accounts and non-negotiables. It is also due to the increase on the National Tertiary grant to establish new services. An amount of R 70.310 million was reprioritized out to fund the wage agreement pressure on COE and an amount of R 151.161 million was also reduced to the baseline due to the fiscal consolidation reduction.

*Transfers and subsidies* –The increase in the 2023/24 financial year was due to additional allocation for payment vehicle licenses, litigations, and the Council for the blind to address the cataract backlog. The decline of R 4.418 million in the oncoming year is due to the reduction in the Cuban programme resulting from reduced number of students.

*Payments of Capital Assets* –The increase in the budget is due to the additional allocation for the procurement of maternal I equipment to reduced maternal mortality, forensic vehicles, MRI and ambulances. The reduction on the in the 2024/25 financial year amounting to R 89.791million was due to the fiscal consolidation reduction that was implemented in the in the 2024/25 MTEF to fund compensation of employees.

The department has invested in the construction of new health facilities and upgrade of the current hospitals. A good infrastructure will improve the confidence of the community to use public health facilities and surely enhance access to health services. The decline in the baseline for 2024/25 was due to the reduction in the indicative baseline and grows steadily over the outer years. An amount of 29 million was allocated to operationalize New Middleburg hospital. The 5 Hi-Tech hospital are budgeted for in the oncoming year on an equitable share. The increase of R 31.084 million on the Health Facility Revitalization grant will fund the roof project at Tintswalo hospital.

### 7.4.2 Maintenance

The departmental maintenance budget for infrastructure will be at R 197.697 million to deal with lifesaving maintenance and, day to daily maintenance. This includes funding provided within the Health Facility Revitalization Grant. However, there is still a high need to maintain a number of health establishments and life saving devices as a result the department has priorities additional

appointments of artisans to deal with maintenance demands and has funded the procurement of materials to be used by them. The decrease is due to indicative baseline reduction.

The strategic priorities of this programme are as follows:

- The department will embark on a project to rationalize staffing in order to improve efficiency. Provincial Teams will be appointed to implement Ermelo overtime model in all hospitals.
- Improve financial management through:
  - Asset management
  - Management of accruals
  - Management of irregular expenditure
- Develop and implement standard operating procedures for the management of key health accounts such as waste management, food and utilities
- The Department will implement Patient and Administration System (PEIS) in Hospitals and Health Patient Registration System (HPRS) in PHC facilities. The Department will ensure that broadband connectivity is efficient and reliable.
- The programme will strengthen patient administration and revenue collection.
- A strategy to reduce litigations will continue to be implemented.

The incline in the 2023/24 financial year amounting to R 49.359 million was due to the funding of revenue and supply chain staff as per the departmental priority to increase revenue collection by appointing revenue and patient admin supervisors, and procurement of the EDI software. A budget of R 14.330 million was allocated for the revenue collection priority. The appointment of SCM staff was to ensure 100 percent procurement of the annual procurement plan, as well as efficient management of the four pillars of SCM. This priority was funded by R 2.612 million. The programme will continue to implement austerity measures and efficiency projects to reduce health costs. The strides made in the 2018/19 financial year on reduction of costs of overtime and food

are continuously maintained. In the oncoming year the increase is due to sustaining of revenue priority, SCM staff and the wage cost carry through.

### 8.1.2. Service delivery measures

Refer to departmental Annual Performance Plan for 2024/25.

## 8.2. Programme 2: District Health Services

### 8.2.1. Description and objectives

The purpose of the programme is to render comprehensive Primary Health Care Services to the community using District Health System as a model

The following are key priorities in programme 2

- Maternal, Neonatal, Infant and Child Mortality reduced
- Morbidity and Premature mortality due to Communicable diseases reduced
- Morbidity and Premature mortality due to Non-Communicable diseases reduced by 10%
- Quality of health services in public health facilities improved
- Leadership and governance in the health sector enhanced to improve quality of care
- Safety of patients and health providers in health facilities improved

The significant allocation supports the policy of providing access to quality primary health care services. However, the decrease in 2023/24 financial year is attributed to the reduction of the District Health Services grant and the district management subprogramme. However, the programme was allocated R 18 million for the operationalization of CHC's facilities, R 5 million for the procurement of equipment for the school health teams, R 15.611 million for ideal clinic and R 20 million for the procurement of mobile clinics.

To ensure availability of medicine above 95 percent in health facilities the department has budgeted an amount of R 19 million to appoint 65 pharmacy assistants in community health clinics. The programme was able to achieve all the above-mentioned priorities in the programme in the 2023/24 financial year. The increase in the programme in the 2024/25 financial year is due to the additional funding added to address the pressure on compensation of employees due to the wage agreement, operationalization of new clinics amounting to R 45.697 million, pronounced clinics operational hours to 24 hours amounting to R 6.150 million, and medical officers' intake R 20 million and reprioritization withing to fund key accounts and the non-negotiables over the MTEF.

**8.2.2. Service delivery measures**

Refer to departmental Annual Performance Plan for 2024/25.

**8.3. Programme 3: Emergency Medical Services**

**8.3.1. Description and objectives**

The purpose of Emergency Medical Services is to provide Pre- hospital medical services, Inter-hospital transfers, Rescue and Planned Patient Transport to all inhabitants of Mpumalanga Province within the national norms of 15 minutes in urban areas and 40 minutes in rural areas. The strategic priority for this programme is to strengthen the Effectiveness of Health System and increasing life expectancy.

The department will improve the services through the recruitment, appointment of emergency care practitioners and training to increasing the number of EMS bases and the number of rostered ambulances in the province. A Citizen's Engagement Platform will also be implemented, allowing for real-time location and assignment of the nearest ambulance to where it is needed. The programme shows an increase in the 2023/24 financial year due to the baseline addition to fund the following interventions to improve ambulances response time;

- Appointments of 10 Advance life support and 10 Basic life support personnel amounting to R 4.1 million. The basic life support has been appointed as well as 4 advanced life support. The 6 life support officials will be appointed in the 2024/25 financial year.
- The procurement of additional ambulances amounting to R10 million.

In the oncoming year the department is continuing with the above-mentioned priorities, the personnel are part of the cost per head and has budgeted for same amount for the procurement of ambulances and R 20 million for the citizen engagement system.

### 8.3.2. Service delivery measures

Refer to departmental Annual Performance Plan for 2024/25.

## 8.4. Programme 4: Provincial Hospital services

### 8.4.1. Description and objectives

The purpose of the programme is to render secondary health services in regional hospitals and to render TB specialized hospital services. The strategic priority of the programme is to overhaul the health care system by improving quality of care including the implementation of National Health Insurance.

The high-level strategic priorities of the programme are as follows:

- Maternal, Neonatal, Infant and Child Mortality reduced
- Morbidity and Premature mortality due to Communicable diseases reduced
- Morbidity and Premature mortality due to Non-Communicable diseases reduced by 10%
- Quality of health services in public health facilities improved
- Leadership and governance in the health sector enhanced to improve quality of care
- Safety of patients and health providers in health facilities improved
- Provision of eight core clinical domains for secondary services by appointing specialists in the eight core domains: Obstetrics & Gynecology, Pediatrics, Orthopedics, Internal Medicine, Radiology, Psychiatry, General Surgery, Anesthesia. The programme will appoint Health Professionals to support the specialists.
- Improve the referral network within the district through quarterly cluster meeting by conducting quarterly cluster meetings with feeder facilities.

The budget for 2023/24 financial year shows an increase of R63.908 million due to additional baseline allocation to fund COLA in compensation of employees and maternal priorities. A budget of R20 million was allocated to fund the increase of neonatal beds and the establishment of paediatric ICU in Themba and Mapulaneng hospitals and priorities were achieved in the current financial year. The beds were established in the 2023/24 financial year. The increase in the 2024 financial year was due to the wage cost carry through of the wage agreement, intake of medical doctors amounting to R10 million and reprioritization within to fund key accounts and non-negotiables throughout the MTEF.

**8.4.2. Service delivery measures**

Refer to departmental Annual Performance Plan for 2024/25.

**8.5. Programme 5: Central Hospital services****8.5.1. Description and objectives**

The purpose of the programme is to render secondary and tertiary health care services and to provide a platform for training of health care workers including research.

