REPUBLIC OF SOUTH AFRICA

# FOREWORD

The Adjustments Budget focuses on programmes and initiatives to build an inclusive economy based on the will of the people.

It imposes responsibility on the whole provincial government to consider the economic realities and align spending with the needs of society.

Given the continuing low economic growth and constrained fiscus, the Medium-Term Budget Policy Statements advise us to adjust the Provincial Budget to respond to spending pressures in especially critical service delivery areas.

The provincial budget for the 2023/24 financial year increased by R1 billion 343 million 629 thousand from R58 billion 707 million to R60 billion 51 million.

The approach to budget allocation remains rooted in the principle objective of maintaining an appropriate balance between revenue and expenditure and reflecting the commitment to implement the electoral mandate.

As the fiscal envelope continues to narrow across the country, it is crucial to ensure allocation efficiencies and implement measures that will improve the utilisation of our limited resources so that the broad programme objectives of the state are achieved.

There is a need to accelerate the implementation of structural reforms at the national level and Province-specific interventions as articulated in the Mpumalanga Economic Reconstruction and Recovery Plan (MERRP).

# Introduction

**March:** The Member of Executive Council (MEC) of Finance, Economic Development and Tourism tables the Budget and Appropriation Bill in the Provincial Legislature.

**April:** Start of the new financial year.

**November:** The MEC of Finance, Economic Development and Tourism tables the Adjusted Budget and the Appropriation Bill in the Provincial Legislature.

## The budget cycle timeline

### The budget process

The Budget announces government spending for the next three years i.e. the medium-term expenditure framework (MTEF). Through an accompanying Appropriation Bill, the Executive seeks Legislature's approval and adoption of its spending plans for the upcoming financial year. Amounts allocated for the first year of the new MTEF period are then appropriated from the Provincial Revenue Fund in terms of the Appropriation Act. Allocations made in the Appropriation Act are shown by vote. A vote specifies the total amount appropriated per department.

The Budget also provides for a contingency reserve, which accommodates expenditure related to unforeseeable circumstances and may contain provisional allocations to be assigned to votes in the adjustments budget process later in the year.

### The adjustments budget process

The adjustments process provides an opportunity to make permissible revisions to the Budget during a current financial year in response to changes that have affected planned government spending. The adjusted budget estimates, accompanied by an Adjustments Appropriation Bill, are tabled in the Provincial Legislature by the MEC of Finance, Economic Development and Tourism. The MEC of Finance, Economic Development and Tourism tabled Adjustments Appropriation Bill (2023) on 21 November 2023 to allocate unspent funds, mainly from the contingency reserve, and additional amounts allocated to the Province and approved for a specific spending. The permissible adjustments are reflected as part of the adjusted budget, which includes the amounts initially allocated in the Appropriation Act (2023) and the Adjustments Appropriation Bill.

The Estimates of Provincial Revenue and Expenditure (EPRE) publication describes in detail the planned spending of all Provincial government votes over the MTEF period. The Adjusted Estimates of Provincial Revenue and Expenditure (AEPRE) describes in detail the revisions to spending plans for the first year of the MTEF period: the current financial year. It also includes revised spending and departmental revenue projections for the current financial year, any revisions to performance projections emanating from the Main Budget, and technical financial amendments tabled in the AEPRE.

# The 2023 Adjustments Budget

The Public Finance Management Act (1999) (PFMA) specifies the type of spending permissible as an adjustment in the adjusted budget. The Treasury Regulations, issued by National Treasury in terms of the PFMA, provide instructions on how to comply with the Act.

Due to significant and unforeseeable economic and financial events that affected the fiscal targets set out in the 2023 Budget, the adjustments contained in the AEPRE provide for baseline budget reductions and reprioritisations between economic classifications within votes. The fiscal challenges in 2023/24 originate mainly from considerable decreases in revenue collection and demand for government debt instruments. These constraints were further exacerbated by costs related to the 2023/24 public service wage agreement, which was signed in March 2023 and was not part of the 2023 Budget.

Additional allocations are also made mainly to provide support to provinces to respond to the cost of implementing the public-service wage agreement, R1.376 billion has been added to the provincial equitable share. These funds have been added specifically for the health and education sectors in the current financial year, and each province's allocation was allocated taking into consideration the full-time equivalents. Several reductions have been made to provincial conditional grant allocations for 2023/24, as a result of the current fiscal challenges faced by government.