The strategic priority of the programme is to overhaul the health care system by improving quality of care including the implementation of National Health Insurance.

The high-level strategic priorities of the programme are as follows:

- Maternal, Neonatal, Infant and Child Mortality reduced
- Morbidity and Premature mortality due to Communicable diseases reduced
- Morbidity and Premature mortality due to Non-Communicable diseases reduced by 10%
- Quality of health services in public health facilities improved
- Leadership and governance in the health sector enhanced to improve quality of care
- Safety of patients and health providers in health facilities improved
- Improve clinical governance at tertiary hospitals- Conduct the monthly Mortality and Morbidity reviews in all domains.
- Establish oncology and cardiology services at Rob Ferreira hospital and nephrology services at Witbank hospital.

*Central Hospital Services* provides tertiary health services and includes the National Tertiary Services Grant provided to scale up tertiary services in the two tertiary facilities. The programme is underfunded in the National Tertiary Services Grant of which the Department only receives 1 per cent of the provincial allocation. The increase in 2023/24 financial year was due the additional baseline allocation to fund the establishment of 4 paediatric ICU and 4 paediatric high care beds. The budget allocated for the above-mentioned priority amounts to R10 million. The neonatal ward is fully functional at Witbank hospital as the required staff was appointed. In which were achieved in the said year. The oncoming year the programme growth was largely due to the wage cost carry through, increase on the NTSG grant to establish new tertiary services, intake of medical officers amounting to R10.109 million and reprioritization into the programme to adequately fund key account accounts and non-negotiables. The Oncology component has been moved to NTSG grant from the NHI grant in programme 2.

**8.5.2. Service delivery measures**

Refer to departmental Annual Performance Plan for 2024/25.

**8.6. Programme 6: Health Science and Training**

**8.6.1. Description and objectives**

The purpose of the Health Sciences and Training programme is to ensure the provision of skills development programmes in support of the attainment of the identified strategic objectives of the Department.

The high-level strategic priorities of the programme are as follows:

- Development of the skills of health care professionals by implementing the workplace skills plan
- Preparing for the accreditation of the EMS college
- Capacity development by increasing the number of first year nursing students.
- Implementation of the new curriculum for nursing college.
- Implement leadership and management programmes for emerging, middle and senior management.
- Implementation of internship programme for support programmes.

The sub-programme: *Nursing Training College* provides for the development of professional nurses in the nursing college. The increase in the 2023/24 financial year is due to the additional funding to cater for the effect of COLA. The decline in 2024/25 financial year is due to the fiscal consolidation reduction.

A budget of R 30.485 million was allocated to fund the HWSETA and an amount of R 20.980 million was budgeted for the Cuban programme. The Programme will continue to implement the new curriculum and a special project was initiated to ensure that the college is fully accredited as a partial accreditation was obtained in the 2019/20 financial year. An additional budget amounting to R 5 million allocated in the 2023/24 financial for training is maintained throughout the 2024/25 MTEF period.

The sub-programme: *Training Other*, the significant increase in the training other than the COLA is due to the registrar programme that was shifted into this sub-programme and is sustained over the outer years.

### 8.6.2. Service delivery measures

Refer to departmental Annual Performance Plan for 2024/25.

## 8.7. Programme 7: Health Care Support Services

### 8.7.1. Description and objectives

The Health Care Support Service programmes aim to improve the quality and access of health care provided through:

- The availability of pharmaceuticals.
- Rendering of forensic health care that contributes meaningfully to the criminal justice system.
- The availability and maintenance of appropriate health technologies
- Improvement of quality of life by providing needed assistive devices.

The high-level strategic priorities of the programme are as follows:

- Improve availability of medicines
- Procurement of FPS vehicles and medical equipment to improve quality of medical investigations
- Support rational use of laboratory and blood services.
- Provision of imaging services compliant to Radiation Control prescripts;
- Procurement and maintenance of medical equipment;
- Provision of comprehensive medical orthotic and prosthetic care;
- Provision of quality healthcare through clean laundry and improve availability.

The *Laundry Services* sub-programme provides laundry services to Middelburg, Bethal, Tintswalo, Mmamethlake, Themba, Mapulaneng, and Barberton hospital. The reduction in 2022/23 is due to the reprioritization to other subprograms. The maintenance of the Laundry Equipment will be funded in programme 8. The reduction in the programme amounting to R 2.416 million was due to the fiscal consolidation reduction.

The *Engineering* Sub-programme provides maintenance services for medical and allied equipment as well as procurement thereof. The increase of R 5.821 million is due to the increase of the assistive devices. The MRI was budgeted in the in the oncoming financial year.

The increase in the Forensic sub-programme in 2022/23 financial year was due to the carry through effect of COLA in compensation of employees and the additional baseline allocation to procure forensic vehicle. The allocation amounts to R 15 million. The programme has budgeted for debriefing, histology as well as forensic equipment. The vehicles were procured to replace the old fleet in the current year. In the 2024/25 MTEF the decline of R 16.336 million was due to the reduction of the allocation to replace the forensic vehicles because of the fiscal consolidation.

The Orthotic & Prosthetic services has budgeted on machinery and equipment to replace orthotic machines. In the 2023/34 financial year an amount of R 1.992 million was allocated to the sub-programme to continue to replace the old machines. In the 2024/25 MTEF the subprogramme grows is due to the wage cost carry through.

Pharmaceutical sub-programmes the budget increase in 2023/24 financial year was due to the reprioritization to fund the warm bodies on compensation of employees. This sub-programme serves as a trading account for medicine for the department. The subprogramme grows by the CPI over the MTEF period.

The programme has prioritized the construction of Hi-Tech Hospitals. The construction of the Hi-Tech hospitals was ongoing in the 2023/22 financial year. The following project are budget under the equitable; Mapulaneng, Witbank, Middelburg, Mmamethake and Linah Malatji Hospital. A budget of R 636.519 million was budgeted for the above-mentioned projects. An amount of R 200 million was rescheduled to the current financial year for the New Middelburg hospital project. A budget amount of R 80 million was added to the baseline to fund the Linah Malatji Hospital.

The key cost drivers for this programme are coal, diesel, infrastructure lease, maintenance of facilities and medical equipment, and building and other fixed structures. The programme has an immense pressure on the building and other fixed structure, to complete capital projects and the additional budget added to the baseline was to address the pressures. A budget of R 50 million to fund coal and diesel was added to the baseline the pressure raised by the department on the two items. The department in response to the Eskom load shedding has funded solar energy. The department has fully spent the special allocation from the Treasury on Linah Malaji Hospital and coal and diesel.

The department has planned to improve safety and security in all healthcare facilities. That entails installation of security systems (Turnstiles, fencing, security gates, and metal detectors), installation of digital security solutions (CCTV cameras and panic buttons) and the appointment of security officers and security risk managers in the districts and hospitals. No budget was allocated for the above interventions due to budget constraints. The decline in the programme baseline in the 2024/25 was due to the decline due to a decrease in indicative baseline. However, there was an increase of R 31.084 million on the Health Facility Revitalization Grant which is only for the on-coming year and there was a reduction of R49.811 million in the 2025/26 financial year on the grant. The programme was allocated an additional R 29 million to operationalize the New Middleburg hospital and has a pressure amounting to R447.916 million for existing projects, repairs and refurbishing of theatres/buildings and maintenance of medical equipment.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

In the 2024/25 financial year, the department's cost per head allocation facilitated employment for a total of 28,436 individuals, encompassing various appointment types such as 21,079 fixed structure appointments, 1,046 statutory appointments, 215 session appointments, 532 periodical appointments, and 6,659 abnormal appointments. Among these, provisions were made for 914 critical vacancies, comprising 748 replacements, 30 additional Medical Officer appointments, 19 posts for extending operational hours, and 116 posts for operationalizing new facilities. However, the department encountered constraints in fully funding contract staff whose contracts were set to expire on March 31, 2024, due to budgetary limitations prohibiting extensions or permanent appointments. Consequently, the department will reprioritize replacements to accommodate staff needs.

Furthermore, the department faced challenges in fully accommodating the cost-of-living adjustment and pay progression over the next two financial years, resulting in limitations in appointing additional staff. Compensation of employees witnessed a 7.1 percent increase in the 2024/25 financial year due to provisions made for a 4.9 percent cost-of-living adjustment and 1.5 percent pay progression, amounting to R 666.587 million, 0.7 percent higher than the increase provided for in the 2024/25 MTEF Budget Guide.

Looking ahead, there is a projected increase of 3.8 percent in the 2025/26 financial year and 4.6 percent in the 2026/27 financial year. The department acknowledges the impact of high vacancy rates on achieving predetermined targets in the Annual Performance Plan (APP), exacerbated by the introduction of new services requiring additional staff. Recruitment efforts in the 2024 MTEF period will primarily focus on critical additional staff and replacements aligned with service delivery needs. Vacancies will be advertised in accordance with budget availability, ensuring fair competition for appointments under the Public Service Act and Regulations. Efforts to improve the turnaround time on personnel replacements are prioritized for the 2024/25 financial year to enhance operational efficiency.

- Government Immovable Asset Management Act, 19 (Act No.19 of 2007)
- The Promotion of Equality and Prevention of Unfair Discrimination Act, 4 (Act No. 4 of 2000)

### **External activities and other events relevant to budget decisions**

The Department complemented its external environment analysis for any changes that might affect its performance through the usage of PESTEL tool that is outlined below

#### ***Political factors***

The 6th political administration has reconfigured its focus in the form of seven (7) priorities. The Department of Culture, Sport and Recreation has been mandated to lead priority six (6) that deals with social cohesion and safe communities. Lack of interracial buy-in from minority groups in participating in sport and recreation activities.

According to the National Sport and Recreation Charter of 2016 it is not the policy of Government to advocate the racial composition of national teams, nor to prescribe to National Federations (NFs) and Provincial Federations (PFs) on how they should select their teams. Both NFs and PFs should be empowered to implement effective transformation. Sharing best practice should be encouraged.

In conjunction with the sport community, the Department will pursue its responsibility to accelerate transformation in sport, making sport accessible to all South Africans, making more funds available to sport development and to ensure that systems are in place that will assist talented athletes to reach their full potential. In the 2024/25 financial eight (8) sport leagues will continue to be supported in order to realize integration that will cross such cultural and racial barriers.

High number of community protests coupled with xenophobia hamper service delivery. Some of the protests are also violent to such an extent that public libraries and other social amenities are being burnt down. This necessitate the need to ensure that these facilities are insured by the hosting municipalities as part of mitigating the challenge for an example part of Arconhoek public Library in Bushbuckridge was engulf with fire in 2022/23 and still closed while waiting for insurance claim by the Bushbuckridge Local Municipality.

In addition, the Department has established "Friends of the Libraries" which are the community-based structures that will advocate for the importance and protection of these facilities against possible vandalism.

Integrated planning with the Department of Community Safety, Security and Liaison is also in place to provide security services in certain public libraries where Local Municipalities are unable to provide these services.

Lastly, the Department also strengthen its intervention through the installation of CCTV camera in all public libraries and museums. This work is being implemented in phases of which phases 1 and 2 are completed. One hundred (100) libraries are fully installed with cameras. Phase 3, involving twenty

libraries and museums is planned for 2024/25 FY. This security measures activities will be covered in the Annual Operation Plan (AOP) 2024/25 financial of the Department.

### **Economic factors**

The government fiscus are under severe strain and the budget allocation of the Department increased from R609 249 million to R652 496 million. The impact is material to Programme 4: Sport and Recreation to the extent that they had to increase one target of Mpumalanga Arena, planning and design infrastructure.

The Heritage & Museum Services continue to be negatively impacted. The maintenance of museums has been scaled down. This includes ongoing maintenance of Kghodwana Cultural Village that will be continued through utilization of EPWP coordinators utilizing new technology without compromising the indigenous outlook of the facility.

The MTEF budget allocation only cater for the inflation with little significance for the Department to increase its scope of service delivery. In addition, there are also varying factors that are as follows:

- Number of community conversations / dialogues implemented to foster social interaction that is reflected as three through the MTEF period. This is because of the magnitude of each session that can only be provided once in each of the three districts. Hence target remains the same in the outer years.
- Number of Arts and Crafts cooperatives supported. This target has been aligned with seventeen local municipalities to ensure spatial distribution of little resources in all corners of the Province.
- Number of arts and culture community structures supported has been reduced from thirteen to eleven due to reprioritization of budget internally. On the other hand sport and recreation structures were maintained at six.
- Both targets “Number of athletes supported by the sports academies” and “Number of learners participating at the district school sport tournaments” are targets that are allocated by National Sport, Arts and Culture to each province prorate or consistent the budget allocated in the Conditional Grant.

The Department will strive and work towards the attainment of MTSF preferential procurement target of 40% procurement through women owned companies as approved by cabinet. This planned output will be incorporated into the Annual Operation Plan (AOP) 2024/25 financial year and gradually introduced since the Department already have multi-year contracts that are still expected to run its course. However, tracking of this key output is still a challenge due to unavailability of the system that makes it easy to prioritize these designated groups when procurement of goods and services is undertaken.

### **Social Factors**

The adverse of COVID-19 pandemic that extended from 2020 to 2021 has dictated change of the working culture. The Department came with alternative service delivery mechanism which were successfully embraced. Some of these interventions will be continued in 2024/25 financial year as follows;

- Utilization of on line Culture and Sport programmes utilizing social media such Facebook, twitter and Departmental website.
- Installation of Wi-Fi service and the development of the website and maintenance of APP to market museums.

Inconsideration of the paradigm shift towards a digital age the Department invested for the first time in 2020/21 financial year into electronic books (e-books) to cater for users in the seventeen (17) Local Municipalities and all schools of Mpumalanga. In the entry year 2020/21 financial year two thousands (2 000) electronic books were procured and accumulatively increase with one thousand (1 000) books per annum. In 2024/25 financial year, the 5745 baseline will be accumulatively increased to 6745 in order to cover broader scope of selections. In addition it will be the priority of the Department to advocate for the usage of these electronic books through awareness campaigns to be rolled in all public libraries.

The Department is currently servicing (120) public libraries. For the libraries to remain relevant to the changing times, it would be prudent for the Department to invest more on ICT as has already started. The trends on public library usage strongly reveal a paradigm shift towards a digital age. Most of the users prefer to search information online than using a traditional book and the Department is gradually adapting itself to these changing times in order to remain relevant to the needs of our people.

A remarkable success has been recorded through provision of free WI FI to all public libraries. Users can use their own gadgets to log inn into internet without making long queues on the available computers per library. However, the implementation of controls to curb the abuse of the service by some users is an area that need to be prioritized by Local municipalities. The provision and roll out of e-books will positively respond to the Fourth Industrial Revolution (4IR). This will also supplement the traditional way of collection development through the provision of physical books in libraries.

Persistent electricity load shedding also had an effect to the delivery of library services. The Department has rolled out Uninterrupted Power Suppliers (UPS) to all libraries and museums in 2022/23 FY for effective and efficient smooth running of systems during power outages. The system will be continued in 2024/25 to ease pressure brought by shortage of electricity in the country. However, this is a short-term solution as the Department is exploring other power back-up opportunities like inverters and or solar panels.

Access to records held by the state is still a challenge because currently people must call or walk in to the repository to consult documents. The Department has not adopted e-governance fully as a result not able to utilize technology optimally. National Archives is piloting Atom (Access to Memory) software, which was built in conjunction with State Information Technology Agency (SITA) to make manage archives with the help of technology for easy access. Tool of trade: provide laptops and desktops. This project will be implemented when necessary, budget is made as the shared service by the Provinces that includes Mpumalanga.

The use of technology to track athlete's performance is an area that need to be explored by the Sport for the athletes in Province from tender age until they reach professional level. Utilization of social media also give an opportunity to promote sport in the province.

### **Environment Factors**

T The restriction that were previously imposed to sport, art and culture as a measure contain the spread of COVID-19 virus was completely eased in 2022/23 financial year. The Department project went on full scale in implementing its projects and programmes in 2023/24 financial year and these will be continued in 2024/25 financial with more traction.

The risk of natural disasters is mushrooming in recent years that includes floods that erode critical infrastructure important for service delivery in the sector. The Department is having a Disaster Management Plan (DMP) to manage such unforeseen incidents. The remedial work against the destruction of public infrastructure encountered towards the end of 2022/23 financial year has been incorporated in the Annual Operational Plan (AOP) 2023/24 financial year while the rest will be attended in the outer years.