The Adjustments Budget includes adjustments in the budget cycle supported by relevant legislation, and makes provision for:

- **Adjustments due to significant and unforeseeable economic and financial events:** When unforeseeable economic and financial events affect the fiscal targets set by the Budget, adjustments might need to be made. An example of such an event is inflation that is significantly higher than anticipated in the estimates projected for the MTEF period.
- **Unforeseeable and unavoidable expenditure:** This is expenditure that could not be anticipated at the time of the Budget. The Treasury Regulations specify that the following may not be regarded as unforeseeable and unavoidable expenditure: spending that was known when the budget was being finalised but could not be accommodated in the allocations at the time; spending increases due to tariff adjustments and price increases; and spending to extend existing services or create new services that are not unforeseeable and unavoidable.
- **Section 25 of the PFMA:** The MEC of Finance may approve the use of unappropriated funds if it is for spending of an exceptional nature. This happens if postponing the spending to a future parliamentary appropriation would seriously prejudice the public interest. The MEC of Finance must subsequently provide a report to Legislature and the Auditor-General.
- **Appropriation of expenditure earmarked in the 2023 Budget speech:** In certain instances, an amount to be allocated for a specific purpose will be announced by the MEC of Finance in the Budget speech, with the details of the annual allocations to be decided later. This is usually when plans have not been finalised in time to decide on the specific allocation amounts for the main Budget.
- **Virements:** The use of unspent funds from amounts appropriated under one main division (programme) to defray excess expenditure under another main division (programme) within the

same vote. The PFMA and the Treasury Regulations set the parameters within which virements may take place.

- **Shifts within votes:** The use of unspent funds to defray increased expenditure within a main division (programme) of a vote by shifting funds between different segments (subprogrammes and economic classifications) of the main division (programme). Shifts may include the reallocation of fund incorrectly allocated in the EPRE process. The PFMA and the Treasury Regulations set the parameters within which shifts may take place.
- **Shifts between votes:** The use of unspent funds in a vote to defray increased expenditure in another vote. Such shifts include functions being shifted to another vote or institution in terms of legislation and/or following the reassignment of responsibility for the functions. The associated assets, including personnel, and liabilities also need to be shifted.
- **Roll-overs:** Unspent funds from the previous financial year may be rolled over into the current financial year when activities planned to be completed by the end of the previous year have not been completed but are close to completion. The Treasury Regulations restrict roll-overs as follows: compensation of employees funding may not be rolled over; a maximum of 5 per cent of a vote's budget for goods and services may be rolled over; funding for transfers and subsidies may not be rolled over for any purpose other than what the funds were originally allocated for; and unspent funds on payments for capital assets may be rolled over only to finalise projects or the acquisition of assets already in progress.
- **Self-financing expenditure:** Spending financed from revenue derived from a vote's specific activities. This revenue is paid into the Provincial Revenue Fund. If self-financing expenditure is approved, these funds are allocated to the vote.
- **Declared unspent funds:** Unspent amounts that will not be spent in the current financial year, explicitly indicated as a reduction to the vote's allocation.
- **Direct charges against the Provincial Revenue Fund:** An amount spent in terms of a statute and that is not budgeted for in any programme in a particular vote. These amounts are shown as separate items, such as expenditure on debt-service costs.
- **Gifts, donations and sponsorships:** Cash amounts exceeding R100 000 per beneficiary are included in the Adjustments Appropriation Bill.

The Provincial Treasury conducted virtual Medium-Term Expenditure Hearings (MTECHs) on 17, 19 and 20 October 2023 to assess the allocative efficiencies of provincial budgets, taking into account the current fiscal climate affecting the provincial fiscal framework. This is part of the budget process, to provide monitoring and oversight responsibilities to departments and to assess progress made with budget implementation and preparation. The process highlights Departmental financial performance and budget pressures that might have financial implications and would require consideration during the Adjustments Budget.

MTECHs make recommendations to Provincial Premiers' Budget Committees, Provincial Executive Councils and other political structures tasked with taking final decisions on the budget proposals. The Budget and Finance Committee and Provincial Executive Council convened on 14 November 2023 to finalize on financing the provincial priorities that are affecting communities in the province and could be addressed from available or reprioritized funds.

Total amount adjusted budget to departments' baselines amounts to R1.303 billion addition mainly due to the following;

- ***Adjustment due to significant and unforeseeable economic and financial events (addition to votes allocation):*** To provide support to labor-intensive departments to respond to the cost of implementing the public-service wage agreement, R1.099 billion has been added to the provincial equitable share. These funds have been added specifically for the health and education sectors in the current financial year, and each allocation was allocated taking into consideration the full-time equivalents.
- ***Adjustment due to significant and unforeseeable economic and financial events (reduction to votes allocation):*** Several reductions have been made to provincial conditional grant allocations for 2023/24, as a result of the current fiscal challenges faced by government. These reductions amount to R381.156 million.
- ***Adjustment due to significant and unforeseeable economic and financial events (addition from provincial reserves):*** R573.668 million is added from provincial contingency reserves.