### **Legal Factors**

The outlook of the Department in terms of its size will significantly change as it gives support to Archives and Public libraries as per the Republic of South Africa Constitution (Act No. 108 of 1996) Section 104 (1) (b) (ii) schedule 5 part A. The Act stipulates that libraries and archives other than national libraries and archives are exclusive legislative competence of the Province. The Province is currently giving support to all the public libraries and archives in the Province with relevant resources.

The Municipal Infrastructure Grant (MIG) is allocated directly to Local Municipalities and the Department utilize the MUNMEC to track progress on the implementation of sport and cultural infrastructure.

The Mpumalanga Provincial Language was promulgated in 2014 and not cash backed. Failure to implement the Act has resulted in the intervention of the portfolio committee which has since summoned the Executive Authorities for Finance, Education and Culture, Sport and Recreation to find budget.

The establishment of Mpumalanga Creative Industry Commission through Mpumalanga Economic Growth Agency (MEGA) was heralded as panacea for the ailing film industry in the province. Unfortunately to date, the commission is yet to see the light and the province is losing millions as films are shot without any beneficiation for the province. Hence the establishment of the film office is pivotal to regulate the film industry.

### **Aligning departmental budgets to achieve government's prescribed outcomes**

In the 2023/24 financial year the 6th administration is its mid-term to fast track the implementation of seven (7) priorities that form area of focus within the period MTSF period 2019 – 2024. The Province is committed towards the realization of a cohesive society with its impression on National Development Plan (NDP) 2030 reconfigured as priority six (6) Social Cohesion and Safe Communities.

Social Cohesion is an important mandate that is defined in the Provincial Social Cohesion Strategy as a tool that emphasizes on removing barriers and encouraging positive interaction between various social groups and creating communities where people feel that they belong and are comfortable to interact with each other despite their differences.

The Medium-Term Strategic Framework (2019/20-2024/25) explicitly outlined the important milestones of all priorities of the 6th administration that includes priority six (6) Social Cohesion and safe communities. The Department managed to align the mandate of the institution as reflected in; Strategic Plan 2020 – 2025, Annual Performance Plan 2023/24 and Annual Operation Plan 2023/24 to the government's priorities encapsulated in the Medium-Term Strategic Framework (2019/20-2024/25).

The Department strive to attain its projected impact statement; “An active, creative, informed and patriotic society”. The pillars that will carry the realization of this impact statement relates to the implementation of the key outputs and outcomes in the Annual Performance Plan. These important outcomes can be listed as follows:

- Fostering constitutional values
- Contributing towards equal opportunities, inclusion and redress
- Promoting social cohesion through increased interaction across space and class
- Promoting active citizenry and leadership

The Strategic Plan 2020 – 2025 the Department has aligned its plans according to National Development Plan and revised MTSF 2019-2024. The emphasis will be on impact, outcomes and key outputs against the priority six (6) Social Cohesion and Safe Communities mandated to the Department.

## **2. Review of the current financial year (2023/24)**

The overall main appropriation for the current fiscal year is R652 496 million represented by equitable share R419 643 million and conditional grants amounting to R232 853 million.

The programme administration was able to render support to the core programmes from Strategic planning, financial management support, procurement, financial support and reporting.

The department managed to drive social cohesion and nation-building programmes through two social cohesion dialogues and conversation. In addition, through support of events such as Metro Awards, Mpumalanga Sports Awards, Cycling tournament, Commemorative days and Mpumalanga Cultural Xperience.

Community-based structures in both culture and sport were supported in order to cover broader space of service delivery within the sector. The structures supported includes thirteen from Cultural Affairs and five from Sport and Recreation. Some of the transfers are affected by non-compliance by some structures.

Investment in infrastructure development was also key wherein two new libraries at Ethandukukhanya and KwaMhlanga were exceeded target due to acceleration. These projects will be completed earlier than planned.

Lastly, the department managed to promote social integration through sport programmes that cover both schools and communities. The Mpumalanga Sport Awards were hosted at Mnotweni Arena and broadcasted by SuperSport Variety four in partnership with MTPA, Ndalo lodge & hotel group, Curro Academy, National Lottery Commission (NCL) and Nedbank as a prestigious event that honour best achievers in sport.

In addition, the Department initiated the process to provide bulk services for the High-Altitude Training Centre. This will complement the process of securing PPP investment of the project.

The provision of equipment and attire to 60 clubs and 17 sport municipal hubs were implemented and The implementation of 100 Schools is planned to be implemented on the 4th quarter 2023/24 financial year.

### 3. Outlook for the coming financial year (2024/25)

To successfully realize the Annual Performance Plan 2023 - 2024 all stakeholders that include the sport and cultural structures volunteers will need to join forces as well as partners and funders. In addition, an integrated approach with other government institution namely but not limited to DoE, DEDT, MTPA, DSD, DPWRT and all District and Local Municipalities as well as House of Traditional Council.

The Department is fully committed to implement the Annual Performance Plan 2023 - 2024 in line with the Strategic Plan 2020 – 2025 for the benefit of the citizens of Mpumalanga. Monitoring and evaluation tools shall be established and implemented to ensure that departmental programmes are tracked continuously. Review and update reports shall be produced quarterly and annually to ensure the implementation of the monitoring and evaluation tool.

The planned key outputs for the next MTEF period are as follows:

- Use the national gold panning championship at Thaba Chweu Local Municipality as a traditional sport to market museums and built social cohesion nationally. In addition, the Province will participate in 2024 World Gold Panning Championships at the Czech Republic.
- Standardized geographical names and features in the province through review of six (6) features per annum and popularization of the existing.
- Contribute towards non-racialism and combat racism, racial discrimination, xenophobia and related intolerance through seven (7) National Days commemorative days namely, Freedom day, Youth day, Women's day, Heritage Day, National Day of Reconciliation and Human Rights Day.
- Promote cultural diversity and integration while enhance cultural tourism through support and implementation of the three (3) key cultural events namely, Mpumalanga Cultural Xperience, Innibos National Festival and Metro FM Awards.
- Finalize construction of three (3) new libraries Mmamethlake, Louville and Warbutorn, to be completed in 2024/2025 financial year. One (1) new library to be initiated at Mavilijan in 2024/2025 FY and completed in the following year. Simile existing public library will be upgraded in 2024/25 financial year
- Support of one hundred and twenty two (122) existing with resources to increase access to information.
- Supply of new library materials to public libraries to empower learners and communities with knowledge through supply of six thousand seven hundred and forty five (6745) electronic library materials to public libraries.
- Host Mpumalanga Sport Awards to support programme that honour men and women in sport.
- Provide learners eight thousand (8 000) learners in sport through provision of opportunities in regional district tournaments linked to school sport seasons hosted.

- Implementation of High-Altitude Training Center bulk services: stage 2 (portable water & waste treatment), in 2024/25 financial year.

## 4. Reprioritisation

Overall, reprioritization was done to cater for compensation of employees.

Under programme 3: Library and Archive Services reprioritisation had been done to fund compensation of employees for the appointment of additional personnel required to operationalise libraries and for library infrastructure development. The economic classification most affected by reprioritization is goods and services.

## 5. Procurement

The Supply Chain function will continue to serve as an integral service delivery vehicle of the department. The Supply Chain function of the department forms part of the Administration Programme which render strategic administrative support to the core programmes. The department is looking forward to strengthening Supply Chain function on Asset Management and procurement.

On a yearly basis, the department procures library books, library material, library ICT services and library furniture and equipment as part of its library services function. The department also procures sports attire and equipment as part of the sport development mandate and office furniture, equipment and consumables.

- Integrated programmes and services to support, care and empower victims of crime
- Integrated services for anti-substance abuse, prevention, treatment, and rehabilitation

***Development and Research***

Provision of integrated poverty alleviation services through sustainable development programmes in partnership with community-based organisations. Creation of an environment to help young people to develop constructive, affirmative, and sustainable relationships while concurrently providing opportunities for them to build their competencies and needed skills to engage as partners in their own development and that of their communities.

**Institutional Policies and Strategies over the Five-Year Planning Period*****Community Development Policy Framework***

The framework regulates and guides the community development interventions of the department.

***National Family Policy 2006***

This policy requires the department to promote and strengthen functional families as well prevent vulnerability in families.

***Integrated Service Delivery Model***

The department is required to implement the guidelines regarding the critical steps in the change process and practitioners to ensure positive change as well as clarify and define developmental approach towards social service delivery.

***National and Provincial Gender Policy Framework***

The department is required to implement the guidelines relating to the process of developing laws, policies, procedures, and practices which will serve to ensure equal rights and opportunities for women and men in all spheres of government as well as in the workplace.

***Policy Framework on Orphans and Children made vulnerable by HIV and AIDS***

The policy framework mandates the department to promote an enabling environment for more effective delivery on commitments to orphans and other children made vulnerable by HIV and AIDS.

***Children's Act 38 of 2005 as amended***

The Act stipulates that the best interest of children should be considered as paramount in decisions relating to children. It gives effect to certain rights of children as contained in the Constitution and to set out principles relating to the care and protection of children.

***Population Policy for South Africa, 1998***

The policy requires the Population Unit within the department to promote the integration of population issues in development planning with the view of achieving sustainable human development.

***White Paper for Social Welfare, 1997***

The White Paper sets out the principles, guidelines, proposed policies, and programmes for developmental social welfare services in South Africa, including those provided by the department.

**Overview of the main services that the department intends to deliver.**

Provided below are the main services that the department intends to deliver in 2024/25 financial year.

***Care and support services to families***

Services under this focus area relate to services aimed at promotion of Healthy Family Life, Family Strengthening and Family Preservation. It also focusses on Marriage enrichment programmes which are critical in ensuring family stability and upbringing of children. The programme also focusses on capacitating parents with parenting skills to ensure that they are empowered to exercise their parental roles and thus mitigate against the impact of dysfunctionality in families  
Expand and accelerate quality services to children

Services provided under this sub-programme are aimed at ensuring that services to children in need of care and protection are provided in a manner that takes into consideration the best interest of children. They also ensure that statutory services as prescribed in the Children's Act are in line with the Continuum of Care Early provision.

The Department provides the Child Protection Services and Partial Care Services in partnership with Non-Profit Organisations (NPOs).

***Community Based Prevention and Early Intervention***

The community-based prevention and early intervention services play a critical role in early identification of children facing vulnerability in communities. These services serve as a first point of entry or Orphan and Vulnerable Children (OVC) in need of interventions. The department will intensify and strengthen its community-based prevention services targeting orphaned and vulnerable children in communities. These are services provided through interventions by Child and Youth Care Workers who work 24 hours through the life space of the child. The services provide an early identification of children who are vulnerable and provides them with services while long term solutions are sought.

***Enhance capacity, capability and partnership with all stakeholders and civil society.***

Services provided include the following: support to households, NPOs, Cooperatives and Communities through funding, capacity building and training. To develop and implement programmes to protect and prevent elder and persons with disabilities abuse and also implementation of community-based programmes that promote prevention to vulnerable groups.

***Substance abuse, prevention, and rehabilitation***

Services provided include the following: implementation of minimum norms and standards for inpatient treatment, outpatient treatment and community-based centres, establishment and support of provincial substance abuse forums and local drug action committees, and treatment of substance abuse.

***Coordinate and monitor development interventions including food security through household profiles.***

The following services will be delivered and coordinated under this focus area:  
access to food, including cooked meals through departmental center-based programmes  
provision of support to vulnerable groups  
promoting local food production and consumption of nutritious food

**Youth Development**

Services include skills development programmes, financial support to service providers delivering youth development services, establishment, and support of youth centres as well as provincial and districts youth forums.

**Strengthening Victim Empowerment (VEP) Services**

This priority focuses on among others, to enhance care, healing and support to victims and survivors of GBVF

Strengthen community and institutional response in the provision of integrated care and support services to victim support centres through capacity building, technical support and monitor implementation of services and compliance with policy guidelines.

Improve access to psychosocial services, shelters, and establishment of Khuseleka one stop centres as safe houses for victims of GBVF in the province

Brief analysis of the demands for and expected changes in the services and the resources (financial, personnel, infrastructure) available to match these

Demands for services by the population of the province range from treatment and rehabilitation of substance abuse, care and services for older persons, services for persons with disabilities, crime prevention and support, children services, support to persons affected by HIV and AIDS, care and services to families, youth development services and victim empowerment which are provided under the five sector agreed programmes.

In 2024/25 financial year, the Department will expand services and interventions to households and co-operatives through sustainable livelihoods initiatives.

Services are delivered to communities at sub-districts, branch offices and welfare facilities. A budget of R82 308 million is allocated for social infrastructure projects delivery in 2024/25 financial year. Detail information on infrastructure projects is provided under section 5.4.1 of this document.

Brief information on external activities and events relevant to budget decisions

### ***Natural disasters***

The Department is expected to provide provisional relief to affected communities and or households with basic household supplies such as food, clothing, blankets et cetera. Due to the nature of natural disasters, regarding its extent and impact, thus budgeting for disasters is always not definite. The extent and impact of the natural disasters varies every financial year, thus budgeting for social relief is not solely based on the historical information but on the relevant available information such as climate predictions and others. However, a reasonable allocation is made over the MTEF period to cover costs associated with provision of social relief to affected communities and households.

### ***Global economic factors***

Global economic growth is estimated to decrease from 3.5 per cent in 2022 to 2.9 in 2023. South Africa economy grew by 0.6 per cent in the second quarter of 2023 is above the estimated 1.9 per cent during the Medium-Term Budget Policy Statement (MTBPS). The impact of the COVID-19 coronavirus outbreak on South Africa was a double-blow to an economy that was already down from a technical recession in the third and fourth quarter of 2019 and that's before counting the risks of the virus spreading locally.

Europe is one of the major trading partners of South Africa, thus the decision by the British public to vote in favour of leaving the European Union in a referendum on 23 June 2016 has consequences for South Africa. The "Brexit" was originally due to happen on 29 March 2019, however the deadline was delayed twice after Members of Parliament rejected the deal present by the former Prime Minister. Consequently, these delays result in uncertainty regarding its impact on the South African economy.

The invasion by Russia of Ukraine in February 2022 resulted in disruptions on supply chain logistics around the World. Consequently, the invasion raised fear of food security worldwide that resulted in increase on food inflation grew sharply due to shortage of maize, wheat, sunflower oil and fertilizers. Furthermore, Russia produces 13 percent of global output of crude oil, thus the invasion of Ukraine negatively affected the supply of crude oil globally that resulted numerous fuel price escalations.

### ***Local socio-economic factors***

Since the economic downturn in 2008/09, the local economy has struggled to achieve even the modest world growth levels. South Africa's forecasted growth rate up to 2025 is expected to continue lagging average world growth prospects and rather labour along for most of the period in line with the low forecast for advanced economy. Over the next three years the growth of the local economy is expected to average 1.0 per cent, reflecting some structural weaknesses such as inadequate electricity supply. According to the Statistics South Africa Mid-Year population estimates 2023, the population of the Province is 4 748 541 which equates to 7.8 per cent of the national population of 60 653 931.

The Province recorded the largest share of decrease in official unemployment rate in the fourth quarter of 2022 at a rate of 1.0 percent

Mpumalanga Province official unemployment rate is the 3rd highest among the nine provinces at 32.9 per cent, whilst the expanded unemployment rate increased by 0.2 per cent compared to the fourth quarter of 2022. This clearly demonstrates a situation in which a number of families and households under distress in the Province have increased which require provisional assistance and support from Government to provide the safety net.

In 2024/25 financial year the Department will profile 155 communities and 3 600 households to support integrated services to communities and households. A total number of 250 households and 15 co-operatives will be supported through sustainable livelihoods initiatives benefiting 1000 individual members. Fuel price escalations also affect the provision of services considering that the service delivery operations of Social Development sector require frequent mobility of social service professionals to communities and households.

### **Aligning Departmental budgets to achieve government's prescribed outcomes**

The presidency identified 7 priorities in the MTSF to address the main strategic priorities for government as follows:

- Building a capable, ethical and developmental State
- Economic transformation and job creation
- Education, skills and health
- Consolidating the social wage through reliable and quality basic services is another important priority
- Spatial integration, human settlements and local government
- Social cohesion and safe communities is another key priority
- Better Africa and world.

The Department of Social Development Sector is expected to develop and align the strategic plans (2020/2025) and Annual Performance Plans (APPs) (2024/2025) to the NDP 5-year Implementation Plan including the sector plan/priorities. It sets targets for implementation of the priorities and interventions for the 5-year period and states the Outcomes and Indicators to be monitored.

The department of Social department has been appointed to lead and coordinate Priority 4- by consolidating the social wage through Reliable and Quality Basic Services for 2019-2024 MTSF, although the department will be contributing to most of the other priorities.

The department will continue to champion “An Inclusive and Responsive Social Protection System”, which is designed to give effect to Chapter 11 of the National Development Plan (NDP) 2030. A comprehensive, inclusive and responsive social protection system ensures the resilience of citizens. Social protection is critical for income security, as well as the flexibility and competitiveness of the economy, particularly in an environment where change will accelerate as cultural, climate and technological change put traditional livelihood, solidarity, and coping mechanisms under more pressure.

A continuing, increased focus on this comprehensive, inclusive, and responsive social protection regime will become more urgent in the next five years. This requires an effective policy framework and accompanying accessible mechanisms (norms, standards, and processes) that enable economic inclusion. Therefore, the next five years will see the implementation of a consolidated social wage and social protection system to safeguard the livelihoods of all South Africans. This

requires actions to improve the reliability and quality of basic services with a focus on affordability and meeting the needs of vulnerable communities. The capacity, efficiency, effectiveness, targeting and alignment of the existing social system must be improved.

The department has identified the uncertainty due to COVID 19 Pandemic as amongst the challenges to the realization of the goals and objectives in the plan. The ability to pioneer, innovate, be flexible and adapt to new approaches has assisted to ensure that service delivery is not affected. The availability of COVID 19 Legislation and regulations has even makes it possible to deliver services as required. The available system in the department requires enhancement in monitoring and supervision to provide more effective and efficient services. The availability of technological systems requires to be activated and implemented fully to realise the benefits to the department.

The service delivery operations of the social development sector environment provide limited space or sources for revenue or receipts generation and collection. Specific receipt sources of the Department are largely from patients' fees item generated and collected from departmental treatment centres.

### 6.3. Donor funding

The Department does not have any donor funding received.

## 7. Payment summary

### 7.1. Key assumptions

The below listed key assumptions form the basis of the 2023/24 budget:

The compensation of employees' allocation will fund remuneration costs of filled posts and replacement posts including costs associated with grade progression of eligible employees.

The day-to-day operations of the Department are funded from goods and services. Consequently, the allocation of goods and services provides for the payment of key cost drivers namely, rental of office accommodation and office equipment, running costs of government fleet, communication, observation of sector calendar events, provision of provisional social relief of distress to households, travel and subsistence costs for social workers, community development practitioners and other related professionals, and provision of catering services at welfare facilities.

Services are provided to communities in partnership with the Non-Governmental Sector. Thus, transfers to Non-Profit Organisations shares the second highest budget allocation of the total budget after remuneration costs.

Construction of new social infrastructure namely, sub districts offices, local offices, secure care centre, treatment centre, early childhood development centres and youth development centre is funded under buildings and other fixed structures.

Assumptions are also based on the Consumer Price Index (CPI) projections as provided by National Treasury.

### POLICY MANDATES

#### *Habitat Agenda*

In 1996, at the United Nations Habitat II Conference on Sustainable Human Settlements in Istanbul, the South African government, along with other United Nation members, committed itself to the Habitat Agenda for sustainable human settlement. The Habitat

Habitat Agenda is a global call to action at all levels. It offers, within a framework of goals, principles and commitments, a positive vision of sustainable human settlements – where all on a progressive basis have adequate shelter, a healthy and safe environment, basic services, and productive and freely chosen employment. The goals of the Habitat Agenda, as adopted at Istanbul are “adequate shelter for all” and “the development of sustainable human settlements”.

In the Habitat Agenda adequate shelter for all is to be achieved through an enabling approach to the development and improvement of shelter that is environmentally sound by committing to the following objectives:

- Ensuring consistency and co-ordination of national and provincial development programmes and urban policies to support resource mobilisation and employment generation;
- Providing legal security of tenure and equal access to land for all people;
- Promoting access for all people to safe drinking water, sanitation and other basic services, facilities and amenities.
- Promoting locally available, appropriate, affordable, safe, efficient and environmentally sound construction methods and technologies;
- Providing access to housing finance;
- Increasing the supply of affordable housing;
- Promoting and upgrading existing housing stock where possible;
- Eradicating and ensuring legal protection from discrimination in access to shelter and basic services;
- Helping the family through shelter in its supporting, educating and nurturing roles in recognising the role the family plays in contributing towards social integration;
- Promoting shelter and supporting basic services for the vulnerable and disadvantaged groups.

### ***National Development Plan***

The NDP 2030 vision in rural areas which are spatially, socially and economically well integrated—across municipal, district and provincial and regional boundaries—where residents have economic growth, housing, food security and jobs as a result of integrated human settlements and infrastructure development programmes, and have improved access to basic services, housing, health care and quality education. In order to advance the vision, the Mpumalanga Department of Human Settlements will execute the following objectives in the next five years:

The Plan espouses a society where by 2030 the country should have achieved measurable progress towards breaking apartheid human settlements spatial patterns, with significant advances made towards retrofitting existing settlements offering the majority of South Africans access to adequate housing in better living environments, within a more equitable and functional residential property market.

### ***Mpumalanga Vision 2030***

Government adopted the New Growth Path (NGP) as the framework for economic policy and the driver of the country’s jobs strategy. It is against this backdrop that housing initiatives in the Province should ensure the creation of decent job opportunities. Hence,

the Department is in full swing to support undertaking to have 30% of contract jobs need to be allocated to women contractors.

### ***Mpumalanga Infrastructure Plan***

The South African Government adopted a National Infrastructure Plan in 2012. The aim of the plan is to transform the economic landscape while simultaneously creating significant numbers of new jobs, and strengthen the delivery of basic services. The plan also supports the integration of African economies.

These investments are meant to improve access by South Africans to healthcare facilities, schools, water, sanitation, housing and electrification. The plan developed 18 Strategic Integrated Projects (SIPs) and in particular SIP 18 (Water and Sanitation Infrastructure) which has seen a lot of water projects taking place in Mpumalanga complementing housing plans in the Province. Such investment in the construction of housing, ports, roads, railway systems, electricity plants, hospitals, schools and dams will contribute to faster economic growth.

### ***The National Spatial Development Perspective (NSDP)***

The ultimate purpose of the NSDP in the South African setting is to fundamentally reconfigure apartheid spatial relations and to implement spatial priorities that meet the constitutional imperative of providing basic services to all and alleviating poverty and inequality. The NSDP is a critical instrument for policy coordination, with regard to the spatial implications of infrastructure programmes in national, provincial and local spheres of government. The implication for Human Settlement is that all planning should take into account the elements of this policy, especially the reconfiguration of apartheid planning.

### ***The Seven (7) National Priorities***

The President has announced seven key priorities which have become the focal areas of the 6<sup>th</sup> administration, those are:

- Economic transformation and job creation;
- Education, skills and health;
- Consolidating the social wage through reliable and quality basic services;
- Spatial integration, human settlements and local government;
- Social cohesion and safe communities;
- A capable, ethical and developmental state and
- A better Africa and World.

The Department is contributing to all the above priorities, its key mandate is on the realisation of **Priority 4** (Spatial integration, human settlements and local government).

### ***The Provincial Growth and Development Strategy (PGDS)***

The Mpumalanga Provincial Spatial Framework is based on the principles and objectives of the NSDP and the aim of government to provide sustainable livelihoods. A PGDS is a strategic and integrated provincial development plan, providing direction and scope for province-wide development programmes and projects, within the context of a long-term perspective and taking into consideration the resources and constraints. The PGDS

provides a spatially referenced framework for both public and private sector investment, indicating areas of opportunities and development priorities, and enabling intergovernmental alignment. It guides the activities of all agencies and role-players by linking to and deepening the application of the NSDP and MTSF in areas of shared impact.

The Mpumalanga PGDS has identified six priority areas of intervention. These priority areas have been identified primarily based on the social, economic and developmental needs of the province, namely;

- Economic Development
- Development Infrastructure
- Social Development
- Sustainable Environmental Development
- Good Governance
- Human Resource Development

All the six elements of the PGDS impact directly on Human Settlement

***Reconstruction and Development Programme (RDP) of 1994***

It identified Housing as a human right and sets out framework for sustainable development

***Millennium Development Goals: Eradication of informal settlement by 2014***

It sets several goals to be achieved by a certain period. One of them is the halving of poverty by 2015. Housing is seen as a basic need and can therefore contribute towards poverty alleviation. Prioritisation of the Informal Settlements Upgrading by the National Department through the ISUP grant has increased the number of informal settlements which are been upgraded into formal settlements in the Province.

***The Freedom Charter of 1955***

It identified housing as a right and indicates that all shall be decently housed.

***The Governing Party Manifesto***

The manifesto puts emphasis upon working together in order to push the back the frontiers of poverty.

**Main services the department intends to deliver**

The Department of Human Settlements is mandated to deliver integrated sustainable human settlements in the province through the collaboration and involvement of relevant stakeholders.

**Overview of the details of the quantity and the quality of service**

The Department will deliver a total of **2 321** Low-cost housing units in various areas across the province including in Integrated human settlements and **4 293** sites will be serviced through the Human Settlements Development Grant and the Informal Settlements Upgrading and Partnership Grant.

The Department will service 1 000 sites in Kamhlushwa Ext 2 and 3, 1 000 sites in Reitkuil, 200 in Langverwarch and Goedehoop respectively and in various areas across the Province. The Department will be implementing Bulk Infrastructure projects in the following areas: Rollenston, Lehumo, Langeverwarcht, Ethandukukhanya Ext 7, Ermelo Ext 44, Reitkuil, Ronderbosch and Hospital View.

The following nationally declared Priority Development Areas will also be developed through the current financial year's grant: Nkomazi SEZ - N4 Corridor, Mashishing, Greater Ermelo/Wesselton, Emalahleni Expansion, Phola and Ogies, Verena Node, Kwamhlanga Development Area.

The informal settlements upgrading programme will focus amongst other areas, on the following: finalization of township establishment processes at Empumelelweni Ext 9,10, Rem of Farm Kwa-guqa, Lekazi (Rem of Erven 2101 Arckerville), Springvalley, Emsagweni, Hlalanikahle, Phola, Nooitgedacht, Wildebeesfontein (Waya-waya), Eziyabeni, Ntsantsane, Siyathemba, Joe Slovo and Mabuza Farm.

### **Core functions and responsibilities**

- Servicing of sites and construction of houses and other socio-economic facilities;
- Collaboration with other state departments in the delivery of public facilities;
- Collaboration with the private sector and other government agencies in the creation of integrated sustainable human settlements.
- Demands for and expected changes in the services and the resources (financial, personnel, infrastructure, etc.) available to match these.

The Department has prepared and finalized a new organogram and cabinet approval has been granted, this to improve the capacity of the department to deliver quality of human settlements that are produced.

### **Constitutional mandates**

- The mandate of the Department of Human Settlement is derived from the constitution section 26 which states as follows:
- Everyone has the right to have access to adequate housing
- The state must take reasonable legislative and other measures, within its available resources, to achieve the progressive realisation of this right.
- No one may be evicted from their home, or have their home demolished, without an order of court made after considering all the relevant circumstances. No legislation may permit arbitrary eviction.

**Schedule 4:** Housing as a concurrent competence shared by all three spheres of government

### **Other legislative mandates**

There are various legislations that govern Human settlements. In this section, we have identified key policies that have a direct impact on the Department of Human Settlements. These are:

- Rental Housing Act No 50 of 1999
- National Housing Act No 107 of 1997

- Housing Consumers Protection Measures Act No 95 of 1998
- Intergovernmental Relations Act No 13 of 2005
- Local Government: Municipal Systems Act No 32 of 2000
- The Public Service Act, 1994 (Proclamation No. 103 of 1994);
- The Public Finance Management Act, 1999 (Act No. 1 of 1999);
- The Promotion of Access to Information Act, 2000 (Act No. 2 of 2000);
- The Promotion of Administrative Justice Act, 2000 (Act No. 3 of 2000);
- The Promotion of Equality and Prevention of Unfair Discrimination Act, 2000 (Act No. 4 of 2000);
- The Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000);
- The Labour Relations Act, 1995 (Act No. 66 of 1995);
- The Skills Development Act, 1998 (Act No. 97 of 1998);
- The Employment Equity Act, 1998 (Act No. 55 of 1998);
- The Property rates Act ( Act No. 6 of 2004)
- The Social Housing Act (Act No.16 of 2008)
- The National Water Act (Act No. 36 of 1998)
- The National Credit Act (Act No. 34 of 2005)
- The Basic Conditions of Employment Act (Act No. 75 of 1997)
- The Deeds Registry Act(Act No. 47 of 1937)
- The Upgrading of Land Tenure Act ( Act No.34 of 1996)

#### **Policy mandates**

- The National Housing Code
- National Norms and Standards for Permanent Residential Structures
- Habitat Agenda

#### **Aligning departmental budgets to achieve government's prescribed outcomes**

In alignment with the Provincial Medium Term Expenditure Framework, the Department of Human Settlements is located within **Priority 5** which deals with Spatial Integration, Human Settlements and Local Government.

#### **The key focus areas are outlined as follows:**

##### ***Spatial integration***

Coordination for integrated and cohesive national spatial development.

Regional-level interventions to unlock opportunity, ensure redress and respond to environmental risks and vulnerabilities.

Ensure integrated service delivery and transformation in all places.

##### ***Human settlements***

Spatial transformation through multi-programme integration in priority housing development areas; adequate housing and improved quality living environments; and security of tenure.

##### ***Basic services***

Creating safe, healthy and economically sustainable environments through the delivery of servicing of sites, access roads and some extent the installation of bulk water and sanitation infrastructure.

## **2. Review of the current financial year (2023/24)**

The department has received a budget on the Informal Settlement Upgrading Partnership Grant (ISUPG) and the Expanded Public Works Programme (EPWP), this has compelled the department to revise its Annual Performance Plan (APP) and the Business Plan (BP). The implementation of planned targets for various interventions is currently underway, in an endeavour to increase housing opportunities, 6 197 services sites have been delivered, 1 300 housing under different housing programs completed, 62 Finance Linked Individual subsidies were disbursed. The Department continues to ensure security of tenure especially for the indigent and most vulnerable people of the Province, during the period under review, 2 307 title deeds (both restoration and new) have been issued in various municipalities throughout the province. This is despite the shrinking fiscal resources that government as a whole is confronted with.

Implementation of all intervention is guided by the Mpumalanga integrated Human Settlement Master Plan, which is still in line with the National Development Plan (NDP) and the Provincial Vision 2030, which was approved by the Mpumalanga Executive Council. Monitoring of this implementation is done at programme level, Monitoring and Evaluation directorate, Office of the Premier and other external oversight bodies to ensure alignment of the interventions with the approved plans and the mandate of the Department.

## **3. Outlook for the coming financial year (2024/25)**

The outlook for the 2024/25 financial in accordance with the draft Annual Performance Plan for 2024/25 financial year and in congruence with the 2019-2024 Mid-term Strategic Framework can be summarised in the following manner.

This is the last financial year of the MTSF for the Sixth Administration, the end of the MTSF puts enormous pressure on the Department to meet its set targets, and this is however defeated by the budget cuts that the state machinery is facing. Latest statistics has shown that the country's population has grown by 19.8% with our Province registering the third least growth of 8.3% when compared to other Provinces and Gauteng registering the highest growth at 24.3%, this in itself has implications on the distribution of resources by the National Treasury as guided by DoRA.

Section 214(1) of the Constitution requires that the nationally raised revenue be divided equitably between national government, the nine provinces and 257 municipalities. This is outlined in the annual Division of Revenue Act (DoRA). The Division of Revenue in the country takes into account the different pressures facing each province and allocates larger per capita allocations to poorer provinces which implies that population size plays a key role in the size of the allocation given to a Province. The demand for housing opportunities and other Human Settlements amenities in our Province however,

continues to grow at an unprecedented rate, which makes it difficult for supply to meet demand.

The 2022 Census report has demonstrated some positive outcomes of our intervention as a sector; Upgrading of Informal Settlements has positively influenced the number of Informal Settlement which has shown some significant decline while traditional dwellings in rural areas are also dwindling due to the implementation of the Rural Housing Subsidy Programme.

The 2024/25 financial year will in the main, focus on an endeavour to complete the multi-year projects that are currently under implementation and the attainment of the pre-determined 2019-2024 MTSF targets. These projects include informal settlements, within Kinross, Esizameleni, Empumeleweni, Ackerville, Phola, KwaGuqa, Siyazenzela, Mabuza Farm, Msholozhi and Komatipoort; Mashishing, Harmony Hill amongst others. This will allow for continued implementation of 14 existing integrated human settlements and finalisation of townships establishment. This is not only assisting with spatial targeting and addressing past spatial injustices but will culminate in the delivery of a significant high number of housing opportunities closer to areas of work.

In an endeavour to continue reducing Traditional dwellings, 100 Rural Housing Units as pronounced during the 2022 SOPA and continue with the construction of 900 Top Structure units in Emakhazeni. The issuing of Title deeds will be scaled up to address the huge backlog that the sector is having. The Province will continue to disburse First Home Finance (FHF) formerly known as FLISP to ensure that no one is left behind when it comes to the issue of dignified Human Settlements.

The sector and the Province are prioritising the servicing of sites to ascertain that more and more housing opportunities are created for the people of this Country and the Province. The Department will focus on giving priority to designated and vulnerable groups such as women, people with disabilities, youth empowerment. It should be noted however, that the budget cuts and reduction of the grants allocated to the province owing to economic crisis, might affect the delivery of the programmes.

#### **4. Reprioritisation**

None implemented.

#### **5. Procurement**

Competent contractors and implementing agents will be utilised to implement Integrated Human Settlements projects in line with the government stipulated prescripts. The Department continue to implement the panel of credible contractors in the respective districts. The planning and procurement process will be coordinated and inclusive of all key stakeholders and in line with the procurement policies. The Department will ensure that all goods and services are procured in time and in line with the legislation and enacted laws to implement better and quality integrated human settlements efficiently.

### 6.3. Donor funding

The department does not have donor funding.

## 7. Payment summary

### 7.1. Key assumptions

- The following assumptions underpins the budget
- Provision of housing opportunities primarily in mining towns and developing cities in the province
- Restoring human dignity through provision of title deeds to beneficiaries of housing opportunities
- Provision of Finance-Linked subsidy to applicants within the gap-market

- Construction of socio-economic amenities to communities in support of social cohesion
- Re-engineering of the structure increases will change the cost of compensation of employees

The overall departmental budget decreased by R161.4 million from the budget of R1.644 billion in the 2023/24 financial year. The reduction is mainly as a result of the fiscal challenges facing the Government because of the large year-to-date decline in tax revenue collections and tighter financial conditions.

On compensation of employees the department has identified and funded critical and vacant positions in order to address shortage of staff in sections like Finance. The increase also caters for the provision made for the inflation assumption on the consumer price index (CPI).

The goods and services decreased by 10 percent from R93.1 million in the 2023/24 financial year to R83.8 million in the 2024/25 financial year. The reduction is mainly as a result of the fiscal challenges facing the Government because of the large year-to-date decline in tax revenue collections and tighter financial conditions.

The transfers and subsidies depict a slight decline from R1.296 billion in 2023/24 financial year to R1.128 billion in 2024/25 financial year. The decline can be attributed to the reduction on conditional grant due to the fiscal challenges facing government and also the earmarked funding for provision of bulk infrastructure at the Parliamentary Village of which it has not been allocated a budget in the new financial year.

The payment for capital assets decreased from R5.8 million in the 2023/24 financial year to R4.8 million in the 2024/25 financial year due to the reduction in the overall budget of the department.

## 7.4. Infrastructure payments

### 7.4.1 Departmental infrastructure payments

Table 13.5 below provides a summary of infrastructure payments and estimates per category.

The increase on infrastructure is to cater for the leasing two office buildings in Gert Sibande and Ehlanzeni regional offices, which in terms of the Standard Chart of Accounts are classified as Infrastructure leases. The department is also leasing printing and photocopier machines in all the regional offices as well as the head office.

## 7.5. Departmental Public-Private Partnership (PPP) projects

The department does not have PPP projects.

## 7.6. Transfers

### 7.6.1 Transfers to public entities

The department does not transfer to public entities.

The support programme of the department has decreased by 2.8 percent from the budget of R202.8 million in the 2023/24 financial year to R197.1 million in the 2024/25 financial year due to the fiscal challenges facing government.

The increase in compensation of employees accommodates the filling of critical positions especially in the finance section and the consumer price index (CPI) inflation assumptions over the MTEF period.

The goods and services decreased by 13.6 percent, which puts pressure on the contractual obligations and other running costs of the department. The fiscal consolidation reductions have a negative impact on the functioning of the department and further elevates the current situation.

The transfers and subsidies relating to social benefits (leave gratuity) increased by 38 percent. Payment for capital assets decreased by 15.8 percent because of the fiscal consolidation reductions

**8.2 Programme 2: Housing Needs, Research and Planning**

**8.2.1 Description and objectives**

The purpose of this programme is to facilitate and undertake integrated human settlements planning. It ensures an integrated and cohesive Provincial Spatial Planning as well as facilitation of the integrated planning for development in urban, rural spaces as well as upgrading of informal settlements and the priority human settlements housing development areas.

The overall baseline of the programme decreased by 38.9 percent from the main appropriation budget of R136.482 million in the 2023/24 financial year to R83.385 million in the 2024/25 financial year. The increase of 16 percent in compensation of employees accommodates the consumer price index (CPI) inflation assumptions on the MTEF period as well as the funding of the critical vacant positions.

Goods and services increased by 97 percent to cater for travelling during monitoring of projects. The decrease of 99 percent under transfers and subsidies is mainly due to the earmarked bulk infrastructure funding for the Parliamentary Village, which has not been allocated in the new financial year.

### 8.3. Programme 3: Housing Development

#### 8.3.1 Description and objectives

The purpose of this programme is to provide individual subsidies and housing opportunities to beneficiaries in accordance with the housing policy. It ensures the delivery on breaking new grounds top structure targets as well as servicing of sites and necessary engineering functions that are associated with the delivery of bulk infrastructure. It also ensures quality of houses through the enrolment of projects with the National Homebuilders Builders Registration Council (NHBRC).

The overall baseline of the programme has slight decrease by 8 percent from the budget of R1.286 billion in the 2023/24 financial year to R1.183 billion in the 2024/25 financial year.

The increase in compensation of employees accommodates the consumer price index (CPI) inflation assumptions on the MTEF period. Funds were shifted to this programme during the adjustment budget for aligning to the current organizational structure.

The decrease over the MTEF period on goods and services relates to the reductions on the baselines due to the fiscal challenges facing government. No provision has been made for the Expanded Public Works Programme Integrated Grant (EPWP) in the MTEF period.

The transfers and subsidies relate to the funding on the conditional grants: Human Settlements Development Grant (HSDG) that has a slight decrease and Informal Settlements Upgrading Partnership Grant (ISUPG).

Refer to the departmental Annual Performance Plan for 2024/25

## 8.4. Programme 4: Housing Assets Management

### 8.4.1 Description and objectives

The purpose of this programme is to facilitate rental programmes, security of tenure and land rights through the delivery of Title Deeds. It assists the Department to achieve its targets especially on security of tenure and harmonious relations between landlords and tenants about rental housing.

The budget of the programme increased by 3 percent from the main appropriation budget of R19.5 million in the 2023/24 financial year to R20.1 million in the 2024/25 financial year. The increase on compensation of employees is due to the provision for consumer price index (CPI) inflation assumptions over the MTEF period as well as critical vacant positions.

The increase of 6.6 percent on goods and services to cater for officials working on Housing Asset Management programme. When comparing the two financial years, the transfers and subsidies in relation to the social benefits are reduced by 24 percent in the 2024/25 financial year.
